SUPPLEMENT 2

Oxidative Damage and Related Enzymes
EMBO Workshop, Rome, Italy, 1983

edited by
G. ROTILIO and J. V. BANNISTER

Department of Biology, University of Rome, Rome, Italy

and

Inorganic Chemistry Laboratory, University of Oxford, Oxford, England

### Contents

**Introduction to the Series**  
v
**Preface**  
vii

**Molecular Mechanisms of Free Radical Production and Damage**

**Biological Mechanism of Hydroxyl Radical Production**  
C. C. WINTERBOURN  
1

**Transition Metal Catalysts and Oxygen Radical Reactions**  
B. HALLIWELL, D. A. ROWLEY and J. M. C. GUTTERIDGE  
8

**Catalytic Iron Complexes in Biological Material: A Potential for Oxygen Radical Damage**  
J. M. C. GUTTERIDGE, B. HALLIWELL and D. A. ROWLEY  
15

**Generation of Activated Oxygen Species in the Oxidation of Ascorbate and Glutathione**  
A. RIGO, M. SCARPA, P. STEVANATO and P. VIGLINO  
27

**Radiation Damage in Enzymes: Relative Efficiencies of Various Radicals and Sensitization by Metal Cations**  
G. CZAPSKI, M. CHEVION and A. SAMUNI  
32

**Metal-Mediated Hydroxyl Radical Damage. A Site-Specific Mechanism**  
A. SAMUNI, J. ARONO VITCH, M. CHEVION and G. CZAPSKI  
39

**Is There More Than One Type of OH' Oxidant?**  
E. F. ELSTNER and R. J. YOUNGMAN  
48

**Free Radical Formation During the Peroxidase-Catalyzed Oxidation of (Bi)Sulphite(Hydrate Sulfurdioxide)**  
R. P. MASON, C. F. CHIGNEL, T. E. ELING and C. MOTTLEY  
55

**The Effect of Ferritin Iron Loading on Hydroxyl Radical Production**  
J. V. BANNISTER, W. H. BANNISTER and P. J. THORNALLEY  
64

**The Cleavage of DNA by an Iron-Oxygen Complex of Bleomycin**  
J. PEISACH, R. M. BURGER and S. B. HORWITZ  
73

**Hyaluronic Acid Degradation by Reactions Producing Activated Oxygen Species**  
C. KREISL and E. LENGFELDER  
81
Oxidation of Sulphur Containing Amino Acid Residues in Some Biologically Important Proteins
U. WESER 87

Lipid Peroxidation: The Interaction of Ascorbic Acid with Paraquat
K.-J. KUNERT and A. L. TAPPEL 95

Singlet Molecular Oxygen in Lipid Peroxidation as Detected by Low-Level Chemiluminescence
E. CADENAS and H. SIES 111

Lipid Peroxidation on Human Erythrocyte Ghosts in Relation to the Membrane Proteins
J. F. KOSTER, R. G. SLEE and A. MONTFOORT 121

Teleonomic Regulated Oxidative Damage—The Effects of Lipoygenase
S. RAPOPORT and T. SCHEWE 127

Conjugated Dihydroperoxycatdecatrienoic Fatty Acids Formed Upon Double Dioxygenation of β-Linoleic Acid by Lipoygenase-2 from Soybeans
M. C. FEITERS, G. A. VELDINK and J. F. G. VLEIGENTHART 132

The Chlorinating Activity of Myeloperoxidase: Activation by Ascorbate and Inhibition by the Anti-Arthritis Drug D-Penicillamine
R. WEVER, G. R. ZOUTBERG, B. G. J. M. BOLSCHER, R. A. CUPERUS and A. O. MUIJSERS 139

The NADPH Oxidase Activity of Guinea Pig Neutrophils
M. C. SERRA, P. BELLAVITE, A. DAVOLI, J. V. BANNISTER and F. ROSSI 144

Reactions of FAD and Cytochrome b in a Solubilised Superoxide Producing Oxidase from Pig Neutrophils
O. T. G. JONES, A. R. CROSS and J. F. PARKINSON 151

Cytochrome P-450 Dependent Generation of Oxy-Radicals. Implications for Oxidation of Aliphatic Alcohols and Lipid Peroxidation
M. INGELMAN-SUNDBERG, G. EKSTROM and I. JOHANSSON 158

Lipid Peroxidation Decreases the Rotational Mobility of Cytochrome P-450 in Microsomes
C. RICHTER, J. GUT and S. KAWATO 167

Relationships between Hepatic Halocarbon Metabolism and Lipid Peroxidation in Several Metabolically Active Systems
A. GARNER, T. F. SLATER, K. H. CHEESEMAN, D. CUKIER and G. ZAMAN 172
Cellular Aspects of Free Radical Production and Damage

Mechanisms and Implications of Oxidative Stress Studied with Intact Cells
S. ORRENIUS, H. THOR and D. DI MONTE

Reversible Blockade of the Respiratory Burst in Human Neutrophils by a Cleavage Crosslinking Reagent
B. M. BABIOR and I. AVIRAM

Correction of Defect in Superoxide Generation by Fusion of CGD Monocytes
D. ROOS, M. N. HAMERS, M. DE BOER, L. J. MEERHOF, R. S. WEENING and J. W. M. VAN DER MEER

The Generation of a Long-Lived Class of Oxidants by Human Neutrophils: The N-Chloroamines
S. T. TEST and S. J. WEISS

Hydrogen Peroxide as an Effector of Immunological Stimulation in Human Platelets
A. FINAZZI-AGRO, A. MENICHELLI, S. DI GUILIO, M. L. DI CORPO, G. CERRONI, D. TODARO and D. DEL PRINCIPE

Oxygen Radicals and Macromolecule Turnover in Trypanusoma cruzi
S. G. GOIJMAN and A. O. M. STOPPANI

Biochemical Mechanisms of Oxidative Hemolysis
A. DE FLORA, U. BENATTI, L. GUIDA and A. MORELLI

Oxidative Damage to Subcellular Structures by Photosensitizers with Special Emphasis on Porphyrin Photosensitization
S. SANDBERG, I. ROMSLO, A. BRUN and J. GLETTE

Photodynamic Cell Damage and its Medical Implications
J. VAN STEVENINCK and T. M. A. R. DUBBELMAN

Damage of Blood Vessels by Lipid Peroxides
K. YAGI

Lipid Peroxidation in the Perfused Heart
J. F. KOSTER, R. G. SLEE, C. E. ESSED and H. STAM

Involvement of Oxygen Radicals in Ischemic Tissue Damage
M. YOUNES, M. H. SCHOENBERG, H. JUNG and B. FREDHOLM

Drug Induced Lipid Peroxidation in Mouse Liver
A. WENDEL

The Role of Hepatic NADP+ and Glutathione Status Altered by Oxidative Stress in the Regulation of Pentose Phosphate Cycle
R. BRIGELIUS and E. SCHULT
The Role of Alcohol and Monoamine Metabolism in Hepatic Lipid Peroxidation Measured by Ethane Evolution by the Isolated Perfused Rat Liver
A. MULLER and H. SIES 284

Oxidative Damage Induced by 1-Naphthol
M. D'ARCY DOHERTY, G. D. WILSON and G. M. COHEN 289

Biochemical Effects of Paraquat in the Lung
L. L. SMITH 297

Role of Glutathione Peroxidase in Arachidonic Acid Metabolism
R. W. BRYANT, T. C. SIMON and J. M. BAILEY 304

Oxygen-Dependent Genetic Damage

Is Leukotriene B₄-Induced Chemotaxis Mediated by Superoxide?
L. FLOHE, W. MARTIN, G. LOSCHEN and W. A. GUNZLER 318

Involvement of Iron in the Pathogenesis of Neuronal Ceroid Lipofuscinoses
T. WESTERMARCK, J. M. C. GUTTERIDGE, H. HEISKALA, P. SANTAVUORI, T. RAHOLA and M. SUOMELA 325

The Spanish Toxic Oil Problem
A. R. NORIEGA, A. M. MICHELSION and K. PUGET 332

Mechanisms of Antioxidant Defence

Hydroxyl Radical Damage: Potential Repair by Sulphhydryls, Ascorbate and Other Antioxidants
P. O'NEILL 337

Scavenging System of Hydrogen Peroxide in Chloroplasts: Ascorbate-Peroxidase and Monodehydroascorbate and Dehydroascorbate Reductase
K. ASADA, Y. NAKANO and M. A. HOSSAIN 342

The Protective Role of Methemoglobin in Red Cells Exposed to Oxidative Stress
S. G. SULLIVAN and A. STERN 348

Role of Indoleamine Dioxygenase in Self Defence Mechanism
R. YOSHIDA and O. HAYAISHI 353

Primary Structure of Glutathione Peroxidase
L. FLOHE, G. J. STEFFENS, W. A. GUNZLER, S.-M. A. KIM, F. OTTING, A. GROSSMAN and A. WENDEL 358
Hydroperoxide Reduction by Seleno Glutathione Peroxidase: A Structural Approach  
R. LADENSTEIN and O. EPP 363

Detoxication Catalyzed by Glutathione-S-Transferases  
A. J. BAARS 369

Differential Induction of Glutathione Dependent Enzymes  
B. MANNERSVIK, P. DI SIMPLICIO and H. JENSSON 376

The Glutathione-S-Transferases in Selenium Deficiency  
A. T. DIPLOCK 381

Roles of Se-Dependent Glutathione Peroxidase, Glutathione Transferases and Phospholipase A2 in Inhibition of Microsomal Lipid Peroxidation  
B. KETTERER, K. H. TAN and D. J. MEYER 386

Cooperation between the Phospholipid Hydroperoxide Glutathione Peroxidase and Vitamin E in the Protection of Membranes from Lipid Peroxidation  
F. URSINI, M. MAIORINO, L. BONALDO, A. ROVERI and C. GREGOLIN 393

Oxidative Modifications in Cu, Zn Superoxide Dismutase. A Possible Mechanism of Ageing  
I. MAVELLI, M. R. CIRIOLO, D. BARRA, D. COCCO and G. ROTILIO 400

EC-SOD, Molecular Composition and Distribution in the Body  
S. L. MARKLUND 411

Antiflammatory Properties in the Rat of Copper Superoxide Dismutases from Various Species  
A. BARET, G. JADOT and A. M. MICHELSON 417

Repair of Oxidative DNA Damage: Constitutive and Inducible Systems in E. coli  
B. DEMPLE 422

Index 431
