NUCLEAR FUEL FABRICATION

Proceedings of a Symposium on Nuclear Fuel Fabrication
NUFFAB'88
held at the Bhabha Atomic Research Centre, Bombay

Organised by the Board of Research in Nuclear Sciences,
Department of Atomic Energy, India
and
the Indian Ceramic Society (BMR Chapter, Bombay)

Guest Editor
C. Ganguly
Radiometallurgy Division
Bhabha Atomic Research Centre
Bombay 400 085
India
TABLE OF CONTENTS

I. OVERVIEW OF FUELS

The Growth and Development of Plutonium Fuels Technology in India
   P.R. Roy
   Fabrication of Fuel for Water Reactors
   G.V.S.R.K. Somayajulu, N. Swaminathan, R. Rajendran
   and K. Balaramamoorthy
   Development of Cladding and Structural Materials for Thermal
   and Fast Reactor Programme in India
   C.V. Sundaram, P. Rodriguez, S.L. Mannan and
   S. Venkadesan

II. FAST REACTOR FUEL ENGINEERING

Choice of Fuel Material for India’s Fast Reactor Programme
   S.R. Paranjpe
   Super Phenix Core Fabrication
   R. Vandevoir
   Main Options for Super Phenix Core Assemblies Design
   F. Rouches and J.C. Nervi

III. THERMAL REACTOR FUEL ENGINEERING

Design Aspects of Metallic Fuel for Research Reactors and
   Ceramic Fuel for Boiling Water Reactors
   S.K. Mehta, K. Anantharaman, S.M. Choudhary and
   K.R. Srinivasan
   Design Aspects of PHWR Fuel for Improved Performance
   M. Das
   Thorium Utilisation in Indian Power Programme
   Kamala Balakrishnan and C. Ganguly

IV. FAST REACTOR FUEL FABRICATION

Manufacture of the First Fuel Charge for the Super-Phenix
   Reactor
   J. Pajot, M. Beche and M.J. Heyraud
   Fabrication of (U,Pu)C and (U,Pu)N Fuels for FBTR and PFBR
   C. Ganguly, P.V. Hedge, G.C. Jain and U. Basak
   Alternative Fuels for the French Fast Breeder Reactors
   Programme
   H. Bailly, H. Bernard and B. Mansard
V. THERMAL REACTOR FUEL FABRICATION

Modifications in the "Powder-Pellet" Route for Higher Recovery and Reduced Fuel Fabrication Cost of UO2/MOX Fuel
S. Majumdar, M.R. Nair, R. Ramachandran and H.S. Kamath 185

Zirconium Alloys as Cladding and Structural Materials for Water Cooled Reactors
M.K. Asundi and S. Banerjee 201

MOX Fuel Plans in LWRs
G. Lebastard 221

MOX Fuel Fabrication Experience and MOX Plant
D.S.C. Purushotham 231

VI. ENGINEERING DEVELOPMENT AND SAFETY IN FUEL FABRICATION

Experience in BARC on the Preparation of Gel Microspheres of Uranium, Thorium and Plutonium Fuels
D.D. Sood and V.N. Vaidya 245

Encapsulation of Plutonium Based Fuel Pins
G.L. Goswami, M.S. Sargunam, K.N. Kedia, A.Chatterjee, V.R. Nair and O.L. D'Souza 257

Engineering and Safety Features in Plutonium Fuel Fabrication Facility
K.G. Phadke, V. Suryanarayanan, T.S. Balan, A.G. Deshmukh and K.N. Mahule 269

Health Physics Aspects of Plutonium and Uranium Fuel Fabrication
S.D. Soman 287

VII. RESEARCH REACTOR FUEL FABRICATION

The Status of Development of LEU-Fuels for Research Reactors
S. Nazare 297

Development and Fabrication of Al-U233 and Al-Pu Plate Fuel Elements for PURNIMA III/KAMINI
G.J. Prasad, K.V.J. Asari and C. Ganguly 315

Experiences in the Fabrication of Aluminium Clad Metallic Uranium Fuel
R.Vijayaraghavan 329
VIII. QUALITY CONTROL OF NUCLEAR FUELS

Quality Assurance and Quality Control in Water Reactor Fuel Production
V.A. Chandramouli, T.S. Krishnan and K. Balaramamooorthy 347

Inspection and Quality Control Experience of FBTR and KAMINI Fuels

Chemical Quality Control of Nuclear Fuels
S.K. Patil 371

Atomic Spectroscopy for Trace Metallic Assay of Nuclear Fuels
M.D. Sastry 381

IX. PERFORMANCE AND P.I.E. OF FUELS

Performance of PHWR and BWR Fuels
S.K. Chatterjee 393

Manufacturing Quality, Performance and Inspection Results of the VVER-440 UO2 Fuel at the Loviisa NPS
J. Moisio, R. Kvarnström and T. Planman 403

Post Irradiation Examination of DHRUVA, TAPS and MAPS Fuels
K.S. Sivaramakrishnan and K.C. Sahoo 425
