# Table of Contents

## CHAPTER 1 — CANADIAN AND SASKATCHEWAN URANIUM INDUSTRY
Canadian and Saskatchewan uranium deposits: compilation, metallogeny, models, exploration
W.D. FOGWILL ...................................................... 3
Development of the uranium industry in Saskatchewan
F.F. LANGFORD ..................................................... 20

## CHAPTER 2 — UNCONFORMITY-TYPE DEPOSITS IN SASKATCHEWAN
Mineralogy of the Key Lake U-Ni orebodies, Saskatchewan, Canada:
evidence for their formation by hypogene hydrothermal processes
E. von PECHMANN .............................................. 27
Secondary dispersion around the uranium-nickel deposit at Key Lake, northern Saskatchewan
Y.T. MAURICE, W. DYCK, and J.G. STRNAD .................. 38
Radiometric age determinations on samples of Key Lake uranium deposits
A. HöHNDORF, H. LENZ, E. von PECHMANN, V. VOULTSIDIS, and I. WENDT ...... 48
Geology of the Midwest uranium deposit, northern Saskatchewan
E.M. WRAY, D.E. AYRES and H.J. IBRAHIM ..................... 54
Geochronology of host rocks and mineralization of the Midwest uranium deposits,
northern Saskatchewan
J.M. WORDEN, G.L. CUMMING, and H. BAADSGAARD .................... 67
Geochemical and mineralogical alteration at the Midwest uranium-nickel deposit
H.J. IBRAHIM and H.F. WOO .................................. 73
The McClean uranium deposit, northern Saskatchewan—discovery
N. SARACOGLU, R.H. WALLIS, J.J. BRUMMER, and J.P. GOLIGHTLY ........... 85
The geology of the McClean uranium deposits, northern Saskatchewan
R.H. WALLIS, N. SARACOGLU, J.J. BRUMMER, and J.P. GOLIGHTLY ............. 101
Geology of the Dawn Lake uranium deposits, northern Saskatchewan
P.J. CLARKE and W.D. FOGWILL .................................. 132
The Maurice Bay uranium deposit (Saskatchewan): geology, host-rock alteration and genesis
M. MELLINGER ................................................. 140
U/Pb isotopic investigations of the Maurice Bay uranium deposit, Saskatchewan, Canada
A. HöHNDORF, V. VOULTSIDIS, and E. von PECHMANN .................. 151
Mineralogy and geochemistry of the sub-Athabasca regolith near Wollaston Lake
C. MacDonald .................................................. 155
Similarities between roll-type and Athabasca unconformity-type uranium deposits and the possible role of sulphides in their origin
E.S. CHENEY ..................................................... 159

## CHAPTER 3 — OTHER CANADIAN DEPOSITS
Geology and uranium metallogeny of Proterozoic supracrustal successions, central District of Keewatin, N.W.T. with comparisons to northern Saskatchewan
A.R. MILLER and A.N. LeCHEMINANT ............................. 167
Geological setting and aspects of uranium mineralization in the carboniferous Deer Lake Basin,
western Newfoundland
R.S. HYDE ...................................................... 186
CHAPTER 4 — FRANKLIN MOUNTAINS, WEST TEXAS, U.S.A.
Distribution of uranium, thorium and potassium in Proterozoic igneous rocks, Franklin Mountains, west Texas
W.F. THOMANN, A.J. PYRON, and D.R. RAY .......................................................... 195

CHAPTER 5 — AUSTRALIAN DEPOSITS
Progress report on geologic studies of the Ranger orebodies, Northern Territory, Australia
J.T. NASH and D. FRISHMAN ...................................................................................... 205
A review of the distribution and controls of uranium mineralization in the Alligator Rivers uranium field, Northern Territory, Australia
R.S. NEEDHAM ........................................................................................................... 216
Post-Kombolgie alteration at Jabiluka II and its significance with regards to the Athabasca -
Alligator Rivers comparison
L. CURTIS .................................................................................................................. 231

CHAPTER 6 — RADIOMETRIC ANALYSIS
The use of “Beta minus Gamma” radiometric analysis in the determination of uranium in ores and concentrates
R. BROWN and W.R. THUMA ...................................................................................... 249

ABSTRACTS OF PAPERS PRESENTED AT SYMPOSIUM ................................................. 253

AUTHORS’ BIOGRAPHIES .......................................................................................... 265
