Contents

List of contributors vii
List of abbreviations ix

PART I INTRODUCTION

1. Regional renewable energy approaches: An introduction to exploring legal barriers and opportunities 3
   Marjan Peeters and Thomas Schomerus
2. An EU law perspective on the role of regional authorities in the field of renewable energy 10
   Marjan Peeters and Thomas Schomerus

PART II SUPPORT MECHANISMS FOR RENEWABLE ENERGY

3. Trade law constraints to regional renewable energy support schemes 35
   Hartmut Kahl
4. Promotion of renewable energy sources by regions: The case of the Spanish autonomous communities 53
   Iñigo del Guayo Castiella
5. Transforming the German feed-in tariff system: Legal aspects from a regional perspective 75
   Henning Thomas
6. Stabilizing the grid with regional virtual power plants 99
   Moritz Meister

PART III PLANNING AND PERMITTING RENEWABLE ENERGY

7. Towards efficient administrative procedures for renewable energy projects? The Dutch experience with the Crisis and Recovery Act 123
   Kars de Graaf and Albert Marseille
8. One national wind power objective and 290 self-governing municipalities 144
   Gabriel Michanek
9. Subnational resistance against renewable energy: The case of Italy
   Stefano Fanetti and Barbara Pozzo

PART IV LOCAL (FINANCIAL) ENGAGEMENT

10. Regulatory financial obligations for promoting local acceptance of renewable energy projects
    Birgitte Egelund Olsen

11. Legal aspects of local engagement: Land planning and citizens’ financial participation in wind energy projects
    Christian Maly

12. Local investment schemes for renewable energy: A financial perspective
    Lars Holstenkamp

13. Community wind and solar: Regional renewable energy in the United States
    Sanford Gaines

PART V CONCLUSION AND PROSPECT

14. Regional renewable energy: A string of legal and financial challenges
    Marjan Peeters and Thomas Schomerus
