BRITISH CERAMIC PROCEEDINGS
No. 47 JUNE 1991

Published by The Institute of Ceramics
Shelton House, Stoke Road, Shelton, Stoke-on-Trent, Staffs.,
ST4 2DR, U.K.

Contents

	Page
1. Ceramic Aluminas <i>J. C. Southern</i>	1
2. Alumina Powders from Aqueous Precipitation, Particle Extraction and Calcination <i>A. W. L. Dudeney, M. A. Ghani, G. H. Kelsall and L. Zhang</i>	13
3. Heterogenous Chemical Reactions as Methods for Obtaining Al ₂ O ₃ Ceramic Powders (Abstract only) <i>Lj. Vulicevic, V. Petrovic and D. Nikolic</i>	25
4. The Preparation and Sintering of Centrifugally Classified Bayer Alumina Powders — Part 1: Powder Classification <i>N. I. Steward, B. C. H Steele and E. P. Butler</i>	27
5. An Overview of the Production of Zirconium Oxides for Advanced Ceramic Applications <i>R. Heathcote</i>	37
6. Production of Fine and Sinterable Zirconia-Yttria Powders by Emulsion-Precipitation <i>J. V. Sang</i>	45
7. Sol-Gel Derived Thermal Spray Powders: Flow Properties and Characterization of Sprayed Coatings (Abstract only) <i>D. Mess, K. S. Cole, G. A. Bancke and H. Herman</i>	53
8. Production of Zirconia (12 mol% CeO ₂) Powder by Supercritical Drying and its Properties <i>G. H. Einarsdóttir, E. L. Sveinsdóttir, F. Thorsteinsson and G. Gunnarsson</i>	55
9. Synthesis, Characterisation and Evaluation of Sol-Gel Supported Metal Catalysts <i>J. Di Sanza, A. Dyer, N. Jorgensen and D. Segal</i>	61
10. Preparation of Multi-Component Ceramic Powders <i>J. L. Woolfrey, J. R. Bartlett and W. J. Buykx</i>	69
11. Non-Oxide Ceramic Powder <i>U. Nadkarni</i>	81
12. Vapour Phase Synthesis of Nitride Ceramic Powders using a D.C. Plasma <i>S. R. Blackburn, T. A. Egerton and A. G. Jones</i>	87
13. Carbothermal Processing of Powders for Sialon Ceramic Matrix Composites <i>A. Thompson and A. Hendry</i>	95

14. Production of Ceramic Powders for the Electronic Industry (Abstract only)	107
<i>P. Poirrier</i>	
15. Silicon and Calcium Doped Manganese-Zinc Ferrite Prepared by the Citrate Gel Route	109
<i>V. A. Roberts, R. Freer and F. R. Sale</i>	
16. Preparation and Sintering of Fine Magnesia-Based Ferrite Powders Containing Alumino-Silicate Additions (Abstract only)	117
<i>K. J. Sievwright and F. R. Sale</i>	
17. Preparation of Bulk and Thick Film High Temperature Superconductors via Mist Pyrolysis	119
<i>K. Ley, I. Kontoulis and B. C. H. Steele</i>	
18. Characterisation of Ceramics and Powders using Small-Angle Scattering	129
<i>A. N. North</i>
