Contents

Preface V

Acknowledgement VI

Report of the meetings of the Permanent Council held during the Tenth International Congress of Phonetic Sciences in Utrecht, 1-6 August 1983 XVII

PLENARY SESSIONS 1

Opening address
ELI FISCHER-JORGENSEN: Some Aspects of the 'Phonetic Sciences', Past and Present 3

Keynote address
GUNNAR FANT: Phonetics and Speech Technology 13

Invited Lectures 25

1. Speech and Hearing 27

REINIER PLOMP: Perception of Speech as a Modulated Signal 29
MANFRED R. SCHROEDER: Speech and Hearing: Some Important Interactions 41

2. Relation between Speech Production and Speech Perception 53

L.A. CHISTOVICH: Relation between Speech Production and Speech Perception 55
HIROYA FUJISAKI: Relation between Speech Production and Speech Perception 59
3. Can the Models of Evolutionary Biology be Applied to Phonetic Problems?

BJÖRN LINDBLOM: Can the Models of Evolutionary Biology be Applied to Phonetic Problems? 67
PETER LADEFOGED: 'Out of Chaos Comes Order'; Physical, biological, and structural patterns in phonetics 83

4. Psycholinguistic Contributions to Phonetics

W.D. MARSLEN-WILSON: Perceiving Speech and Perceiving Words 99
WILLEM J.M. LEVELT: Spontaneous Self-Repairs in Speech: Processes and Representations 105

5. Speech Technology in the Next Decades

J.L. FLANAGAN: Speech Technology in the Coming Decades 121
J.N. HOLMES: Speech Technology in the Next Decades 125

SEMI-PLENARY SESSIONS: SYMPOSIA

Symposium 1: Semantics, Syntax and Prosody
Chairman: ILSE LEHISTE
Panel members: E. Gårding, P. Martin, A. Cutler, V. Fromkin 143

Symposium 2: Units in Speech Synthesis
Chairman: J. ALLEN
Panel members: O. Fujimura, J. Holmes, R. Carlson, B. Granström, J. Pierrehumbert 151

Symposium 3: Models of the Larynx
Chairman: C. SCULLY
Panel members: G. Fant, I.R. Titze, M. Hirano, F. MacCurtain 157

Symposium 4: Auditory Analysis and Speech Perception
Chairman: A. FOURCIN
Panel members: A. Risberg, J.M. Pickett and S.G. Revoile, R.J. Ritsma and J.W. Horst, J.L. Goldstein 171

Symposium 5: Phonetic Explanations in Phonology
Chairman: J.J. OHALA
Panel members: E. Fischer-Jørgensen, K. Kohler, L. Goldstein 175
Symposium 6: Human and Automatic Speech Recognition
Chairman: D.H. KLATT
Panel members: V.W. Zue, S.M. Marcus, M. Liberman, R. de Mori

SECTION PAPERS

Section 1: Acoustic Manifestations of Speech

A.K. IVONEN: Die Hochdeutschen und Schweizerhochdeutschen Betonten Monophthonge
K.J. KOHLER: Temporal Control at the Utterance Level in German
M. PETTORINO and A. GIANNINI: F<sub>1</sub>, Locus and Place of Articulation
D. ROSTOLLAND and C. PARANT: The Influence of Voice Sound Level on the Duration of French Long Vowels
KLAUS C. SCHWEISTHAL, STEPHAN FORSTNER and KURT KOTTEN: Bavarian -a- Vowels: Experimental Investigations on the Comparability of the First Two Formants and of Phonetic Transcriptions
L. VALACZKAI: Über akustische Faktoren der Distinktiven Perzeption im Deutschen

Section 2: Speech Synthesis

P. BADIN and G. MURILLO: An Analysis Method for High Quality Formant Synthesis
K. BOLLA: Voxton, Russon: Systems Generating Impersonal Hungarian and Russian Speech by Rule
R. BROWN: Relative Importance of Parameters in Voice Similarity Judgment
E. FÖLDI: The Analysis of Polish Intonation by Synthesis
J.A. GURLEKIAN and H.E. FRANCO: Recognition of a Spanish VV Sequence
G. OLASZY: A Phonetically Based Data and Rule System for the Real-Time Text to Speech Synthesis of Hungarian
H.W. ZELLE, J.R. DE PIJPER and J. 't HART: Semi-automatic Synthesis of Intonation for Dutch and British English

Section 3: Acoustic Analysis and Coding of Speech

M. ESKENAZI and J.S. LIÉNARD: On the Acoustic Characterisation of the Oral and Nasal Vowels of French
W.J. HESS: Effective Implementation of Short-Term Analysis Pitch Determination Algorithms
### Contents

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>

Contents

Section 6: Physiological Manifestations of Speech Sounds

S.H. AL-ANI and M.S. El-DALEE: Tafkhim in Arabic: the Acoustic and Psychological Parameters 385
P.J. ALFONSO, K. HONDA and T. BAER: Coordinated Tongue Muscle Activity During /apVp/ Utterances 390
H. HIROSE, H.S. PARK and M. SAWASHIMA: An Electromyographic Study of Laryngeal Adjustments for the Korean Stops in Syllable-Initial and Final Positions 395
P. HOOLE, B. POMPINO-MARSCHALL and M. DAMES: Glottal Timing in German Voiceless Occlusives 399
L.H. SLIS: Assimilation of Voice in Dutch 404
I. SOLOMON and S.J. SARA: English Diphthongs, [ai, oi, au] 411

Section 7: Psychoacoustics of Speech

H. HOLLIEN: Differentiating Between Speaking and Singing Vocal Registers 417
H. HOLLIEN, J.W. HICKS, Jr. and P. HOLLIEN: Motor Speech Characteristics in Diving 423
P. HOWELL: An Acoustic Determinant of Perceived and Produced Anisochrony 429
M.T.M. SCHEFFERS: Pitch and the Perceptual Separation of Simultaneous Vowel Sounds 434
K. SLETHEI: Perception of Speech in a Hyperbaric Helium-Oxygen Atmosphere 439
H.G. TILLMANN, L. SCHIEFER and B. POMPINO-MARSCHALL: Categorial Perception of Speaker Identity 443

Section 8: Perception of Phonemes

L.C.W. POLS and I. STOOP: Confusions between Dutch Consonants under Various Conditions of Noise and Reverberation 455
L. SCHIEFER and K. KOTTEN: Amplitude Envelope and the Perception of Breathy Stops in Hindi 459
Contents

Section 9: Word Perception

M. MARTIN: Listening for Phonemes while Reading 477
S.G. NOOTEBOOM and G.J.N. DOODEMAN: Speech Quality and the Gating Paradigm 481
I.B. OTTEVANGER: The Detection of Mispronunciations and the Influence of Context 486
V.J. VAN HEUVEN and M.Ch. DUPUIS: Effects of Anticipatory Coarticulation on Vowel Detection in Meaningful Words 491

Section 10: Stress and Accent

E.A. DEN OS: Extrametricality and Italian Stress 499
M.C. LIN, J.Zh. YAN and G.H. SUN: The Stress Pattern and Its Acoustic Correlates in Beijing Mandarin 504
ANNA A. METLYUK: On the Distinctive Features of Byelorussian Utterance Accents 515
C.W. TEMU: Stress in Standard Swahili 518
S. PAUL VERLUYTEN: Phonetic Reality of Linguistic Structures: the Case of (Secondary) Stress in French 522

Section 11: Temporal Organisation of Speech

W.J. BARRY: On the Perception of Juncture in English 529
B. POMPINO-MARSCHALL, H.G. PIROTH, P. HOOLE and H.G. TILLMANN: 'Koartikulation' and 'Steuerung' as Factors Influencing the Perception of 'Momentary Tempo' 537
M. VAYRA, C. AVESANI and C.A. FOWLER: Patterns of Temporal Compression in Spoken Italian 541

Section 12: Communicative Functions of Prosody

J.G. KRUYT and S.G. NOOTEBOOM: Acceptability of Accenting and De-accenting 'NEW' and 'GIVEN' in Dutch 549
Z. PALKOVÁ: Syntactic Dispositions as a Factor in Discourse Segmentation 554
J.M.B. TERKEN: The Effect of Accentuation on Comprehension: An Experiment 558

Section 13: Pitch and Intonation

M. CRUZ-FERREIRA: Perception and Interpretation of Non-Native Intonation Patterns 565
J. 'T HART and J.R. DE PIJPER: Experiments on the Stylization of British English Intonation 570
Section 18: History and Phonetics

M.H. BAKALLA: The Study of Vowel Quality by Early Arab and Muslim Phoneticians 663

J. JULIÁ: The Birth of Experimental Phonetics in Spain, Pere Barnils and his Barcelona Laboratories (1913-1933) 667

Section 19: Phonetics and Foreign Language Teaching

B.A.G. ELSENDOORN: Production and Perception of English Vowel duration by Dutch Speakers of English 673

J.E. FLEGE: Detection of Foreign Accentedness 677

J. FOKES, Z.S. BOND and M. STEINBERG: Patterns of English Word Stress by Native and Non-native Speakers 682

H. GRASSEGGGER: Korrektiver Ausspracheunterricht auf auditiver Basis 687

A.R. JAMES: Phonic Transfer: The Structural Bases on Interlingual Assessments 691

E. JASOVÁ: Die Syllabisch-Akzentologischen Modelle der russischen Substantive 696

F. MITLEB: Timing of English Vowels spoken with an Arabic Accent 700

N.J. WILLEMS: English Intonation from a Dutch Point of View 706

Section 20: Speech Pathology and Aids for the Handicapped

C. BALTAXE, J.Q. SIMMONS and E. ZEE: Intonation Patterns in Normal, Autistic and Aphasic Children 713

L. HANDZEL: Phono-articulatory Stereotypes in Deaf Children 719

E. HARTMANN and D. VON CRAMON: Acoustic Measurement of Voice Quality in Dysphonia after Traumatic Midbrain Damage 727

A. JAROSZ: A Contribution to the Phonological Pathology of Speech Structure in Children with Impaired Hearing 730

K.E. SPENS and G. PLANT: A Tactual 'Hearing' Aid for the Deaf 733

B. WEISS: Verbal Apraxia in Cases of So-called Broca's Aphasia in the Light of Electromyographic Studies in Vowel Articulation 738

B. WEISS, A. JAROSZ and L. HANDZEL: Bioelectric Activity of the Articulation Muscles in Deaf Children 742

Section 21: Hearing Pathology and Speech

C. GÉLINAS-CHEBAT: Hearing Impairment and the Perception of Speech Sounds 749

P. JANOTA: Auditory Evaluation of the Speech of Deaf Children 760
Contents

H.G. PIROTH and H.G. TILLMANN: On the Possibility of Tactile Categorial Perception 764
B. POMPINO-MARSCHALL and H.G. TILLMANN: Dyslexia and Developmental Dysphasia; a Deficit in Processing Rapid Spectral Changes? 769
J.R. SOLOMON: Perception of English Contrastive Stress by Brain-damaged Adults 773
M. VINGERLING: Speech Rate and its Differential Influence on the Perception of Normally Hearing and Hearing-impaired Subjects 778

Section 22: Speech Errors 783

C. FONDA: An Analysis of Pronunciation Mistakes and Second Language Strategy in the Case of Italian and Mandarin Speaking Learners of English 785

List of Participants 789

Index of Contributors 817
