Preface xi

1 Introducing Linguistic Anthropology 1
   Why Should We Study Language? Language in Daily Life 1
   Modern Myths Concerning Languages 2
   Brief History of Anthropology 8
   Anthropology, Linguistics, and Linguistic Anthropology 11
   Summary and Conclusions 15
   Resource Manual and Study Guide 15

2 Methods of Linguistic Anthropology 21
   Contrasting Linguistics with Linguistic Anthropology 21
   Three Strains of Linguistic Anthropology, and More:
      Theoretical and Historical Perspectives 22
   The Fieldwork Component 29
   Summary and Conclusions 38
   Resource Manual and Study Guide 38

3 "Nuts and Bolts" of Linguistic Anthropology I:
   Language Is Sound 43
   The Anatomy and Physiology of Speech 46
   Articulation of Speech Sounds 48
   From Phones to Phonemes 57
   Phonemes of English 61
   Prosodic Features 62
   Etics and Emics 64
   Summary and Conclusions 67
   Resource Manual and Study Guide 68
CONTENTS

4 "Nuts and Bolts" Linguistic Anthropology II:
Structure of Words and Sentences 79
Morphemes and Allomorphs 83
Morphological Processes 86
Morphophonemics 88
The Sentence as a Unit of Analysis 89
Showing Grammatical Relationships: Inflections vs. Word Order 92
Chomsky and Transformational-Generative Grammar 96
Summary and Conclusions 99
Resource Manual and Study Guide 101

5 Communicating Nonverbally 109
Paralinguistics 110
Kinesics 111
Proxemics 113
Sign Languages 114
Writing 119
Summary and Conclusions 136
Resource Manual and Study Guide 137

6 The Development and Evolution of Language:
Language Birth, Language Growth, and Language Death 143
Communication and Its Channels 143
Communication Among Social Insects 145
Communication Among Nonhuman Primates and Other Vertebrates 147
When Does a Communication System Become Language? 152
Milestones in Human Evolution 153
Design Features of Language 157
Language as an Evolutionary Product 161
Monogenesis vs. Polygenesis 163
Estimating the Age of Language: Linguistic Considerations 164
Estimating the Age of Language: The View from Prehistory 165
Estimating the Age of Language: Evidence from Anatomy 167
The Life and Death of Languages 169
Summary and Conclusions 176
Resource Manual and Study Guide 179
CONTENTS

7 Acquiring Language(s): Life with First Languages, Second Languages, and More  189
The First Steps of Language Acquisition in Childhood  189
Theories of Language Acquisition  191
Language and the Brain  197
Bilingual and Multilingual Brains  199
The Social Aspects of Multilingualism  200
Code-Switching, Code-Mixing, and Diglossia  206
Summary and Conclusions  207
Resource Manual and Study Guide  209

8 Language Through Time  215
How Languages Are Classified  215
Internal and External Changes  218
How and Why Sound Changes Occur  221
Reconstructing Protolanguages  224
Reconstructing the Ancestral Homeland  227
Reconstructing a Protoculture  230
Trying to Date the Past: Glottochronology  231
Time Perspective in Culture  235
Summary and Conclusions  236
Resource Manual and Study Guide  237

9 Languages in Variation and Languages in Contact  243
Idiolects  243
Dialects  244
Styles  245
Language Contact  247
Pidgins  248
From Pidgins to Creoles  251
Language Contact in the Contemporary World  253
The World of Languages  256
Summary and Conclusions  257
Resource Manual and Study Guide  259

10 Ethnography of Communication  265
Speech Community and Related Concepts  266
Units of Speech Behavior  267
Components of Communication 269
Subanun Drinking Talk 275
Attitudes Toward the Use of Speech 276
Recent Trends in the Ethnography of Speaking 280
Summary and Conclusions 282
Resource Manual and Study Guide 282

11 Culture as Cognition, Culture as Categorization: Meaning and Language in the Conceptual World 285
Concepts, Words, and Categories 287
The Lexical Nature of Concepts 291
The Rise and (Relative) Fall of Ethnoscience 294
Sound Symbolism and Synesthesia 299
Studies of Discourse 302
Summary and Conclusions 303
Resource Manual and Study Guide 303

12 Language, Culture, and Thought 309
The Stimulus of Sapir’s Writings 310
The Whorf Hypothesis of Linguistic Relativity and Linguistic Determinism 312
Whorf’s Hypothesis Reconsidered 315
Color Nomenclature and Other Challenges to Linguistic Relativity 322
Theoretical Alternatives to Linguistic Relativity 329
Future Tests of Linguistic Relativity and Linguistic Determinism 332
Summary and Conclusions 335
Resource Manual and Study Guide 338

13 Language, Identity, and Ideology I: Variations in Gender 343
“Gender” vs. “Sex” 344
Grammatical vs. Biological Gender 345
Do Men and Women Speak Differently? 346
Gender and Language: Theoretical Movements 355
Does Grammatical Gender Affect How We Think? 363
Language and Gender: Hegemony, Power, and Ideology 366
Language in Gay, Lesbian, and Transgendered Subcultures 372
Some Current Thoughts on Language and Gender Differences 376
Summary and Conclusions 378
Resource Manual and Study Guide 379
CONTENTS

14 Language, Identity, and Ideology II: Variations in Class, "Race," Ethnicity, and Nationality 389
Language, Social Class, and Identity 390
Language, "Race," and Ethnicity 394
African-American English Vernacular 395
Language and Nationality 408
Summary and Conclusions 415
Resource Manual and Study Guide 416

15 Linguistic Anthropology in a Globalized World 421
Language Planning 422
Literacy, Writing, and Education 424
Intercultural Communication and Translation 427
Always On: New Literacies and Language in an Online Global World 432
Ethical Questions and Standards of Conduct 438
Summary and Conclusions 440
Resource Manual and Study Guide 444

Bibliography 449
Index 487
