MAGNETIC RECONNECTION
AND TURBULENCE

Proceedings of the International Workshop on Magnetic Reconnection and Turbulence, held
July 8-13th, 1985
at
"Institut d'Etudes Scientifiques de Cargèse", Corse du Sud, France

Edited by
M.A. Dubois, D. Gresillon and M.N. Bussac

Distributor : Les Editions de Physique
BP 112
91944 Les Ulis Cedex
France
CONTENTS

Introduction 11

Workshop's picture 14

CHAPTER I: RECONNECTION: GENERAL TOPICS 17

1.1 D. Biskamp 19
Magnetic Reconnection Via Current Sheets (Invited paper)

1.2 R.L. Stenzel, W. Gekelman, J.M. Urrutia 63
Laboratory Experiment on Magnetic Reconnection and Turbulence
(Invited paper)

1.3 P.C.H. Martens 79
Absence of MHS-Equilibrium in Plasmas

1.4 B. Saramito, E.K. Maschke 89
Bifurcation of Steady Tearing States

1.5 D. Gandolfo, R. Hoegh-Krohn, R. Rodriguez 101
Magnetic Surface Breaking by Islands

1.6 M. Meneguzzi, A. Pouquet 109
A Turbulent Dynamo Driven by Convection

1.7 F. Pegoraro, T.J. Schep 115
Energy Balance of Resistive Modes

CHAPTER II: RECONNECTION IN GEOPHYSICAL AND ASTROPHYSICAL PLASMAS 119

2.1 J. Heyvaerts 121
Quasistatic Evolution of Magnetic Arcades in the Sun:
Ideal and Dissipative Case (Invited paper)

2.2 A. Roux 137
Instability of the Equatorial Plasmasheet: A Mechanism for the
Formation of Discrete Arcs (Invited paper)

2.3 R.A. Zappala, F. Zuccarello 159
Footpoint Motions and Energy Storage in the Sun
2.4 G.H.J. Van den Oord, J.S. Kaastra
The Modelling of Solar Two-Ribbon Flares

2.5 L. Nocera
Bifurcations and Nonperiodic Behaviour of Nonlinear MHD Waves in the Solar Atmosphere

2.6 J.C. Cerisier, C. Machard, J.J. Berthelier, C. Beghin
Electrostatic and Magnetic Turbulence in Auroral Regions

CHAPTER III: FUSION PLASMA I: SAWTEETH

3.1 F. Alladio, G. Mazzitelli, A.A. Tucillo, G. Vlad
Analysis of Sawtooth Relaxations in Ohmic and RF Heated Discharges of the FT Tokamak

3.2 M.N. Bussac, R. Pellat, J.L. Soule, M. Tagger
Half-Coalescence of the m/n = 1 Magnetic Island in Tokamaks

3.3 M. Dubois, A. Samain
Fast Reconnection Does Not Explain Internal Disruption

Modulation of the Turbulence Level and of the Energy Flux by Sawtooth Relaxations in Tokamaks

3.5 F. Ryter
Study of the Sawtooth Activity on Petula With a Fast Infrared Interferometer

Observations of MHD Activity in TFTR

3.7 P. Smeulders
X-Ray Structures of the m = 1 Tearing Mode During an Internal Sawtooth Disruption

3.8 E. Westerhof, W. Goedheer
Simulation of Sawtooth Dynamics With a 1-D Transport Code

3.9 R.B. White, D. Biskamp
Working Group on Sawtooth Oscillations
CHAPTER IV : FUSION PLASMA II

4.1 D.C. Robinson, P. Haynes, A.W. Morris
MHD Activity on Jet (Invited paper)

4.2 M. Lorentz-Gottardi
On the Double-Tearing Mode and Current Penetration

4.3 R.B. White, P.H. Rutherford, H.P. Furth, W. Park, L. Chen
Feedback Control of Resistive Instabilities (Invited paper)

4.4 A.W. Morris, J.J. Ellis, D.C. Robinson
Driven Reconnection on the Tosca Tokamak

4.5 A. Howling, A.W. Morris, D.C. Robinson
Observations on Turbulence and Confinement in Pinches and Tokamaks

4.6 C.G. Gimblett
The Structure and Interpretation of Magnetic Fluctuations in the HBTX1A Reversed Field Pinch

List of participant to the Cargese 85 meeting
