Dynamic Modeling of Concrete Structures

Harry G. Harris
Editor

Publication SP-73
American Concrete Institute
Detroit
CONTENTS

PREFACE .................................................................................................................. 111

SIMILITUDE REQUIREMENTS FOR DYNAMIC MODELS
By Helmut Krawinkler and Piotr D. Moncarz ...................................................... 1

DYNAMIC TESTS OF MODEL CONCRETE
By John Ferritto ..................................................................................................... 23

STATIC AND DYNAMIC LOADING TESTS ON TWO SMALL THREE-
DIMENSIONAL MULTISTORY REINFORCED CONCRETE FRAMES
By Grant K. Wilby, Robert Park, and Athol J. Carr ............................................. 35

BEHAVIOR OF SMALL SCALE REINFORCED CONCRETE
MODEL STRUCTURES
By Daniel P. Abrams .......................................................................................... 65

EARTHQUAKE SIMULATOR RESEARCH ON ARCH DAM MODELS
By Ray W. Clough and Akira Niwa ................................................................. 83

SEISMIC MODELING OF LONG-SPAN BRIDGES
By W. G. Godden ................................................................................................ 107

SCALE MODELING OF BURIED REINFORCED CONCRETE
STRUCTURES UNDER AIR-BLAST LOADING
By James K. Gran, John R. Bruce, and James D. Colton ................................. 125

IMPACT LOADING OF A REINFORCED CONCRETE
BEAM-TO-COLUMN JOINT
By Alan J. Watson and John E. Inkester ......................................................... 143

IMPACT OF A STEEL ROD ON A REINFORCED CONCRETE SLAB
By Larsgunnar Nilsson and Sven Sahlin ......................................................... 165

TECHNIQUES FOR IN-PLANE VIBRATION AND SHEAR
TESTING OF MODEL FLOOR SLABS
By H. Faruk Karadogan, Le-Wu Lu, and Ti Huang ........................................ 189

STATIC AND DYNAMIC TESTING OF MODEL PRECAST
CONCRETE SHEARWALLS OF LARGE PANEL BUILDINGS
By Harry G. Harris and George Jau-Jyh Wang ................................................. 205

SI (Metric) TABLES .............................................................................................. 238

INDEX .................................................................................................................... 240
