HYDROBIOLOGICAL VARIABILITY  
IN THE NORTH ATLANTIC  
AND ADJACENT SEAS

Papers presented to Jens Smed on the occasion of his retirement

Edited by

J. MEINCKE, L. OTTO, A. J. LEE, AND R. R. DICKSON

CONSEIL INTERNATIONAL POUR L'EXPLORATION DE LA MER  
PALÆGADE 2-4 DK-1261 COPENHAGUE K DANEMARK

Octobre 1984

Contents

J. Meincke, L. Otto, A. J. Lee, and R. R. Dickson	Hydrobiological variability in the North Atlantic and adjacent seas. Introduction	5
Arthur Lee	The ICES Hydrography Committee: A review of its activities since 1945	7
Eberhard Francke and Wolfgang Matthäus	International Baltic observation programmes and their advantages for baseline studies of the Baltic Sea	30
Hartwig Weidemann	Tracer diffusion experiments during FLEX '76	39
Edward C. Monahan, Michael C. Spillane, and Evelyn M. Murphy	Surface currents off the northwest coast of Ireland	67
Artur Svansson	Hydrographic features of the Kattegat	78
R. J. Schlitz, T. A. Laughton, and W. R. Wright	A volumetric temperature – salinity census for the basins of the Gulf of Maine, May 1976	91
G. Kullenberg	Observations of light-scattering distributions in the transition zone to the Arctic Ocean	102
C. K. Ross	Temperature – salinity characteristics of the “overflow” water in Denmark Strait during “OVERFLOW '73”	111
R. Allyn Clarke	Transport through the Cape Farewell – Flemish Cap section	120
Catherine Maillard	Mean circulation and exchanges in the Northeastern Atlantic from historical data	131
Stig H. Fonselius, Jan Szaron, and Bertil Öström	Long-term salinity variations in the Baltic Sea deep water	140
L. Otto	Variations of salinity at Dutch lightvessels in the Southern Bight of the North Sea	150
B. Hansen and J. Meincke	Long-term coastal sea surface temperature observations at the Faroe Islands	162
Svend-Aage Malmberg	Hydrographic conditions in the East Icelandic Current and sea ice in North Icelandic waters, 1970–1980	170
H. D. Dooley, J. H. A. Martin, and D. J. Ellett	Abnormal hydrographic conditions in the Northeast Atlantic during the 1970s	179
Tor Gammelsrød and Arvid Holm	Variations of temperature and salinity at Station M (66°N 02°E) since 1948	188
Robert R. Dickson and Johan Blindheim	On the abnormal hydrographic conditions in the European Arctic during the 1970s	201
T. Laevastu	The effects of temperature anomalies on the fluctuation of fish stocks	214

Mini-Symposium on Climatic Variations in the North Atlantic and  
their Effects on Biota and Fisheries

P. M. Kelly	Recent climatic variations in the North Atlantic sector	226
Günther Radach	Variations in the plankton in relation to climate	234
J. G. Shepherd, J. G. Pope, and R. D. Cousens	Variations in fish stocks and hypotheses concerning their links with climate	255
Alan Longhurst	Special Lecture, 71st Statutory Meeting Heterogeneity in the ocean – implications for fisheries	268
The Editors	Annex Papers presented to the Hydrography Committee: 1946–1983	283
