## Chapter 3  Threat Prioritization: Seeking to Identify Current and Future Threats

### Potential State Actors
- A Department of State Assessment of State Threats 40
- A Department of Defense Assessment of Threats from Foreign States 45
- The Probable Lack of Well-Defined Strategic Warning of a Threat from State Actors and Unpredictable Behavior in a Crisis 49

### Foreign Terrorists and Extremists
- Continuing Threats and Counterterrorist Action 54
- Major Foreign Terrorist Groups and Extremists 57
- Threats from Foreign Students and Immigrants 74

### Domestic Terrorists and Extremists
- The Implications of Past Terrorist Attacks 80

### Probability versus Probability Theory

---

## Chapter 4  Types of Attack: Determining Future Methods of Attack and the Needed Response

### Illustrative Attack Scenarios
- “Conventional” Means of Attack 96
- Weapons of Mass Destruction 97

### Chemical Weapons As Means of Attack
- The Impact and Variety of Possible Chemical Weapons 108
- The Probable Lethality and Effectiveness of Chemical Attacks 109
- Methods of Delivery 117
- Detection and Interception 118
- Acquiring Chemical Weapons 119
- The Impact of Technological Change 122
- The Aum Shinrikyo Case Study 122
- Political and Psychological Effects 124
- The Problem of Response 125

### Biological Weapons As Means of Attack
- Categorizing the Biological Threat 135
- Case Studies: Iraq and Russia 142
- State Actor, Proxy, and Terrorist/Extremist Incidents to Date 147
- The Yugoslav Smallpox Incident 150
- Cases in the United States 150
- The Lethality and Effectiveness of Current Biological Weapons 151
- Means of Delivery 160
- Manufacturing Biological Weapons 161
- Changes in Technology and the Difficulty of Manufacture 166
- The Growing Lethality of Biological Weapons and Growing Ease of Manufacture 168
- New Types of Biological Weapons 169
- Changes in Disease: Piggybacking on the Threat from Nature 170
## Contents

**Agricultural and Ecological Attacks** 174

**The Problem of Response** 177

**Radiological Weapons As Means of Attack** 194

- **The Practical Chances of Using Radiological Weapons** 195
- **The Practical Risks and Effects of Using Radiological Weapons** 196

**Nuclear Weapons As Means of Attack** 199

- **Lethality and Effectiveness** 207
- **Is There a Threat from State Actors, Proxies, Terrorists, and Extremists?** The Problem of Getting the Weapon 216
- **The Problem of Delivery** 222
- **Dealing with the Risk and Impact of Nuclear Attacks** 222

### Chapter 5 Threat Assessment and Prioritization:

- **Identifying Threats** 237
  - Dr. Pangloss versus Chicken Little and the Boy Who Cried Wolf 238
  - The Problem of Detection, Warning, and Response 239
  - Living with Complexity and Uncertainty: A Flexible and Evolutionary Approach 239
  - The “Morning After,” Multiple Attacks; The “Morning After” and the “Learning Curve Effect” 242

### Chapter 6 U.S. Government Efforts to Create a Homeland Defense Capability

- **Key Presidential Decision Directives and Legislation Affecting the Federal Response** 245
- **Ongoing Changes in the Structure of the Federal Effort** 247
  - **The FY2000 Program** 249
  - **The FY2001 Program** 251
- **The Details of the Federal Effort** 254
  - **The Changing Patterns in Federal Spending** 255
- **Planning and Programming the Overall Federal Effort** 256
- **Antiterrorism, Counterterrorism, and Core Spending** 264
- **Spending on Preparedness for Attacks Using Weapons of Mass Destruction** 269

### Chapter 7 Federal Efforts by Department and Agency

- **Department of Agriculture** 275
- **National Animal Health Emergency Program** 276
- **Central Intelligence Agency** 277
- **Department of Commerce** 289
- **Department of Defense** 289
  - **Analyzing the Role of the DOD** 291
  - **The Size of the Current DOD Effort** 295

**Chapter 8 Federal, State, and Local Cooperation**

- Planning for Low- to Mid-Level Terrorism                        | 374 |
- West Nile Outbreak                                               | 375 |
- The Lessons from “Jointness”                                     | 377 |

**Chapter 9 How Other Nations Deal with These Threats**

- Leadership and Management                                       | 383 |
- Policies and Strategies                                           | 384 |
- Claimed Reliance on Criminal Prosecution As the Major Response   | 385 |
  and Deterrent                                                     |     |
- Oversight, Planning, Programming, and Budgeting                  | 386 |
- Resource Allocations Are Targeted at Likely Threats, Not          | 387 |
  Vulnerabilities: Limited Concern with WMD Threats                |     |
- Learning from Foreign Countries                                  | 388 |

**Chapter 10 Lessons from Recent Major Commissions on Terrorism**

- The Gilmore, Bremer, and Hart-Rudman Commissions                 | 391 |
- Areas Where the Commissions Made Similar Recommendations         | 394 |
  *Gilmore and Bremer Commissions: Executive Coordination and*     | 394 |
  *Management*                                                     |     |
  *Gilmore and Bremer Commissions: Congressional Oversight*         | 397 |
  *Gilmore and Bremer Commissions: Intelligence Gathering and*      | 398 |
  *Sharing*                                                       |     |
  *Gilmore and Bremer Commissions: Clarify Authority, Command,*     | 399 |
  *and Control*                                                    |     |
  *Bremer and Hart-Rudman Commissions: Biological Pathogens,*       | 402 |
  *International Consensus against Terrorism, and Strengthening*   |     |
  *of Public Health Systems*                                        |     |
  *Bremer and Hart-Rudman Commissions: Strengthening the*           | 403 |
  *International Consensus against Terrorism and the International*|     |
  *Convention for the Suppression of the Financing of Terrorism*    |     |
Areas Where the Commissions Made Different Recommendations

Gilmore Commission: Threat Assessments

Gilmore Commission: National Strategy for Domestic Preparedness and CBRN Terrorism Response

Gilmore Commission: Standardization of Legal Terms

Gilmore Commission: National Standards for Equipment

Bremer Commission: Treatment of Former and Future States of Concern

Bremer Commission: Targeting Terrorist Financial Resources

Bremer Commission: Liability Insurance

Bremer Commission: Realistic Exercises

Chapter 11 Conclusions and Recommendations

Correcting the Strategic Gaps in the U.S. Approach to Homeland Defense

Focusing Less on Who's in Charge and More on What They Should Be in Charge of

Planning for Higher-Probability, Lower-Consequence, and Lower-Probability, Higher-Consequence Events

Planning for Terrorism and Asymmetric Warfare

Reacting to the Uncertain Nature of the Threat

The Lack of “Transparency” in Federal Programs

Effective Action Must Be Broad-Based and Suboptimize Efficiently

Focusing on Priorities, Programs, and Trade-offs: Creating Effective Planning, Programming, and Budgeting

Managing Research and Development, Rather Than Treating Asymmetric Attacks, Terrorism, and the CBRN Threat As an Excuse for a “Wish List” and “Slush Fund”

Looking Beyond CBRN Threats: Dealing with All Medical Risks and Costs, the Need for a Comprehensive Public Information Capability, and the Linkage to Improved Strategic Deterrence and Response Capabilities

Homeland Defense and/or Law Enforcement

The Role of the Intelligence Community and the Need for Improved Intelligence

The Challenge of Operations

Rule of Law, Human Rights, Asymmetric Warfare, High Levels of Attack, and “New Paradigms”

The Need for Central Coordination and Management of the Federal Effort

Broader Solutions and New Approaches to National Strategy: Reacting to Asymmetric Warfare
