Coccidia
and
intestinal coccidiomorphs

Proceedings of the
Vth International Coccidiosis Conference

Tours (France), 17 - 20 October 1989

organized:

Institut National de la Recherche Agronomique (I.N.R.A.)
Centre National d'Etudes Vétérinaires et Alimentaires (C.N.E.V.A.)
World Veterinary Poultry Association (branche française) (W.V.P.A.)
Contents

THEME 1 - Coccidiomorphs. Chairs : J. DUBEY, J. BRUGERE

- Plenary lectures :

  . J.P. DUBEY (U.S.A.) - Neospora caninum, a recently recognized cyst-forming coccidian. 19
  . A. DAUGSCHIES (F.R.G.) - Pathophysiological aspects of acute and chronic Sarcocystisosis. 25
  . M. NACIRI (France) - Animal and human cryptosporidiosis : Opportunist infections ? Pathogenicity of the genus Cryptosporidium. 51
  . K. AKIBA (Japan) - Current status of studies on Leucocytozoonosis of chickens, especially on species, epidemiology, life cycle, immunity, control and chemotherapy of Leucocytozoon caulleryi infection. 65

- Short communications :

  . T. ISOBE, M. KOHNO, K. SUZUKI, S. YOSHIHARA (Japan) - Leucocytozoon caulleryi, infection in bursectomized chickens. 79
  . M. LERICHE, J.F. DUREMETZ, R.E. ENTEROTH (France) - Comparative analysis of subcellular organelles (rhoptries, dense granules, micronemes) of coccidian zoites (Eimeria, Sarcocystis, Toxoplasma). 85

**Plenary lectures**

- P.L. LONG (U.S.A.) - Factors affecting the life cycle and development of Eimeria. 91
- H.D. DANFORTH (U.S.A.) - Antigen make-up of Eimeria. 99
- M.W. SHIRLEY (U.K.) - Enzyme characterization of the Eimerididae. 111

**Short communications**

- J. KUCERA (Czechoslovakia) - Differentiation of poultry coccidia in mixed infections. 125
- Y. NAKAI, K. OGIMOTO (Japan) - Amylopectin as an energy source of Eimeria tenella sporozoite infection. 129
- G. ZGRZEBSKI, S. TAMAVO, J.F. DUBREMETZ, R. ENTZEROTh (FRG) - Study on the motility of Eimeria nieschulzi. 133
- V. GUYONNET, Joyce K. JOHNSON, P.L. LONG (U.S.A.) - Infectivity of chicken Eimerian sporulated oocysts injected directly into the duodenum. 135

**Plenary lecture**

- S.J. BALL, R.M. PITTILO (U.K.) - Extraintestinal stages of Eimeriidae. 141
- Tamara BEYER (U.R.S.S.) - Evolutionary aspects and interrelations among the Apicomplexa. 157

**THEME 3** - Physiopathology of coccidiosis.

Chairs: M.D. RUFF, P. YVORE

**Plenary lectures**

- M.D. RUFF (U.S.A.) - Interaction of avian coccidiosis with other diseases: a review. 173
- P. YVORE (France) - Interactions between coccidia, gut flora and intestinal parasites in mammals. 183
- Patricia C. ALLEN (U.S.A.) - Biochemical aspects of carotenoid malabsorption during coccidiosis in chickens, a review. 193
- Patricia C. AUGUSTINE (U.S.A.) - The Eimeria: cellular invasion and host-cell parasite interactions. 205
M.A. Fernando (Canada) - Transport of invasive stages of Eimeria.

Short communications

- A.L. Fuller, L.R. McDougald (U.S.A.) - Host-cell invasion by Eimeria tenella: effects of protease inhibitors on invasion in vitro.
- M. Naciri, O. Mazzella, F. Coudert (France) - Interactions between Cryptosporidia and pathogenic viruses.

THEME 4 - Chemoprevention in Poultry

Session 1 - Chairs: L.R. McDougald, M. Naciri

Plenary lecture

- J. Aycardi (France) - Future of Coccidiostats: Basic features for lasting acceptance.

Short communications

- J.M. Gilbert, A.L. Fuller, L.R. McDougald (U.S.A.) - Testing anticoccidials in vitro: a machine readable, colorimetric variation of ELISA.
- L. Maes, W. Coussement (Belgium) - Species specificity action of diclazuril against the different Eimeria species in the chicken.
- N. Hamet (France) - Activity of some anticoccidial drugs to turkey coccidiosis.
- M. Mazurkiewicz, Z. Jopek, J.A. Madej, A. Gawel (Poland) - The studies on pathomechanism in the negative interaction between tiamulin and ionophoric anticoccidial in broilers.
- M.J. Gwyther, W.M. Britton (U.S.A.) - The influence of coccidial infections and ionophore treatment on tissue cations and anions in broiler chicks.
- E. Schildknecht, G. Untawale (U.S.A.) - Anticoccidial activity of commercially available coccidiostats against 58 Eimeria field isolates from the U.S.A.
Session 2 - Chairs: H.D. CHAPMAN, J. AYCARDI

Plenary lecture

1. T.K. JEFFERS (U.S.A.) - Anticoccidial drug resistance: a review with emphasis on the polyether ionophores. 295

Short communications

1. W. RAETHER, D. PAEFFGEN (F.R.G.) - Drug sensitivity of coccidia recently selected from broiler farms in Europe. 309

2. R.J. GRANT, Q.J. HANSSENS, H.F. KLING (U.S.A.) - The effect of Stenorol (Halofuginone Hydrobromide) against field isolates of Eimeria species after three years of use in the United States. 313

3. M.E. MCKENZIE, D.P. CONWAY, A.D. DAYTON (U.S.A.) - Relationship of weight gain and lesion scores as measures of ionophore effectiveness in broilers infected with Eimeria acervulina, E. maxima and E. tenella. 317

4. H.D. CHAPMAN (U.K.) - Field isolates of Eimeria tenella: sensitivity to diclazuril, maduramicin, narasin, salinomycin and a mixture of nicarbazin/narasin. 323

5. N. HAMET (France) - Relations between the mode of action and the resistance to anticoccidial drugs. 327

6. M.H. VERTOMMEN, H.W. PEEK (Netherland) - Laboratory experiments on the sensitivity of Dutch coccidia field isolates to diclazuril. 329

7. L. MUNOZ, V. RODRIGUEZ, G.T. WANG (Spain) - Sensitivity of European isolates of avian coccidia to ionophore anticoccidials. 333

8. G.F. MATHIS, L.R. MCDUGALD (U.S.A.) - Restoration of drug sensitivity on turkey farms after introduction of sensitive coccidia during controlled-exposure immunization. 339

Session 3 - Chairs: N. HAMET, T.K. JEFFERS

Plenary lectures

1. N. HAMET (France) - Prophylaxis of coccidiosis in industrial's breeding units. 347

2. C.C. NORTON (U.K.) - Coccidiosis in gamebirds: a review. 351
Short communications

G. BRAEM, (Belgium) - Evaluation of the anticoccidial efficacy of diclazuril in floor-pen experiments.

S. A. EDGAR, S. H. FITZ-COY, G. T. WANG (U.S.A.) - Efficacy of CYGRO (maduramicin) and BIO-COX (salinomycin) for the control of coccidiosis in broiler chickens and tests for development of drug resistance.

W. M. REID (U.S.A.) - Recommending sanitary practices for coccidiosis control.

H. KATAE, N. NAKAI, M. YOSHIDA, J. S. SPELMAN (Japan) - Efficacy of currently used anticoccidials against Eimeria isolated over 4 year period from poultry farms in Japan.

W. W. BRAUNIUS (Netherland) - Use of Toltrazuril (Baycox) for the prevention of coccidiosis: short and longterm effects.

H. F. KLING, Q. J. HANSSENS, R. J. GRANT (U.S.A.) - Broiler coccidiostat shuttle programs in the United States based on oocyst shedding and lesion score profiles.

K. W. BAFUNDO (U.S.A.) - Protective responses produced by immunization of day-old chicks with either Eimeria maxima, E. acervulina or E. tenella live oocyst vaccines.

H. C. MUNDT, A. HABERKORN (F.R.G.) - New experiences with Toltrazuril in the control of poultry coccidiosis.

A. RAMISZ, R. KUBALOK, A. GAWEL, M. MAZURKIEWICZ (Poland) - The studies of usability of some anticoccidials in chemoprophylaxis of coccidiosis in replacement chicks.

THEME 5 - Epidemiology and control of mammalian coccidiosis.

- Session 1 : Coccidiosis of ruminants
  Chairs: M. GREGORY, R. CHERMETTE

Plenary lecture

M. GREGORY (U.K.) - Epidemiology and control of ovine coccidiosis.

Short communications

J. S. SPELMAN, K. W. MILLARD, M. GREGORY (U.K.) - The prophylactic and therapeutic efficacy of decoquinate for control of ovine coccidiosis.
K.W. MILLARD, J.S. SPELMAN (U.K.) - Efficacy of decoquinate for the control of coccidiosis by creep feed medication of store lambs or by feed-block medication of ewes and lambs.

A. RAMISZ, J. MAZUREK, T. BUZEK (Poland) - The influence of monensin and selenium on weight gain and coccidiosis in lambs.

A. HABERKORN, H. C. MUNDT (F.R.G.) - Progress in the control of mammalian coccidiosis.

J. CATCHPOLE, R. DEVONSHIRE (U.K.) - The effect of colostrum on the susceptibility of lambs to coccidiosis.

**Plenary lecture**

R. FAYER (U.S.A.) - Epidemiology and control of bovine coccidiosis.

**Short communications**

C. MAGE, P. REYNAL (France) - Epidemiological observations of coccidiosis in suckler calves in France.

BLEWETT et al. (U.K.) - The therapeutic efficacy of decoquinate in the control of acute bovine coccidiosis.

J.E. FOX (U.S.A.) - The epidemiology of subclinical coccidiosis in United States and results of its prevention in the bovine and other ruminants.

A. Bonde LARSEN, Sv. Aa. HENRIKSEN (Denmark) - Preliminary studies on the survival of oocysts of bovine *Eimeria spp.* in slurry incubated at different temperatures.

J.E. PEETERS, E.A. MAZAS, W.J. MASSCHELEIN, I. VILLACORTA, M de MATURANA, E. DEBACKER (Belgium) - Disinfection of drinking water from *Cryptosporidium parvum* oocysts with ozone or chlorine dioxide.

P. YVORE, M. NACIRI (France) - Halofuginone lactate in the treatment of cryptosporidiosis in ruminant.

**Session 3**. Coccidiosis in other mammals.

Chairs: M. GREGORY, P. COUDERT

**Plenary lecture**

P. COUDERT (France) - Some peculiarities of rabbit coccidiosis.
Short communications

1. **SV.AA. HENRIKSEN, J.P.B. CHRISTENSEN** (Denmark) - Coccidiosis in piglets in Denmark. Shedding of oocysts of *Isospora suis* in relation to the age of the host.

2. **R. CHERMETTE, C. TARNAU, O. COUDERC, S. BOUFASSA** (France) - Survey on Equine cryptosporidiosis in Normandy (France).

3. **L. DESPLENTER, O. VANPARIJS** (Belgium) - Diclazuril: new anticoccidial against hepatic and intestinal coccidiosis in rabbits.

4. **D. LICOIS, P. COUDERT, S. BAHAGIA** (France) - Some biological characteristics of a precocious line of *Eimeria intestinalis*.

5. **E. LEYSEN, A. NEIRYNCK, W. DELEERSNIJDER, P. COUDERT, J. PEETERS, H. REVETS, R. HAMERS** (Belgium) - Identification of sporozoite surface antigens of *Eimeria stiedae* and *E. magna*.

6. **S. NIEDZWIADEK, A. RAMISZ, W. SAMBETH** (Poland) - Effect of Salinomycin on the productivity and coccidia status of commercial rabbit farm.

---

**THEME 6 - Immunology.**

Session 1 - Chairs: M.E. ROSE, P. PERY

Plenary lecture

Short communications

1. **S.J. PROWSE, J. PALLISTER** (Australia) - Immunity to coccidiosis: Interferon release by spleen and mucosal lymphoid cells from immune chickens.

2. **H.S. LILLEHOJ, S.Y. KANG, L. KELLER, M. SEVOIAN** (U.S.A.) - Avian lymphokines secreted by JMV-1 transformed T lymphoblastoid cells protect against coccidiosis.

3. **S.H.M. JEURISSEN, E.M. JANSE, A.N. VERMEULEN** (Netherland) - Lymphoid and non lymphoid cells in the caecal mucosa of naive and immune chickens related to the development of *Eimeria tenella*. 
. K. BEKHTI, M. KAZANGI, G. LUFFAU, P. PERY (France) - In vitro interactions between phagocytes and Eimeria falciformis sporozoites.

. F. M. TOMLEY, E. G. BOURSNELL, L. E. CLARKE (U.K.) - An antigen of Eimeria tenella which shares sequence motifs with proteins from Plasmodia spp. and with thrombospondin and properdin.

Session 2 - Chairs: H. D. DANFORTH, N. YURDUSEV

Plenary lectures

. Mervyn J. TURNER (U.S.A.) - Immunological response of avian species to genetically engineered coccidial antigens.

. Hyun S. LILLEHOJ (U.S.A.) - Unique intestinal cytotoxic cells associated with host defense to coccidiosis: a review.

. Mark JENKINS (U.S.A.) - Recombinant Eimeria antigens that elicit cellular immune responses and confer partial protection against disease when expressed in vivo by live bacterial transformants.

Short communications

Session 3 - Chairs: M. SHIRLEY, G. BENNEJEAN

Plenary lecture

. Stephen PARRY (U.K.) - Theoretical and practical aspects of vaccination against coccidiosis.

Short communications

. H. S. LILLEHOJ, M. C. JENKINS (U.S.A.) - Effects of MHC genes and various antigen presentations on protective host immunity following Eimerian infections and immunization with a recombinant coccidial antigen: a review.
M.J. KARIM, A.J. TREES (U.S.A.) - Immunogenicity of a hybrid line of Eimeria acervulina.

ENG HONG LEE (U.S.A.) - Control of coccidiosis in broiler chickens by vaccination. Field trial comparison between "Immunocox" (Coccidiosis vaccine) and Halofuginone, Salinomycin program in Texas (USA).

P. BEDRNIK (Czechoslovakia) - The role of different Eimeria species in a prospective coccidiosis vaccine.

Joyce K. JOHNSON, P.L. LONG (U.S.A.) - The fecundity and drug sensitivity of precocious lines of avian Eimeria.

C.C. NORTON, J. CATCHPOLE, N.A. EVANS (U.K.) - Performance of an attenuated coccidiosis vaccine in floor pen challenge studies.

J.E. BUSHELL, R.B. HARDING, N.A. EVANS, M.W. SHIRLEY (U.K.) - Coccidiosis control in chickens using a live attenuated vaccine II. Field trial results.

G.M. WEBER (Switzerland) - Immunization of chicks by trickle infection with Eimeria tenella under medication with Lasalocid.
