Structural Performance of Flexible Pipes

Edited by
SHAD M. SARGAND & GAYLE F. MITCHELL
Center for Geotechnical and Groundwater Research, Ohio University, Athens, Ohio, USA

JOHN OWEN HURD
Ohio Department of Transportation, Columbus, Ohio, USA

Sponsored by the Center for Geotechnical and Groundwater Research, in cooperation with the Ohio Department of Transportation

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1990
Table of contents

Preface VII

Keynote address: Pipe deflections – A redeemable asset 1
Lester H. Gabriel

Rib-stiffened soil-steel structures 7
George Abdel-Sayed & Shantaram Ekhande

A comparison of analytical and field data for a rib-reinforced corrugated steel box-type culvert 17

Field measurements and analysis of a large diameter flexible culvert 27
P.M.Byrne, T.Srithar & C.B.Kern

A method for evaluating and projecting future movements of in-situ pipes 39
David C.Cowherd & Vlad G.Perlea

Application of deep corrugated steel plate to a new bridge in Tennessee 51
Samuel C.Musser, Sam B.Graham & Terry C.Miller

Field performance of steel corrugated, box-culvert with corrugated plate reinforcement 63
S.Oh, G.A.Hazen, S.M.Sargand & J.O.Hurd

Spiral rib metal pipe structural performance limits 73
James C.Schluter

Construction and inspection report on smooth lined corrugated polyethylene pipe 79
L.John Fleckenstein & David L.Allen

Nine year performance review of a 24" diameter culvert in Ohio 89
James B.Goddard

Analysis of the performance of a buried high density polyethylene pipe 95
Naila Hashash & Ernest T.Selig

Structural performance of three foot corrugated polyethylene pipe buried under high soil cover 105
Reynold K.Watkins
The design and construction of culverts using Controlled Low Strength Material – Controlled Density Fill (CLSM-CDF) backfill
William E. Brewer

Structural stability of deflected flexible pipe in a backfilled trench
L. H. Daniels

Nonlinear analysis of raising of flexible pipe strings
Ronald S. Reagan

Pipeline reconstruction without excavation
R. D. Rice

Soil-pipeline interaction in a pipeline with prescribed displacements
A. P. S. Selvadurai, M. C. Au & S. B. Shinde

Disposal of stormwater runoff using recharge systems
Corwin L. Tracy

Predicting the behavior of buried pipes using a mixed finite element approach
Musharraf Zaman & Joakim G. Laguros
