CONTENTS

D.P. Loucks and O.T. Sigvaldason. Multiple-reservoir operation in North America. 1

E.V. Tsvetkov, A.S. Resnikovskii, D.N. Korobova, and G.H. Ismailov. Methods for control of complex reservoir cascades and their application in the USSR. 105

A. Bøcker, H. Krippendorf, P. Sosnowski. Real-time and long-term aspects of operating multipurpose reservoirs. 127

T. Kitson. The operation of reservoir systems in Great Britain. 163

E. Kuusisto. Operation of multiple reservoir systems in Finland. 177

Z. Kos. Operation of water resource systems in Czechoslovakia. 181

R.J. Verhaeghe. Operation of the largest reservoir system in the Netherlands: the Ijssel Lake. 205

T. Hashimoto. Overview on operation of multi-purpose, multi-reservoir systems in Japan. 215

O.T. Sigvaldason. Multireservoir management of the Trent, Severn, Rideau and Cataraqui systems: a case study. 231

Th. Leipold and R.-P. Spiegel. Stochastic modeling of multi-purpose reservoirs—online operation. 295

V. Žejdlich. Overview of research on operation of multiple reservoir systems (Colorado State University activities). 311

W.O. Wunderlich. Overview of water management methods for the TVA-operated reservoir system. 325

Z. Kos and V. Zeman. The Odra River water resource system: a case study. 363

G.H. Toebes. Technology transfer in reservoir systems operation. 383

Z. Kaczmarsk and J. Kindler. Operation of multiple reservoir systems (summary and conclusions). 395
