### GENERAL SESSION—INVITATIONAL PAPERS

**THEME: HERBICIDES – THE COST/BENEFIT RATIO**

- **Welcoming Remarks.** Martin D. Woodin ........................................... 1
- **Weed Science – The Unfinished Discipline.** Gale A. Buchanan ................. 2
- **Industry's View on Benefits and Risks of the Pesticide Business.** Charles H. Gilbert .............................................................. 14
- **Herbicides: The Cost/Benefit Ratio – The User's View.** George F. Mitchell, Jr ....................................................... 48

### SECTION I—WEED CONTROL IN AGRONOMIC CROPS INCLUDING TURF AND PASTURES. B. J. GOSSETT, CHAIRMAN

- **Effect of 2,4-DB and Bentazon on Agronomic Characteristics of Three Soybean Varieties.** C. C. Dowler and M. B. Parker ........................................ 51
- **Postemergence Susceptibility of Gramineae Species to HOE-29152 (Metriflufen).** N. Rogers and L. R. Oliver ........................................... 52
- **The Evaluation of HOE-29152 for Selective Johnsongrass Control.** J. P. Downs and C. E. Rieck .......................................................... 53
- **Relationships of Planting Depths to Control from Soil Applied Herbicides.** E. R. Jolley and D. S. Murray ........................................... 54
- **Broadleaf Weed Control with Dinitrime and Trifluralin.** J. L. Oakes and L. R. Oliver ....................................................... 55
- **Response of Morningglory, Jimsonweed, Velvetleaf, Giant Ragweed, and Lambsquarters in Soybeans to Various Overtop Postemergence Herbicides.** K. D. Russell and L. S. Jeffery .......................................... 57
- **Common Cocklebur Control in Soybeans with Single and Multiple Herbicide Applications.** J. K. Soteres, E. R. Jolley and D. S. Murray ........................................... 58
- **Response of Soybeans and Weeds to RH-6201 as Influenced by Spray Adjuvants.** E. C. Murdock, B. J. Gossett, and H. L. Musen ............................ 59
- **Herbicide Systems for Double Cropping of No-Tillage Soybeans.** C. M. French and P. W. Santelmann ........................................... 60
Timing of Soybean Planting Following Cotton Stand Failure. T. C. Sharp, R. Frans, and R. E. Talbert

Soybean and Cotton Herbicide Carryover on Fall-Seeded Crops. T. R. Green and R. E. Talbert

Crop and Weed Response to an Electrical Discharge. J. M. Chandler

Effects of 2,4-DB on Yield and Pod Development in Peanuts. M. L. Ketchersid, T. E. Boswell, and M. G. Merkle

Activity of Two Newly Developed Herbicides in Spanish Peanuts. E. Thilsted and P. W. Santelmann

Thiocarbonate Herbicides and Antidote Effects on Corn Hybrids. J. M. Kennedy and W. A. Krueger

Selectivity of Asulam on Johnsongrass in Fescue. C. L. Blevins and C. E. Rieck

Cultural Control of Bromus Species in Winter Wheat. T. J. Runyan and T. F. Peeper

Correction of Wheat Yield Data for Bromus or Avena spp. Content. W. K. McNeil and T. F. Peeper

Postemergence Directed Application of Paraquat in Louisiana Sugarcane. G. M. Dill and F. A. Martin

Influence of Location, Soil Types and Herbicide Rates on Cotton Response to Fluometuron and Trifluralin. B. F. Viar and L. S. Jeffery

Influence of Four Alfalfa Herbicides on Subsequent Crops. H. E. Miles and P. W. Santelmann

Effectiveness and Persistence of Fluridone. P. A. Banks and M. G. Merkle

Soil Metabolism of Mefluidide. S. Glenn and C. E. Rieck

The Influence of Herbicide Management for Controlling Prickly Sida in Cotton. H. R. Hurst

Postemergence Herbicides in Cotton. R. S. Baker

Soybean Response to Propanil. E. F. Eastin 92

Yellow Nutsedge Control in Soybeans. R. M. Hayes and C. H. Slack. 93

Overtop Herbicides on Soybeans in Southwest Louisiana. P. R. Nester, T. R. Harger and B. D. Reynolds. 95

Control of Annual Weeds in Soybeans of Southern Brazil. G. Davis, E. Voll, and H. Lorenzo. 96

The Effects of Herbicides on Mungbeans Production. D. M. Pain. 99

Herbicide Application with Sprinkler Irrigation. A. F. Wiese and W. E. Turner. 100

Control of Yellow Nutsedge in Corn. C. H. Slack and R. M. Hayes. 101

Trifluralin for Weed Control in Grain Sorghum and Corn. J. C. Bank, D. A. Addison, R. D. Hicks, K. E. McNeill, L. C. Warner, and H. L. Webster. 102

Goosegrass Control in Sorghum-Sudan Hybrid. N. W. Buehring. 104

Response of Peanuts to Dinitroaniline Herbicides. G. A. Buchanan, E. W. Hauser, and Joe Street. 105

Ethalfuralin for Weed Control in Peanuts. J. F. Nicholson, D. A. Addison, R. D. Hicks, and W. H. Humphreys. 115

Metolachlor as a Peanut Herbicide. T. R. Dill and S. W. Dumford. 120

Control of Yellow Nutsedge in Peanuts with Bentazon. E. Ellison, C. Cole, and J. Harden. 121

Carbofuran Interaction with Grain Sorghum Herbicides. A. W. Jackson. 122

Paraquat as an Early or Late Salvage Spray Over Florunner Peanuts. D. A. Pate. 123
Tolerance of 52 Corn Lines to Trifluralin. J. L. Davis, J. R. Abernathy, and A. F. Wiese ........................................ 123

Bentazon for Control of Broadleaf Weeds and Sedges in Rice. S. Atwell, C. Cole, and D. Zarecor ............................................................. 125

Benefits of Killed Rye for a Mulch in No-Tillage Cropping Systems. R. N. Gallaher ................................................................. 127

Harvest Aid Herbicides in Corn. M. A. Langston and T. J. English .......................... 134

Screening Herbicides for Torpedograss Control in Turf. D. C. Fleming, H. D. Palmertree, and D. W. Houston .................................................. 136

Prosulfalin for Weed Control in Turfgrasses. D. F. Frank, J. B. Edmondson, and M. Nealon ............................................................. 137

Basic Properties of "Velpar" Weed Killer and Its Selective Use in Sugarcane. J. D. Riggleman ............................................................. 141

Paraquat Desiccation Followed by Burning Bahiagrass Sod for Better Yields from Drilled Winter Pasture in North Florida. D. A. Pate .................................. 149

SECTION II--WEED CONTROL IN HORTICULTURAL CROPS.

T. J. MONACO, CHAIRMAN

Weed Control in Snapbeans. N. C. Glaze and S. C. Phatak ........................................ 151

Weed Control in Cucurbits with Ethalfluralin, Oryzalin, and Pendimethalin. S. J. Locascio ............................................................. 152

Field Tolerance of Southern Pea Cultivars to Metribuzin. S. C. Phatak and N. C. Glaze ............................................................. 168

Southern Pea Response to Tall Morningglory Competition. A. W. Cole ........................................ 169

Weed Control in Non-Bearing Pecans. J. W. Daniell ........................................ 170

1977 Pre- and Postemergence Weed Control in Forest Nurseries. D. B. South and D. H. Gjerstad ....................................... 198

Pine Seedling Tolerance to Velpar. C. H. Fitzgerald and J. C. Fortson. ................................................................. 199

Chemical Site Preparation Trials on Sandy Soil. R. A. Newbold ..... 200

Site Preparation for Regeneration of Southern Pines: Problems and Challenges. R. J. Kushmaul. .................................. 201

SECTION IV—THE CONTROL OF WEEDS AND WOODY PLANTS ON UTILITY, RAILROAD AND HIGHWAY RIGHTS-OF-WAY AND ON INDUSTRIAL SITES. T. J. ALLEN, CHAIRMAN

Effects of Various Soil Physical Properties on Phytotoxicity of Tebuthiuron. M. L. Fischer and J. F. Stritzke ....................... 204

Influence of Soil and Environmental Factors on Metribuzin Phytotoxicity. C. J. Peters and J. B. Weber ................................. 205

Effect of DBCP on Fluchloralin Persistence. F. Brewer, R. E. Talbert and T. L. Lavy ..................................................... 206

Evaluation of Glyphosate for Johnsongrass Control with a Recirculating Sprayer in Four Crops. M. Boyles, J. Mason and P. W. Santelmann .. 207

Effects of Bermudagrass (Cynodon dactylon) on Growth of Peach (Prunus persica, vr. Lovell) Seedlings. S. C. Weller, W. A. Skroch T. J. Monaco ............................................................... 208

A New Direction in Roadside Weed Control in the South. W. H. Hudson, Jr. and J. L. Kubacak. ............................................ 211

Herbicide Efficiency in Florida Railroad Trials with Diquat and Paraquat. Wm. D. Hogan, S. B. Hopkins and M. R. Jones ............. 212

Johnsongrass as a Problem in Indiana. M. A. Ross. ....................... 213

Response of Oaks and Associated Woody Species to "Velpar". C. J. Scifres and J. L. Mutz .................................................. 214
SECTION V—AQUATIC WEEDS AND SPECIAL WEED PROBLEMS.
W. T. HALLER, CHAIRMAN

Experimental Aquatic Herbicide Evaluation Program at Purdue University. C. A. Lembi ..................................................... 216

The Use of Komeen for Control of Elodea Canadensis Michx., American Elodea. W. W. Thomaston ........................................... 217

Aquatic Weed Problems in the Sudan. M. Tag El Seed ..................... 219

Water Inundation for Control of Saltcedar Along the Periphery of Lakes. H. T. Widemann and B. T. Cross ............................. 229

Controlling Equisetum in Field Drainage Ditches of Southern Louisiana. R. W. Millhollon ................................................. 230

Resistance of Pithophora oedogonia Akinetes to Adverse Environmental Conditions. R. A. Gyure, N. L. Pearlmutter and C. A. Lembi .... 231

Environmental Aspects of Mechanical Harvesting of Hydrilla in a Large Florida Lake. W. T. Haller and J. Joyce ...................... 232

Survival of Hydrilla Plants and Propagules After Removal from the Aquatic Habitat. F. M. Basiouny, W. T. Haller and L. A. Garrard ... 233

Anhydrous Ammonia for Aquatic Vegetation Control in Irrigation Canals. J. T. Davis and W. G. Klussmann .............................. 234

Sorption of Four Herbicides by Various Algae. K. Hawxby and R. Mehta . 235

Diquat and Ferric Chloride for Control of Hydrilla. P. A. Frank and N. Dechoretz ....................................................... 236

Improved Efficacy in Aquatic Vegetation Control. Wm. D. Hogan and S. B. Hopkins ..................................................... 237

Effects of the White Amur on Selected Water Quality Parameters in Indiana Ponds. B. G. Ritenour and C. A. Lembi ...................... 238

Hydrilla Control Efforts in Texas. L. V. Guerra ........................ 239

SECTION VI—ECOLOGICAL, PHYSIOLOGICAL AND EDAPHIC ASPECTS OF WEED CONTROL. R. E. WILKINSON, CHAIRMAN

Absorption and Translocation of $^{14}$C-RH-6201. B. L. Mangeot, C. E. Rieck and J. R. Martin ........................................ 240
Activity and Accumulation of Bentazon in Cocklebur and Giant Ragweed. J. R. Martin, C. E. Rieck and B. L. Mangeot 241

Common Ragweed (Ambrosia Artemisiifolia) Interference in Flue-Cured Tobacco. L. L. Medlen and A. D. Worsham 242

Accumulation of C-14 Glyphosate in Johnsongrass. J. J. Kells and C. E. Rieck 243

The Effects of PPG 124 on the Hydrolysis of Chlorpropham. J. A. Bohn, C. A. Morris and C. E. Rieck 244

Effects of Selected Herbicides on Protein Synthesis. M. W. Bugg and R. M. Hayes 245

Response of Arrowleaf Clover to 2,4-DB. J. D. Conrad and J. F. Stritzke 246

Preliminary Studies on Moisture Competition between Cotton and Small White Morningglory. D. B. Schuman, R. E. Frans and J. M. Chandler 247

Time Lapse Photography as a Tool for Studying the Effects of Herbicides on Root Growth. C. B. Rogers, R. E. Talbert and D. A. Brown 248

Seed Protectant Effects on Metolachlor Absorption and Translocation. W. H. Ahrens and D. E. Davis 249

Metolachlor Effects on Lipid Metabolism in Cotton Root Tips. A. M. Diner, B. Truelove and D. E. Davis 250

Germination of Goldenweed Seed. H. S. Mayeux, Jr. and C. J. Scifres 251

Fatty Acid Degradation in EPTC Treated Wheat. R. E. Wilkinson 252

Studies Evaluating the Site of Fluridone Uptake by Fourteen Crop and Ten Weed Species. R. Albritton and S. J. Parka 253

Persistence of Fluridone in Soil. K. E. Savage 270

Dissipation of VEL-4207 from Texas Soils. M. L. Ketchersid and M. G. Merkle 271

Herbicidal Effects on RNA, DNA, and Protein Synthesis. P. Pillai, D. E. Davis and B. Truelove 278

Effects of Dichlobenil and Alachlor on 2,4,5-T Translocation. E. Basler 279
Enhancement of Ipomoea Seed Germination. W. S. Hardcastle 280

 Degradation of Profluralin under Aerobic and Anaerobic Soil Conditions. N. D. Camper, K. Stralka and H. D. Skipper 282

 Soil Factors Affecting the Adsorption and Activity of Bifenox. R. E. Talbert and L. Hodges 283

 The Ultrastructural Effects of N-(Phosphonomethyl) Glycine on Chloroplasts of Purple Nutsedge. R. E. Hoagland and R. N. Paul 284

 The Effects of N-(Phosphonomethyl) Glycine on Selected Enzymes in Lemma Gibba L. R. E. Hoagland 285

SECTION VII--EDUCATIONAL, REGULATORY, AND ENVIRONMENTAL ASPECTS OF WEED CONTROL. W. M. LEWIS, CHAIRMAN

 Effect of Atrazine and Paraquat on Bermudagrass Production. J. R. Sholar and J. F. Stritzke 286

 Grass Control in Grain Sorghum in South Texas. D. Weaver 287

 Efficient Cataloging, Storage, and Retrieval of Personal Reprint Files. R. D. Wauchope and J. L. Moore 289

 Problems and Economics of Cotton Production if EPA Bans Herbicides. S. J. Nemec 290

 The Role of Weed Science in I.P.M. in Arkansas. F. L. Baldwin 292

SECTION VIII--DEVELOPMENTS FROM INDUSTRY. H. R. SMITH, CHAIRMAN

 Spike for Weed Control in Sugarcane. J. L. Pafford and S. Addink 295

 Paraquat Alone and as Tank Mixes Applied At-Cracking or Early Post-Emergence for Weed Control in Florunner Peanuts. D. A. Fate 309

 Progress Report on Hoelon 3EC. D. A. Kinney 310
SECTION IX—APPLICATION OF HERBICIDES.
T. N. JORDAN, CHAIRMAN

Broadleaf Weed Control in Soybeans with Acifluorfen. W. L. Barrentine 313

Mesquite Control as Influenced by Volume of Carrier and Swath Width.

Control of South Texas Brush with Liquid and Pelletized Herbicides.

The Use of Lattice Design in Large Scale Herbicide Field Trials.
M. R. McClelland, B. A. Waddle and R. E. Frans .............. 316

Hopper-Gate Baffle for Improved Metering of Pellets from Aircraft.
H. T. Wiedemann, C. H. Meadors, B. T. Cross and V. E. Jones .... 317

"CDA" Controlled Droplet Application. F. X. McGarvey .......... 318

Gravity-Fed Recirculating Sprayers. D. D. Field ............... 323

Recirculating Sprayer—Newest in Herbicide Applications. H. J. Ewald,
Jr. ......................................................................... 327

Progress Report: Control of Broadleaf Weeds in Peanuts with the
Recirculating Spray Technique. E. W. Hauser and G. A. Buchanan .. 330

Johnsongrass Control in High Plains Cotton with Glyphosate Applied
Through the Recirculating Sprayer. J. B. Sikes, Jr. ............. 331

The Rope-Wick Applicator—A New Method of Applying Glyphosate.
J. E. Dale .................................................................... 332

Development of a Hooded Sprayer for Agronomic Crops. T. N. Jordan . 333

PAPERS PRESENTED BUT NOT AVAILABLE FOR INCLUSIONS IN THESE PROCEEDINGS

SECTION II: Napropamide, A Promising New Herbicide for Weed Control in
Citrus, Deciduous, Tomatoes, and Tobacco. R. G. Humphreys, Stauffer
Chemical Company, Wesport, CT.

SECTION V: Evaluation of Velpar for Control of Aquatic Weeds in Pool
and Field Tests. J. R. Barry and J. A. Foret, University of
Southwestern Louisiana, Lafayette, LA.

Integrated Chemical and Biological Control of Hydrilla in Lake Killarney.
W. T. Haller, University of Florida, Gainesville, FL.

SECTION VIII: Status Report on BLAZER and GOAL - Soybean Herbicides.
J. B. Ryan, Rhom & Haas Co., Springhouse, PA.
SECTION I: Effects of Various Weed Control Systems in Conventional and No-Tillage Soybeans. F. D. Bullock and L. S. Jeffery, University of Tennessee, Knoxville, TN.

Spot Spraying for Johnsongrass Control in Soybeans. F. T. Withers, Jr., and H. R. Hurst, Mississippi Agricultural Experiment Station, Pontotoc and Stoneville, MS.

Evaluation of Several Chemicals for Weed Control in Sweet Sorghum. S. A. Reeves, Jr., Texas Agricultural Experiment Station, Weslaco, TX.

Controlling Weeds for Minimum Tillage Soybean Production. H. D. Kerr, J. K. Hsu and J. W. McGee, University of Missouri, Portageville, MO.

SECTION V: Botanical Origin of the Noxious Waterweed Hydrilla verticillata and Implications for Research and Control. R. L. Lazor, Florida Department of Natural Resources, Tallahassee, FL.
