Tables

1.1 International River Basin—Factors for Consideration in Water Allocation Based on Helsinki Convention 13
2.1 Nile Sources, Area of Drainage Basin, Mean Discharge, and Riparian Share 20
2.2 The Average Flow of the Nile (1912–1965) (billion m$^3$) 23
2.3 Nile Water Utilization Prior to the Construction of the Aswan High Dam (billion m$^3$) 23
2.4 Egypt: Additional Irrigated Area Versus Population Growth (1902–2000) 31
2.5 Nile Water Allocation between Sudan and Egypt (billion m$^3$) 36
2.6 Lake Nasser: Critical Levels 39
2.7 Operation of Lake Nasser—Various Years (billion m$^3$) 39
2.8 Water Supply and Demand in Egypt (billion m$^3$) 40
2.9 Water Supply and Demand in Sudan (billion m$^3$) 49
2.10 Economics and Society of Nile Basin Riparians—Basic Data 54
2.11 Cereal Import and Donations in Various Years (thousands of metric tons) 55
2.12 International Agreements of the Nile Water Use 58
2.13 Criteria for Water Allocation in the Nile Basin According to Helsinki Convention 68
3.1 Euphrates-Tigris System: Length of Rivers and Basin Areas within Riparian States 74
3.2 Average Yearly Flow in the Euphrates-Tigris and Tributaries, 1931–1966 (billion m$^3$) 78
Tables

- 3.3 Discharge of the Euphrates-Tigris Rivers by Country (billion m$^3$ and percentage) 79
- 3.4 Water Projects in Euphrates-Tigris Basin (Technical Data) 85
- 3.5 Demand and Supply of Water in Euphrates-Tigris Basins (1995–2040) (billion m$^3$) 106
- 3.6 Euphrates and Tigris Riparians: Basic Socioeconomic Data 107
- 3.7 Index of Food Production per Person (100 = 1987) by Country 107
- 3.8 Grain Imports by the Tigris and Euphrates Riparians (thousands of tons) 109
- 3.9 Criteria for Water Allocation in the Euphrates-Tigris Basin 116

4.1 Jordan-Yarmuk Drainage Basin and Discharge 124
- 4.2 Irrigated Land and Water Demand in Syria (Various Years) 136
4.3 Jordan: Water Potential, Supply, and Demand 138
- 4.4 Irrigated Land and Water Demand in Jordan (Various Years) 139
4.5 Israel's Water Potential 142
- 4.6 Water Demand in Israel (1985–2010) (million m$^3$) 143
- 4.7 Water Supply and Demand in the Gaza Strip and West Bank (million m$^3$) 147
- 4.8 Water Consumed from the Aquifers of the West Bank (million m$^3$) 149
- 4.9 Exploitation of Jordan Rivers and Groundwater in 1994, Compared with Johnston Plan and Future Use (million m$^3$) 151
- 4.10 Jordan-Yarmuk Basin Riparians’ Socioeconomic Data 152
- 4.11 Dams in the Kingdom of Jordan 166
- 4.12 Water Projects in the Syrian Yarmuk Basin 171
- 4.13 Estimated Annual Flow of Southern Jordan River and Yarmuk Water (million m$^3$) 184
- 4.14 Criteria for Water Allocation in the Jordan Basin 203
- 8.1 Participants and Amounts Piped in the Turkish Peace Pipeline (thousand m$^3$ per day) 239
