# Biological effects of man-made mineral fibres

Report on a WHO/IARC meeting

Copenhagen, 20–22 April 1982

# CONTENTS

	<i>Page</i>
Introduction .....	1
<b>Man-made mineral fibres (MMMF)</b> .....	<b>4</b>
Definitions of MMMF .....	4
Types of MMMF .....	4
Composition of MMMF .....	5
Technology, production and fibre characteristics .....	6
Growth of production .....	10
<b>Airborne MMMF in the workplace</b> .....	<b>12</b>
Environmental surveys .....	12
Technology of environmental sampling .....	19
Peer review of environmental surveys and sampling technology .....	20
<b>Biological effects of MMMF</b> .....	<b>23</b>
Mortality patterns .....	23
Peer review of mortality patterns .....	27
Respiratory morbidity of current workers .....	29
Peer review of respiratory morbidity .....	31
Animal studies .....	32
Cell and tissue culture studies .....	36
Peer reviews of animal studies .....	36
<b>Assessment and prospects</b> .....	<b>40</b>
The aerial environment .....	41
Mortality studies .....	41
Morbidity studies .....	42
Animal studies .....	43
<b>Recommendations</b> .....	<b>44</b>
Environmental surveys and sampling technology .....	44
Mortality patterns .....	45
Respiratory morbidity .....	46
Morbid anatomy .....	46
Studies in animals and <i>in vitro</i> .....	47
An international reference collection of MMMF (IRC/MMMF) .....	47
Research coordination .....	47

Closing session .....	48
References .....	49
Annex 1 Coordinated research into the biological effects of MMMF — <i>J.D. Cameron</i> .....	53
Annex 2 Technical history of MMMF — <i>W.J.A. Hartung</i> .....	55
Annex 3 Characteristics of dust clouds from old MMMF products Part I: theoretical approach — <i>T. Schneider &amp; J. Skotte</i> .....	57
Annex 4 Characteristics of dust clouds from old MMMF products Part II: experimental approach — <i>T. Schneider &amp; E.D. Smith</i> .....	59
Annex 5 Production trends in fibre sizes of MMMF insulation — <i>J.L. Konzen</i> .....	61
Annex 6 Short-term survey of airborne fibres in American manufacturing plants — <i>N.A. Esmen</i> .....	62
Annex 7 Short-term surveys of airborne fibres in European manufacturing plants — <i>J. Ottery, J. Dodgson, G.E. Harrison &amp; J.W. Cherrie</i> .....	64
Annex 8 Long-term survey of airborne fibres in the United States — <i>Y.Y. Hammad &amp; N.A. Esmen</i> .....	66
Annex 9 Measurements of fibres in industries producing and using MMMF — <i>G. Riediger</i> .....	67
Annex 10 Review of surveys in user industries — <i>T. Schneider</i> .....	68
Annex 11 Occupational exposure of workers to airborne MMMF in Poland — <i>J. Indulski, J. Gościcki, E. Wiecek &amp; G. Stroszejn-Mrowca</i> .....	70
Annex 12 Problems of fibre counting and its automation — <i>G.J. Burdett, L.C. Kenny, T.L. Ogden, A.P. Rood, T. Shenton-Taylor, R. Tarry &amp; N.P. Vaughan</i> .....	72
Annex 13 WHO monitoring and counting reference scheme — <i>M.I. Mikheev</i> .....	74

Annex 14	The environment in ceramic fibre production — <i>N.A. Esmen &amp; Y.Y. Hammad</i> .....	75
Annex 15	Problems in measuring the mass concentration of airborne MMMF — <i>J. Dodgson, G.E. Harrison, J. Ottery, P. Oldershaw &amp; J. McCutheon</i> .....	77
Annex 16	Strategies of air sampling — <i>M. Corn</i> .....	79
Annex 17	The IARC mortality and cancer incidence study of MMMF production workers — <i>R. Saracci, L. Simonato, E.D. Acheson, A. Andersen, P.A. Bertazzi, J. Claude, N. Charnay, J. Estève, R.R. Frenzel-Beyme, M.J. Gardner, O. Jensen, R. Maasing, J. Olsen, L. Teppo, P. Westerholm &amp; C. Zocchetti</i> .....	80
Annex 18	Mortality of workers in the MMMF industry — <i>P.E. Enterline &amp; G.M. Marsh</i> .....	84
Annex 19	Mortality among fibrous glass production workers — <i>R.W. Morgan, S.D. Kaplan &amp; J.A. Bratsberg</i> .....	86
Annex 20	Mortality experience of glass fibre workers — <i>H. Shannon, M. Hayes, J. Julian &amp; D. Muir</i> .....	88
Annex 21	Respiratory cancer in Swedish construction workers exposed to MMMF — <i>A. Englund, G. Engholm, N. Hallin &amp; G.v. Schmalensee</i> .....	90
Annex 22	Respiratory morbidity of MMMF production workers: a review of previous studies — <i>G.W. Wright</i> .....	91
Annex 23	Respiratory health of MMMF workers in the United States — <i>H. Weill, J.M. Hughes, Y.Y. Hammad, H.W. Glindmeyer, G. Sharon &amp; R.N. Jones</i> .....	93
Annex 24	A pilot respiratory morbidity study of MMMF workers in the United Kingdom — <i>J.W. Hill, C.E. Rossiter &amp; D.W. Foden</i> .....	95
Annex 25	Lung function in workers in a Swedish rock wool plant — <i>P. Malmberg, H. Hedenström, B. Kolmodin-Hedman &amp; S. Krantz</i> .....	97

Annex 26	Occupational exposure and ventilatory function changes in rock wool workers — <i>Z. Skurić &amp; D. Stahuljak-Beritić</i> .....	98
Annex 27	MMMF in the respiratory tract of the rat — <i>A. Morgan &amp; A. Holmes</i> .....	100
Annex 28	The elimination of MMMF dust from the lungs of rats — <i>K.D. Friedberg &amp; S. Ullmer</i> .....	102
Annex 29	The behaviour of mineral fibres in physiological solutions — <i>H. Förster</i> .....	103
Annex 30	The reactions of MMMF in a physiological model fluid and in water — <i>R. Klingholz &amp; B. Steinkopf</i> .....	105
Annex 31	The solubility of fibres <i>in vitro</i> and <i>in vivo</i> — <i>J.P. Leineweber</i> .....	107
Annex 32	The size distribution of MMMF after long-term inhalation — <i>N.F. Johnson, D.M. Griffiths &amp; R.J. Hill</i> .....	109
Annex 33	Deposition and elimination of MMMF — <i>Y.Y. Hammad</i> .....	111
Annex 34	Distribution of inhaled MMMF in the rat lung — <i>L. Le Bouffant, J.P. Henin, J.C. Martin, C. Normand, G. Tichoux &amp; F. Trolard</i> .....	112
Annex 35	The pathogenicity of MMMF in contrast to natural fibres — <i>D.M. Bernstein, R.T. Drew, G. Schidlovsky &amp; M. Kuschner</i> .....	114
Annex 36	Historical review of fibrogenicity and carcinogenicity in experimental animals — <i>P. Kotin</i> .....	116
Annex 37	Effects of inhalation and intrapleural inoculation of rats — <i>J.C. Wagner</i> .....	117
Annex 38	Two inhalation studies: a comparison — <i>E.E. McConnell, J.C. Wagner, J.W. Skidmore &amp; J.A. Moore</i> .....	118

Annex 39	Long-term exposure of hamsters and rats to very fine glass fibre aerosols — <i>D.M. Smith, L.W. Ortiz &amp; R. Archuleta</i> .....	121
Annex 40	Implantation experiments with mineral fibres — <i>F. Pott, H.W. Schlipkötter, U. Ziem, K. Spurny &amp; F. Huth</i> .....	123
Annex 41	The pathogenic effects of fibrous ceramic aluminium silicate glass on rats — <i>J.M.G. Davis, J. Addison, R.E. Bolton, K. Donaldson, A.D. Jones &amp; A. Wright</i> .....	124
Annex 42	Biological studies on other MMMF — <i>K.P. Lee &amp; C.F. Reinhardt</i> .....	125
Annex 43	Studies of MMMF <i>in vitro</i> — <i>E.G. Beck</i> .....	126
Annex 44	The inhalation of glass fibre by non-human primates — <i>B. Goldstein, I. Webster &amp; R.E.G. Rendall</i> .....	128
Annex 45	The MRC and NIEHS studies: a further analysis — <i>C.E. Rossiter</i> .....	129
Annex 46	Study Group One — Reference techniques for monitoring MMMF fibrous and particulate dusts in the work environment .....	131
Annex 47	Study Group Two — Technical aspects of methods for producing aerosols of fibres for experimental animal studies .....	135
Annex 48	Resolution GC/20/R9 of the twentieth session of the IARC Governing Council .....	138
Annex 49	List of participants .....	139
