Canadian Technical Report of
Hydrography and Ocean Sciences No. 73
June 1986

PROCEEDINGS OF THE

CANADIAN EAST COAST WORKSHOP ON SEA ICE,

JANUARY 7 - 9, 1986

compiled by

G. Symonds

and

I.K. Peterson

Atlantic Oceanographic Laboratory
Department of Fisheries and Oceans

Bedford Institute of Oceanography
P.O. Box 1006
Dartmouth, Nova Scotia
B2Y 4A2

This workshop was supported (in part) by the
Federal Panel on Energy Research & Development (PERD)
and the Canadian Meteorological & Oceanographic Society (CMOS).
TABLE OF CONTENTS

Preface ................................................................. iii
Contents ....................................................................... v

TOPIC I - ICE CLIMATOLOGY

Northern Hemisphere Sea Ice Variability:
Observed and Simulated.
J.E. Walsh. ...................................................................... 3

On the Sea Ice Budget of the Greenland Sea.
R.E. Moritz. ................................................................... 21

Spring and Summer Sea Ice Conditions in
Eastern Canadian Waters 1950 to 1985 (abstract only).
J.P. Newell. ..................................................................... 59

Sea Ice Conditions in the Labrador Sea-Grand Banks Area.
W.P. Zakrzewski. ............................................................ 60

Air-Sea Heat Flux and the Seasonal Distribution of Sea Ice
over the North East Newfoundland Shelf.
G. Symonds. .................................................................. 88

A Buoyancy Flux-Driven Cyclonic Gyre in the Labrador Sea.
Y.H. Seung. .................................................................. 115

TOPIC II - ICE AND ICE-OCEAN MODELLING

Large-Scale Ice-Ocean Modeling.
W.D. Hibler, III. .............................................................. 165

The Modelling of Ice Motion Near Adams Island.
(abstract only).
J.F. Sykes and J.D. Cushon. .......................................... 185

On the Response of Sea Ice to Wind Stress - Studies
with a Regional Sea Ice Model (abstract only).
V.R. Neralla and S. Venkatesh. ........................................ 186

Ice Edge Meanders off Labrador in NOAA Imagery and
Modelling Interpretation (abstract only).
M. Ikeda and I. Peterson. ................................................ 187

Modeling Mesoscale Phenomena Relevant to the Greenland Sea MIZ.
(abstract only).
S. Hakkinen. ................................................................. 188

A Numerical Study of Sea Ice and Ocean Circulation in the Arctic.
A.J. Semtner. ................................................................. 189
A Coupled Ice-Mixed Layer Model for the Greenland Sea.
M.N. Houssais.

A Coupled Ice-Ocean Model for Shallow Shelf Seas.
(abstract only).
W.P. Budgell and D.K. Manak.

Ice Drift on a Complex Continental Shelf - the Bering and Chukchi Seas. (abstract only).
J.E. Overland and C.H. Pease.

Heat Budgets of Labrador Shelf Ice. (abstract only).
M. Ikeda.

TOPIC III - FORMATION, MOVEMENT AND DEFORMATION OF SEA ICE

Micromechanics Approach to Sea Ice Dynamics.
M. Ostoja-Starzewski, R. Jessup and S. Venkatesh.

Statistical Kinematics for the Sea Ice Discontinuum.
A.S. Thorndike.

Observations of the Transfer of Heat Between Water and Ice. (abstract only).
P.F. Hamblin and E.C. Carmack.

Simulation of Sea Ice Climatology at Three Arctic Locations. (abstract only).
R. Gabison.

Effects of the Annual Ice-Cover on Tidal Currents and Freshwater Content of Canadian Inland Waters.
S.J. Prinsenberg.

Field Observations of Flow Patterns Generated by an Ice Keel in Stratified Flow.

Solitary Wave Solutions for the Sea Ice Momentum Equations.
(abstract only).
T.E. Keliher.

Wind Stress Over Rough Ice in a Marginal Ice Zone. (abstract only)
R.J. Anderson.
# TOPIC IV - ICEBERGS

<table>

</table>
Interpolation of Nearshore Ice Motion. (abstract only).
R.F. McKenna, W.C. Lennox and J.F. Sykes.

L. McNutt, S. Venkatesh and V.R. Neralla.

Determination of Sea Ice Concentration and Ice Edge Position in the Beaufort Sea Using Satellite Passive Microwave Data.
D.R.P. Williams.

A.E. Walker.

Side-Looking Airborne Radar Detection and Identification of Icebergs.

TOPIC VI - OPERATIONAL FORECASTING

The Iceberg Information Service of Environment Canada.
J.C. Falkingham.

Ice and Ice Management on the Grand Bank.
J.A.N. Ransom, J.R. Benoit and F.J. Dello Stritto.

Sea Ice Drift Measurements Using Satellite-Tracking Beacons.
D.M. Nazarenko and J.D. Miller.

Ice Monitoring and Forecasting for the Beaudril 'Kulluk'.
F.J. Eley.

Dome-Canmar's Operational Ice-Forecasting System for the Beaufort Sea.
J.W. Steen and J.D. Trobak.

Overview of Project to Measure Ice Forces at Adams Island.

TOPIC VII - FUTURE RESEARCH PROGRAMS

L. McNutt.

LIMEX - A Labrador Ice Margin Experiment. (abstract only).
J. Lever and P. Wadhams.
