IWEM 90

‘Design and Construction of Works for Water and Environmental Management’

Technical Papers
CONTENTS

Paper 1  Contractual and commercial mechanisms for the procurement of works for water and environmental management,
R. E. N. McGill, E. C. Harris & Partners

Paper 2  The liability of engineers in design and construction under common law, with reference to Scots law,
D. S. Jerram, James R. Knowles Consultants, and J. P. Connolly, solicitor

Paper 3  Design and construction quality assurance,
G. S. Clapham, Water Industry Certification Scheme

Paper 4  Investment appraisal in the water industry,
C. H. Green, Flood Hazard Research Centre, Middlesex Polytechnic

Paper 5  The procurement and testing of process plant for the water industry,
P. Lowe, consultant, and G. S. Clapham, consultant water engineer

Paper 6  Prolog-based programs for the design of wastewater treatment systems,
Dr. A. C. Chao, North Carolina State University, USA,
Dr. Cheng-Nan Chang, Tong-Hai University, Taiwan, and Jing-Yuan Wang, North Carolina State University, USA

Paper 7  The construction of the Vasilikos-Pendaskinos project, Cyprus,
R. A. Reader, Partner, Rofe Kennard and Lapworth

Paper 8  Development, construction and operation of the Inanda Dam,
A. J. Tollow, University of Durban-Westville

Paper 9  Bulk storage reservoirs, Muna, Saudi Arabia — goals and challenges,
B. F. Sleiman, Dar Al-Handasah Consultants (Shair & Partners)

Paper 10  Development of a new water supply for Fort William,
J. M. C. Johnstone, Department of Water and Sewerage, Highland Regional Council, and G. M. Rennie, Mott MacDonald Scotland

Paper 11  Design and construction of the New Bintulu water supply.
J. D. Lawson and D. A. W. Bryant, Sir William Halcrow & Partners, and P Wong Hung Huang, Public Works Department, Sarawak

*** Paper 12  Birmingham water supply: redevelopment of Frankley Water Treatment Works,
T. Schofield, Severn Trent Water Ltd, and F. W. Crowley and M. J. Hieatt, Binnie and Partners

Paper 13  The application of vacuum filtration to the production of cement-based solidified wastes,
I. Martin, Cory Environmental, and N. Buenfeld and R. Perry, Imperial College Centre for Toxic Waste Management
| Paper 14 | Bulking sludge – a theory and successful case histories,  
| J. R. Simpson, INKA Systems (UK) Ltd, E. List, E & A West, and  
| J. M. Dunbar, John Dunbar and Associates |
| Paper 15 | Characterisation and treatment of leachates from Hong Kong landfill sites,  
| H. D. Robinson, Aspinwall & Company, and M. M. H. Luo, EPD,  
| Hong Kong Government |
| Paper 16 | Summerston landfill site — containment works — a case study,  
| J. C. Nicoll, Glasgow City Council |
| Paper 17 | The Greengairs landfill site, Airdrie. Design and construction of environmental control measures,  
| M. J. Philpott, Shanks and McEwan Group plc, R. C. Reid, Shanks and McEwan (Contractors) Ltd, and J. N. Davies, S. D. Last and  
| J. M. Boldon, Aspinwall & Company |
| Paper 18 | THIS PAPER HAS BEEN WITHDRAWN |
| Paper 19 | Salvation of Balochistan Kacchi Plain through a water supply project,  
| A. N. Cheema, National Engineering Services Pakistan (Pvt) Ltd |
| Paper 20 | A new type of large-diameter enclosure to study the hypolimnion of stratified reservoirs: detailed design and first application on Lake Varese,  
| Dr. Ing. G. Bressi, Istituto per l’Ambiente, Milan, Italy |
| Paper 21 | The role of environmental assessment in the design and construction of flood defence works,  
| I. R. Whittle, National Rivers Authority, and Jan S. Brooke, Posford Duvivier Environment |
| Paper 22 | Soar Valley improvement scheme,  
| R. S. Tharmananthar, National Rivers Authority, Severn Trent Region |
| Paper 23 | Avalon Lakes – an environmental opportunity,  
| Dr. A. T. Newman, National Rivers Authority, Wessex Region, and P. J. Hawker, Sir William Halcrow & Partners |
| Paper 24 | Basingstoke Sewage Treatment Works — design and construct, a rapid remedy,  
| B. J. E. Lamb, Thames Water Utilities |
| Paper 25 | Developments at the Halifax Sewage Treatment Works affecting the design and operation of its activated sludge plants,  
| G. A. Jones, Yorkshire Water |
| Paper 26 | Blackburn Meadows Sewage Treatment Works — into the 1990’s,  
| D. J. Tolan and D. Bennett, Yorkshire Water Services Ltd, and  
| J. V. Kwiecinski, Yorkshire Water Enterprises Ltd. |
Paper 27 Design of sewage treatment plants in Brisbane, Australia,  
M. L. Lever, Brisbane City Council

Paper 28 Treatment and disposal of the sewage of Athens,  
D. G. Christoulas and A. D. Andreadakis, National Technical University of Athens, Greece

Paper 29 The design, construction and operation of a gravel bed hydroponic reed bed sewage treatment system at Ismailia, Egypt,  
Dr. J. E. Butler, Portsmouth Polytechnic

Paper 30 Flood alleviation works for Ashford, Kent,  
G. M. Gibbs, National Rivers Authority, Southern Region, and  
Miss M. Lindley, consultant, Rofe Kennard and Lapworth

Paper 31 Fenay Beck Flood Alleviation Scheme,  
J. D. Winders, Partners, Dobbie & Partners

Paper 32 Public participation in river corridor management,  
Dr. Margaret House and E. K. Sangster, Flood Hazard Research Centre, Middlesex Polytechnic

Paper 33 The study and design of an open stone asphalt revetment on the Humber estuary,  
L. G. Buck and J. Hutchinson, Sir William Halcrow & Partners, and  
T. G. Walker, National Rivers Authority, Anglian Region

Paper 34 Precast concrete blocks for high velocity flow applications,  
R. Baker, Salford University

Paper 35 Investigation studies for designing the Leningrad flood control barrier,  
Ya. Z. Manevich and S. M. Mishchenko, B. E. Vedeneev All-Union Research Institute of Hydraulic Engineering, USSR

Paper 36 Greenock/Gourock/Port Glasgow drainage scheme,  
J. C. Hunter, Strathclyde Regional Council, and A. Y. Scott, Babtie Shaw and Morton

Paper 37 A replacement outfall for Peterhead,  
R. S. Duncan, Grampian Regional Council, S. T. Wharton, Binnie & Partners, and T. J. S. Botterill, Alfred McAlpine Pipelines and Services Ltd

Paper 38 Design and construction of Bellozanne sludge treatment plant, Jersey,  
T. S. C. Gross and N. H. Read, Sir William Halcrow & Partners

Paper 39 Experiences in sewage treatment at Madras, India,  
S. Sundaramoorthy, R. Kannapan, E. Vedagiri, Madras Metropolitan Water Supply and Sewage Board, India, and J. Upton, Severn Trent International Ltd
Paper 40  The design, construction and performance assessment of a 'Storm King' storm water overflow,
C. Jefferies, Dundee Institute of Technology, and R. A. Dickson, Fife Regional Council

Paper 41  Dundee waterfront drainage provision to a reclaimed waterfront site — the lessons,
A. MacLeod and J. D. Roberts, Ove Arup & Partners Scotland

Paper 42  Strathclyde Water: programme of works to meet Water Supply Regulations,
E. G. W. Chambers, Director of Water, Strathclyde Regional Council

Paper 43  Bradan Treatment Works: extension and upgrading,
D. Little and C. J. McFadzean, Strathclyde Regional Council

Paper 44  Lintrathen Water Treatment Works; a trilogy of papers,
Part 1. The client’s viewpoint, by R. Martin, Tayside Regional Council, and D. Blackwood, Dundee Institute of Technology
Part 2. The consultant’s view, by A. Macleod, Ove Arup and Partners Scotland.
Part 3. The main contractor’s view, by D. W. Coleman, Biwater Treatment Ltd

Paper 45  Innovative wastewater treatment technology for environmentally sensitive sites,
F. Rogalla, Anjou Recherche, France, A. Townshend, Biwater-OTV Ltd, and J. Sibony, OTV, France

Paper 46  The design and construction of a denitrification plant utilising ion exchange technology to meet the requirements of the EC Drinking Water Directive,
Dr. N. G. Henwood, Birwelco Ltd., Dr. I. J. Fletcher, South Staffordshire Waterworks Company, and A. J. Woodward, Hydrotechnica Ltd

Summaries of Poster Papers

*** Papers marked *** were not received in time to be included in the volume of papers. It is hoped that copies will be available at the Conference.
