ADVANCES IN CATERING TECHNOLOGY

Edited by

G. GLEW
Head of the Department of Catering Studies,
The Polytechnic, Huddersfield, UK
and
Director of the Catering Research Unit,
The University, Leeds, UK
Contents

Preface .............................................. v

Part I: Present Trends and Future Possibilities
1. Background and Trends in Catering to 1990 in Western Europe ............... 3
   GEORGE GLEW (Department of Catering Studies, Huddersfield Polytechnic, Queensgate, Huddersfield HD1 3DH, UK)

2. Background and Trends in Catering to 1990 in the USA ....................... 16
   G. E. LIVINGSTON and CHARLOTTE M. CHANG (Food Science Associates, Inc., Dobbs Ferry, New York 10522, USA)

   RONALD BRECH (Management Centre, University of Bradford, Bradford BD7 1DP, UK)

Part II: Constraints on Food Quality
4. The Constraints on Food Quality ........................................ 51
   K. PAULUS (Federal Research Centre for Nutrition, Engesser Strasse 20, D-75 Karlsruhe 1, West Germany)

5. The Caterer’s Requirement for Food Quality .................................. 57
   CHRIS GRATER (Employee Services, Ford Motor Co. Ltd, I–277 Eagle Way, Warley, Brentwood, Essex CM1 3BW, UK)

6. What Nutritional Elements Does the Nutritionist Want to See in Food Served Outside the Home? 64
   HILDE M. VAN OOSTEN (Netherlands Bureau for Food and Nutrition and Management, Laan Copes van Cattenburgh 44, 2585 GB’s—Gravenhage, The Netherlands)
7. How can the Food Supplier Influence Quality at the Catering Level?  
ULF RAMBECHE (Nordreco AB, S 267 00 Bjuv, Sweden)  
72

8. Food Quality, The Role of the Law  
ALAN G. WARD (Procter Department of Food Science, The University, Leeds LS2 9JT, UK)  
87

9. Medical Aspects of Food Quality  
WILFRIED DIEBSCHLAG (Institut für Arbeitsphysiologie, Technische Universität München, Barbarastrasse 16/1, D8000 München 40, West Germany)  
99

10. Catering Equipment Design and Food Quality  
NILS BENGTSSON (SIK—The Swedish Food Institute, Fack, S-400 23 Gothenburg, Sweden)  
121

11. Questions Concerning Quality and Reliability of the Meal Experience  
MICHAEL NIGHTINGALE (11 Palace Court, Palace Road, London SW2 3ED, UK)  
135

Part III: Catering Technology

12. The Balance between Raw Material, Manpower Utilisation and Technology  
PER SKRÖDER (Institute for the Rationalisation of Catering, Birger Jarlsgarten 27, 111, 45 Stockholm, Sweden)  
145

13. The Caterer as a Process Engineer  
A. MILSON (The Queen’s College, 1 Park Drive, Glasgow G3 6LP, UK) and D. KIRK (Sheffield City Polytechnic, Pond Street, Sheffield S1 1WB, UK)  
157

14. Is There a Case for Total Convenience Foods?  
L. G. BLOOMFIELD (Batchelors Catering Supplies Ltd, Wadsley Bridge, Sheffield S6 1NG, UK)  
173
15. What is New in Catering Equipment? ............................................. 185
   R. A. LAMPI, R. V. DECAIREAU and K. H. HU (Food Systems
   Equipment Division, Food Engineering Laboratory, US Army
   Natick R & D Command, Natick, Massachusetts 01760, USA)

16. Work Organisation and Ergonomic Aspects of Evaluating
    Catering Facilities ............................................................. 200
   ELFRIEDE STÜBLER (Bundesforschungsanstalt für Ernährung,
   Institut für Hauswirtschaft, Garbenstrasse 13, D700 Stuttgart
   70, West Germany)

17. A Microwave Oven to Rapidly Thaw and Heat Portions of
    Food ................................................................. 221
   A. J. H. SALE (Unilever Ltd, Colworth House, Sharnbrook,
   Bedford MK44 ILQ, UK)

18. Reheating of Minced Meat Products in a Convection Oven 232
   C. SKJÖLDEBRAND (Division of Food Engineering) and R. ÖSTE
   (Division of Applied Nutrition, Lund University, Alnarp,
   Sweden)

19. A Comparison of Heat Transfer Characteristics of Natural and
    Forced Convection Ovens ...................................................... 247
   ROGER COLLISON and ANN WEST (Department of Catering
   Studies, Huddersfield Polytechnic, Queensgate, Huddersfield
   HD1 3DH, UK)

20. Cooking of Potatoes by Steam and Water—A Comparison of
    Eating Quality ................................................................. 252
   LENNART ÖSTERSTRÖM and YNGVE ANDERSSON (SIK—The
   Swedish Food Institute, Fack, S-400 23 Gothenburg, Sweden)

21. A System for Continuous Production of Ready Made Meals and
    Distribution in Aseptically Filled Containers .......................... 265
   K. PORSDAL POULSEN (The Technical University of Denmark,
   Bygning 221, DTH, DK 2800 Lyngby, Denmark)

22. Feeding Individual Elderly People in Their Own Homes ............ 268
   J. F. ARMSTRONG (Catering Research Unit, Procter Department
   of Food Science, The University, Leeds LS2 9JT, UK)

10. Measuring the Cost-Effectiveness of Changing to a New Catering Method

FREDA COWELL (Department of Education and Science, Elizabeth House, York Road, London SE1, UK)

11. The Implementation and Evaluation of a ‘Finessa Grundy’ Food Service System

A. E. BLAKEMORE (Grand Hotel, Granby Street, Leicester LE1 6ES, UK), R. MOZLEY (Barnsley Area Health Authority, Hiller House, 49–51 Gawber Road, Barnsley, South Yorkshire S75 2PY, UK) and R. C. OSNER (Bath College of Higher Education, Sion Hill Place, Bath BA1 5SJ, UK)

32. Chilled Meals: Possibilities and Limits

K. PAULUS, J. PIEKARSKI (Federal Research Centre for Nutrition, Engesser Strasse 20, D-75 Karlsruhe 1, West Germany) and L. LEISTNER (Federal Centre for Meat Research, Kulmbach, West Germany)

33. Nutritive Value of Chilled Meals

ANTAL BOGNÁR (Federal Research Centre for Nutrition, Engesser Strasse 20, D-75 Karlsruhe 1, West Germany)

34. Chilled Meals: Sensory Quality

ROSMARIE ZACHARIAS (Federal Research Centre for Nutrition, Engesser Strasse 20, D-75 Karlsruhe 1, West Germany)

35. Some Effects of the Presence or Absence of Oxygen on Stored Precooked Chilled Chicken and Pork Meat

GEORGE GLEW (Department of Catering Studies, Huddersfield Polytechnic, Queensgate, Huddersfield HD1 3DH, UK), RUSSELL BERG and YIN YAM (Catering Research Unit, Procter Department of Food Science, The University, Leeds LS2 9JT UK)

36. ‘On the Plate’ Comparison of Convenience and Traditionally Prepared School Meals

JANICE RYLEY, MARGARET TURNER and DAVID CAMM (Catering Research Unit, Procter Department of Food Science, The University, Leeds LS2 9JT, UK)
CONTENTS

37. Fat Absorption During Frying .......................... 431
   JANICE RYLEY, KRYSTYNA KLEZKO and MARGARET TURNER
   (Catering Research Unit, Procter Department of Food
   Science, The University, Leeds LS2 9JT, UK)

38. The Reliability of Manufacturers’ Nutritional Data ..... 434
   JANICE RYLEY, KRYSTYNA KLEZKO and MARGARET TURNER
   (Catering Research Unit, Procter Department of Food
   Science, The University, Leeds LS2 9JT, UK)

Part IV: The Needs of Consumers

39. Consumer Acceptance and the Nutritional Value of ‘Take-
    away’ Meals .......................................... 443
   A. W. PEPPER and R. J. CHALMERS (Department of Home
   Economics and Management Studies and Department of
   Science, The Queen’s College, 1 Park Drive, Glasgow G3 6LP,
   UK)

40. Consumers’ Attitudes to Nutritional Information ........ 452
   BIRGIT LUNDGREN (SIK—The Swedish Food Institute, Fack, S-
   400 23 Gothenburg, Sweden)

41. Catering to Consumers’ Food Preferences .............. 458
   JOSEPH L. BALINTFY (Department of Management Science,
   University of Massachusetts, Amherst, USA)

42. Design in the Hospitality Industry ....................... 470
   EZRA ATTIA (Commonwealth Holiday Inns of Canada Ltd,
   Holiday Inn Swiss Cottage, King Henry’s Road, London
   NW3, UK)

43. The Eating Environment ................................ 474
   JOHN MCKENZIE (Ilkley College, Wells Road, Ilkley, West
   Yorkshire LS29 9RD, UK)

Index ...................................................... 483
