Computer Applications in Concrete Technology

Schlomo Ginsburg, Editor

American Concrete Institute, Detroit
CONTENTS

PREFACE ................................................................. iii

EXPERT SYSTEM FOR SELECTING CONCRETE CONSTITUENTS
By J.R. Clifton and B.C. Oltikar ........................................ 1

NONLINEAR ANALYSIS OF REINFORCED CONCRETE SHELLS
By A.C. Scordelis and E.C. Chan ......................................... 25

ANALYSIS OF REINFORCED CONCRETE SHEAR WALLS
By A. Sabouni and P. Gergely ........................................... 59

THREE DIMENSIONAL FINITE ELEMENT ANALYSIS OF CONCRETE
By J.T. DeWolf and J. Kou .............................................. 95

COMPUTER PROGRAM FOR NONLINEAR ANALYSIS AND DESIGN OF LOAD-BEARING
TILT-UP WALLS
By J.D. Glikin and R.G. Oesterle ...................................... 117

INTEGRATED DESIGN ENVIRONMENT FOR CONCRETE STRUCTURES
By M.I. Hoit, F.E. Fagundo, and H. Johnson ......................... 139

USE OF SPREADSHEET PROGRAMS IN TEACHING REINFORCED CONCRETE DESIGN
By T.H. Wenzel .................................................................. 149

COMPUTATION OF DYNAMIC RESPONSE FOR CONCRETE AND MASONRY STRUCTURES
USING A MICROCOMPUTER
By D.P. Abrams ................................................................. 159

DECISION SUPPORT SYSTEMS FOR THE DESIGN OF REINFORCED CONCRETE
STRUCTURES
By S.N. Pollalis ................................................................ 183

MONITORING WITH MICROCOMPUTERS AS YOU BUILD
By T.L. Weinmann, K.N. Shiu, and N.W. Hanson ..................... 197

A MICROCOMPUTER APPLICATION FOR ROLLER COMPACTED CONCRETE QUALITY
ASSURANCE
By R. Drahushak-Crow ...................................................... 215

SPREADSHEET PROGRAMMING FOR STRUCTURAL DESIGN
By A. Casas and I.J. Oppenheim ........................................... 233

ANALYSIS AND DESIGN OF REINFORCED AND PRESTRESSED CONCRETE
COMPRESSION MEMBERS USING DESK TOP COMPUTERS
By F. Balaguru ................................................................. 249

SI (Metric) TABLES ............................................................. 281

INDEX ........................................................................... 283
