# Advances in Marine Environmental Research

## Proceedings of a Symposium

Francine Sakin Jacoff,  
Editor

Environmental Research Laboratory  
Office of Research and Development  
U.S. Environmental Protection Agency  
Narragansett, Rhode Island 02882

## TABLE OF CONTENTS

| TITLE  | PAGE |
|--|------|
| Preparation and Characterization of a Marine Reference Material for Trace Element Determinations                             | 1    |
| The Release of Heavy Metals from Reducing Marine Sediments   | 9    |
| The Use of Introduced Species ( <i>Mytilus edulis</i> ) as a Biological Indicator of Trace Metal Contamination in an Estuary | 26   |
| Trace Metal Speciation and Toxicity in Phytoplankton Cultures  | 38   |
| A Simple Elution Technique for the Analysis of Copper in <i>Neanthes arenaceodentata</i>                                     | 62   |
| Geochemistry of Fossil Fuel Hydrocarbons in Marine Sediments: Selected Aspects   | 68   |
| Identification of Environmental Genetic Toxicants with Cultured Mammalian Cells  | 79   |
| Development of a Bioassay for Oils Using Brown Algae   | 101  |
| Effects of No. 2 Heating Oil on Filtration Rate of Blue Mussels, <i>Mytilus edulis</i> Linne                                 | 112  |
| Lobster Behavior and Chemoreception: Sublethal Effects of Number 2 Fuel Oil  | 122  |
| Influence of No. 2 Fuel Oil on Survival and Reproduction of Four Marine Invertebrates  | 135  |
| Extraction of Environmental Information Stored in Molluscan Shells: Application to Ecological Problems                       | 157  |
| Laboratory Culture of Marine Fish Larvae and Their Role in Marine Environmental Research                                     | 176  |
| Laboratory Culture of the Grass Shrimp, <i>Palaemonetes vulgaris</i>   | 206  |
| Evaluation of Various Diets on the Lipid and Protein Composition of Early Life Stages of the Atlantic Silverside             | 214  |

## TABLE OF CONTENTS (Continued)

| TITLE  | PAGE |
|--|------|
| The Combined Effect of Temperature and Delayed Initial Feeding on the Survival and Growth of Larval Striped Bass <i>Morone saxatilis</i> (Walbaum) | 234  |
| The Evolution of the Bugsystem: Recent Progress in the Analysis of Bio-Behavioral Data   | 251  |
| The Effects of Temperature, Light, and Exposure to Sublethal Levels of Copper on the Swimming Behavior of Barnacle Nauplii                         | 273  |
| Use of a Laboratory Predator-Prey Test as an Indicator of Sublethal Pollutant Stress   | 290  |
| Burrowing Activities and Sediment Impact of <i>Nephtys incisa</i>  | 302  |
| Second Generation Pesticides and Crab Development  | 320  |
| Some Suggestions for the Collection and Analysis of Marine Environmental Data  | 337  |
| Kaneohe Bay: Nutrient Mass Balance, Sewage Diversion, and Ecosystem Responses  | 346  |
| Replicability of MERL Microcosms: Initial Observations   | 361  |
| Turbulent Mixing in Marine Microcosms – Some Relative Measures and Ecological Consequences   | 384  |
