MODERN PRODUCTION MANAGEMENT SYSTEMS

Proceedings of the IFIP TC 5/WG 5.7 Working Conference on Advances in Production Management Systems - APMS '87
Winnipeg, Manitoba, Canada, 11-14 August, 1987

edited by

Andrew KUSIAK
The University of Manitoba
Department of Mechanical and Industrial Engineering
Winnipeg, Manitoba

CONTENTS

Foreword v
List of Committees vii

SCHEDULING FLEXIBLE MANUFACTURING SYSTEMS

A Scheduling Method for a Class of Flexible Manufacturing Systems
C. Sriskandarajah, P. Ladet and S.P. Sethi 3

Dynamic Network Modeling of an FMS
K.R. Kumar and D.E. Kroll 19

Scheduling for Flexible Manufacturing Systems
C.H. Dagli 31

SCHEDULING APPLICATIONS

Improvements in Automated Insertion/Placement Lines
T. Hoshi and A. Ikegami 47

Scheduling of Locomotive Overhauls under Shop Capacity Constraints
A.A. Pathak and R. Brogan 63

On the Scheduling of Order-Picking Operations in Single-Aisle
Automated Storage and Retrieval Systems
G. Cormier 75

SCHEDULING AND LOADING

A New Heuristic Algorithm for the Flowshop Problem
S.Z. Selim and U.M. Al-Turki 91
Heuristic Control Strategies in Flexible Flow Lines  
M.L. Nitti and M.G. Speranza 97

Optimisation of Simultaneous Loading and Lot Size Scheduling in a  
Functional Manufacturing Cell  
E. Toczylowski 107

A Production Scheduling Method for Group Technology Cell  
G.-X. Yang and L. Qiao 121

A Fuzzy Production System with Backtracking Control Strategy for  
Multiobjective Scheduling to a One-Machine-N-Parts Problem  
D. Chen, Y. Pan and J. Xue 135

Multi-Objective Job Shop Scheduling with Finite Capacity  
X.-B. Wu 147

SIMULATION

A Tool for Production Management: Computer Aided Simulation  
R. Germain and B. Descotes-Genon 161

Discrete Event Simulation by Timed Coloured Petri Nets  
F. Martin and H. Alla 173

A Spread Sheet Simulator for Production Planning and Layout Evaluation  
C. Walter 189

PRODUCTION PLANNING AND CONTROL

Some Recent Advances in Capacity Planning for Discrete Manufacturing  
Systems  
G.R. Bitran, W.P. Peterson and D. Tirupati 201

Structuring Production Planning Systems for Computer Applications  
A. Rolstadås 215

A Mathematical Formulation of a Hierarchical Approach for Production  
Planning in FMS  
L.F. Escudero 231

Production Planning and Control in Multi-Stage Multi-Product Systems  
A. Villa, G. Fiorio and J.E. Ares Gomez 247
Contents

Integrated Production and Sales Planning in a Paper Mill Using Linear Programming
  K.R. Gunasingh and M.T. Tabucanon 257

The Performance of Lot Sizing Heuristics in the Case of Sparse Demand Patterns
  G.F. Knolmayer 265

INVENTORY MANAGEMENT

A Dynamic Programming Solution for the Multiperiod Inventory Problem with Probabilistic Demand and Probabilistic Lead Time under Service Level and Budgetary Restrictions
  K. Srinivasan and W.S. Duff 283

Inventory Models in Certain Cases of Varying Demand with Shortages
  K.S. Al-Sultan and A. Raouf 295

A Combined Approach for the Study of Industrial Dynamic Systems
  J. Edghill, D. Towill and M. Jones 305

Developing an Optimal Ordering Policy for a Multi-Item Inventory System with Back Orders
  A. Raouf and R. Zaman 321

A Study of Decaying – Inventory Policies in a Two Stage Production-Inventory System
  A. Gunasekaran 333

Production and Inventory Management Techniques – A Systems Perspective
  J. Shivnan, R. Joyce and J. Browne 347

INFORMATION MANAGEMENT SYSTEMS

Advances in Production Management Systems
  C.B. Tilanus 365

Information Management System: Role and Structure in Computer Integrated Manufacturing
  A. Villa, S. Rossetto and G. Menga 377

Object/Operation Flow for Production Management in CIM Systems
  N. Okino, H. Kurokawa and M. Furukawa 387
Integrated Approach to the Design of an Information System for a Metallurgical Enterprise
   J. Filipiak 401

The Implementation of a Production Management System
   D. Yang, G. Deng, X. Teng and X. Zhao 417

MODELLING MANUFACTURING SYSTEMS

Information Analysis and Modelling of Production Systems
   A. Di Leva and F. Vernadat 427

Modelling Production Systems — A General Systems Approach
   N.K. Powell 441

Building Dynamic Models of FMS
   A. Ficola and S. Nicosia 449

A Geometric Programming Approach to Optimal Replacement Problems
   T.C.E. Cheng 463

MANUFACTURING CONTROL

Organizational-Technological Control of Flexible Automated Pilot Machinery Production
   E.O. Adamov and S.M. Dukarskii 471

Automatic Elaboration of Spinning Processing
   F. Benielli, Z. Ouala and J. Triouleyre 479

AGVs as the Linking Element of FMS
   M. Daum 491

The Evaluation of Bowl Versus Inverted Bowl Assembly Line Arrangements with Variable Operation Times
   B. Das 507

Optimization of the Lognomial Machining Economics Problem
   C.L. Hough 517

Study of a Closed-Loop Conveyor System
   J.-M. Proth and J. Xue 533
## Contents

### GROUP TECHNOLOGY AND PROCESS PLANNING

The Design of Integrated Production Systems  
J.L. Burbidge  
549

Group Technology Decision Aids in an Expert System for Plant Layout  
Z. Leskowsky, L. Logan and A. Vannelli  
561

Research in Application of Artificial Intelligence Techniques to Generative Process Planning in Manufacturing  
S. Adiga and R.-K. Li  
587

A Prototype System for Generative Process Planning of Prismatic Parts  
M. Mantyla, J. Opas and J. Puhakka  
599

A. Ajmal  
613

Part Family Formation in Flexible Manufacturing Systems – An Integer Programming Approach  
R.S. Lashkari, S.P. Dutta and G. Nadoli  
627

### ARTIFICIAL INTELLIGENT SYSTEMS

An Expert System for Manufacturing Simulation  
J.E. Lenz  
639

Information Data-Base Structures for Flexible-Manufacturing Simulators  
G.M. Acaccia, R.C. Michelini, R.M. Molfino and P.A. Piaggio  
649

Using Predicate Logic in Production Planning  
I.-Y. Lu, S.-P. Wu and C.-L. Shen  
663

### PRODUCTIVITY AND HUMAN FACTORS

Designing of Work Distribution, Work Content and Work Organization as Related to the Implementation of New and Future Technology  
H.-J. Bullinger  
677

Human Resource Management for Productivity Optimization through a Computerized Decision Model  
A. Mital and W. Karwowski  
689
Contents

A Two-Factor Monetary Incentive Plan for Machine-Paced Operations
B. Das, A. Garcia-Diaz and C.L. Hough 699

T.N. Issa and Z.J. Czajkiewicz 711

MRP, JIT, OPT: A Study
G. Plenert 729

Lot Sizing for Material Requirements Planning Systems — A Modified Incremental Cost Approach
N. Singh and M.M. Naidu 735

Author Index 745
