VTT SYMPOSIUM 72

INDUSTRIAL PLANNING, ENGINEERING AND CONSTRUCTION UNDER EXTREME CIRCUMSTANCES

VIII International Symposium
Espoo, Finland, May 19–23, 1986

Editors: Markku Salmi, Pirkko Tuomela

Sponsored by
CIB Working Group W66 "Industrial Buildings"
UIA Working Group "Working Places and Commercial Spaces"

Organized by
Technical Research Centre of Finland (VTT)
LIST OF CONTENTS

GENERAL SESSION

Chairman P. Jumppanen, Finland

Opening of the Symposium
Lauri Tarasti
Secretary General, Ministry of the Environment

General Tendencies - Industrial Building
Degenhard Sommer, Professor
Institut für Hochbau und Industriebau, Austria

Site Engineering Evaluations Using Remote Sensing in Isolated Geographic Regions
John Rich, Sr. Arctic Engineer
Bechtel Petroleum, Inc., USA

Industrial Architecture and Climate - an Interacion
Karl-Heinz Lander, Professor
Technische Universität, Dresden, GDR

Chairman W. Henn, FRG

Architectural - Planning and Structural Conceptions of Industrial Buildings Taking into Account Latest Techniques and Technology
V.I. Korolev, Principal Engineer
Gosstroi/Promstroiproekt, USSR

Industrial Construvtion Under Extreme Circumstances
Definition of the Problem of the Symposium
Matti K. Mäkinen, Main Reporter of the Symposium
General Director, Finnish National Board of Public Building
WORKING SESSION 0

Chairman A. Sarja, Finland
Technical Secretary M. Salmi, Finland

Quality of Industrial Architecture in Cold Regions
Bohdan Lisowski, Professor
Technical University of Cracow, Poland

Use of Remotely Sensed Imagery for Evaluation of Environmental and Engineering Parameters Related to Industrial Site Evaluation at Isolated Arctic Locations
William J. Stringer, Associate Professor
University of Alaska-Fairbanks, USA

Fire Safety Considerations in the Design of Structural Sandwich Panels
Gordon E. Cooke, Head Structural Safety
Fire Research Station, U.K.

Industrialization of Compressor Stations, Construction of the Main Gas Pipelines in the USSR Cold Regions Difficult to Access
J.N. Permikin
A.I. Nalivayko
M.V. Zariankina
Ministry of Oil and Gas Construction, USSR

WORKING SESSION A1
COLD REGIONS

Chairman R. Pentikäinen, Finland
Technical Secretary S. Saarelainen, Finland

Postevaluation of the Planning and Construction of Kostamuksha Industrial Plant and Town
Technical Research Centre of Finland
Division for Building Technology and Community Development
Building Experimentation at Kilpisjärvi
Heikki Matala, Director of Laboratory
Technical Research Centre of Finland
Building Laboratory

Modular Construction in the Arctic
Technical Research Centre of Finland
Laboratory of Structural Engineering

Module Structural Design Considerations for Cold Climates
Vytautas J. Tamosaitis, Sr. Engineering Supervisor
The Ralph M. Parsons Company, USA

WORKING SESSION A2
COLD REGIONS

Chairman E. Leppävuori, Finland
Technical Secretary S. Saarelainen, Finland

Concrete under Arctic Conditions
Technical Research Centre of Finland
Concrete and Silicate Laboratory

Development of Concrete Structures in Arctic Offshore Conditions
Technical Research Centre of Finland
Concrete and Silicate Laboratory

Architectural - Structural and Planning Conceptions of Industrial Projects in Northern Regions of the USSR
V.A. Tsvetkov, Architect
Gosstroy of USSR

On the Construction Feasibility Evaluation of Soil Materials
Pertti Nieminen, Dr.Tech.
Tampere University of Technology, Finland
Special Problems in Arctic Road Construction and Maintenance in Finland
Technical Research Centre of Finland
Geotechnical Laboratory

WORKING SESSION B.
HOT REGIONS

Chairman F-K Falcke, FRG
Technical Secretary E. Pukki, Finland

Experience in the Planning and Designing of Engineering Plants for Tropical Countries
Otmar Kauffman, Architect
The Building Research Institute Prague, Checkoslovakia

Innovative Low Cost Construction Techniques for Hot Climate Conditions
Asko Sarja, Professor, Dr.Tech.
Technical Research Centre of Finland
Concrete and Silicate Laboratory

WORKING SESSION C1
REGIONS WITH SPECIAL GROUND CONDITIONS

Chairman P. Anagnosti, Yugoslavia
Technical Secretary J. Hartikainen, Finland

Geotechnical Aspects of Construction in Seismic Areas
Petar Anagnosti, Professor
Energoprojekt, Yugoslavia

Multistoried Industrial Buildings in Rumanian Seismic Areas
Petru Vernescu, Dr.Eng.
Anatolie Cazacliu, Eng.
IPCT, Rumania
Configuration and Constructive Solutions Adopted in Rumania for One-storey Industrial Halls with Concrete Structure Built in Seismic Areas
Petru Vernescu, Dr.Eng.
Anatolie Cazacliu, Eng.
IPCT, Rumania

On the Distribution of the Horizontal Loading due to Earthquake and Extreme Wind in Prefabricated Low-rise Wooden Buildings
Markku Heinisuo, Tech.lic.
Tampere University of Technology, Finland

Efficient Foundation Designs of Low Rise Farm Buildings for Seismic Regions and Other Conditions
N.V. Zhukov, Eng.
L.P. Karabanova, Eng.
A.G. Ferdjulian, Eng.
Gosstroy of USSR

Influence of Seismicresistant Measures on Designs of Industrial Buildings (L'influence des précautions antiseismiques sur l'architecture des bâtiments industriels)
Metodi Pissarski, Professor
Faculte d'Architecture, Bulgaria

WORKING SESSION C2
REGIONS WITH SPECIAL GROUND CONDITIONS

Chairman P. Anagnosti, Yugoslavia
Technical Secretary J. Hartikainen, Finland

Experience of Design and Construction of Industrial Buildings in Seismic Regions of the Kazakh SSR
G.V. Poplavskaya, Eng.
A.D. Amalbashian, Eng.
T.Zh. Zhunusov, Eng.
G.M. Ostrikov, Eng.
Gosstroy of USSR
Chemical Plants in Tidal Mud Flats - Building on Non Existing Ground
Friedrich-Karl Falcke, Dr.Eng.
Federal Republic of Germany

On Areas of Scientific Investigations in the Field of Construction on Silted up Footing
V.G. Lastotshkin, Eng.
Gosstroy of USSR

Design and Construction of Buildings and Structures in Heavy Geological and Mining Conditions of Donbass Region
A.A. Shkromada, Eng.
Gosstroy of USSR

Experience Gained from Constructing and Operating of Industrial Plants on Subsidence Areas in Checkoslovakia
Jiri Bradac, Eng.
Hutni Projekt Praha, Checkoslovakia

Der Bau von Obiekt en in den Gebieten die der Wirkung von Bergs chäden unterliegen in Polnischen Kohlenbecken
Protection of Building Objects on the Areas with Mining Damage Action in Polish Coal Basin
Union of Polish Architects, Poland
Tadeusz Zabystran, M.Sc.Eng.
Biuro Projektow Gorniczych, Poland

Graphic Documentation of Geometrical State Control and Retrification of the Objects Located in Regions with Special Ground Conditions
Kazimierz Juzwa, Dr.Eng.
Politechnika Slaska, Poland

GENERAL SESSION
Chairman V.I. Korolev, USSR
Final Report

Matti K. Mäkinen, Main Reporter of the Symposium
General Director, Finnish National Board of Public Building

APPENDICES

App. 1. LIST OF PARTICIPANTS
App. 2. SYMPOSIUM PROGRAMME
APP. 3. FINNISH ORGANIZING COMMITTEE
