FOURTH
INTERNATIONAL
PALYNOLOGICAL CONFERENCE

Proceedings

VOLUME II

BIRBAL SAHNI INSTITUTE OF PALAEOBOTANY
LUCKNOW, INDIA
Northern hemisphere plant microfossil taxa in the Upper Triassic of western Australia

B. E. Holme

288

Upper Triassic palynofloras of the western United States

Allen S. Gottesfeld

295

Morphographic variations— in situ spores and pollen from Triassic of India

Shyam C. Srivastava

309

DIVISION III/SYMPOSIUM 4

The stratigraphic distribution of dinoflagellate cysts at the boreal Jurassic-Cretaceous boundary

M. J. Fisher & L. A. Riley

313

Palynostratigraphy near the 'Jurassic-Cretaceous Boundary' in the Carnarvon Basin, western Australia

Julie F. Wiseman

330

The Jurassic-Cretaceous boundary in fluvial marine deposits

George R. Fournier

350

Some remarks on selected palynomorphs near the Jurassic-Cretaceous boundary in The Netherlands

G. F. W. Hermgreen, P. M. J. Van Hoeken-Klinkenberg & K. F. de Boer

357

Microphytoplankton from the early Cretaceous epicontinental seas of the European part of the USSR

V. A. Thedorova

368

Palynology at the Jurassic-Cretaceous boundary in North America

Stanley A. J. Pocock

377

Palynological evidence for the age of some Upper Gondwana deposits in Adilabad District of Andhra Pradesh

C. G. K. Ramanujam & P. V. Rajeshwara Rao

386

DIVISION III/SYMPOSIUM 5

Biographical sketch of Dr Lucy M. Cranwell

Satish K. Srivastava

392

Introduction to the symposium—Palynology of transition from Aptian to Albian

Satish K. Srivastava

394

Aptian-Albian spore and pollen assemblages from the Cauvery Basin, India

B. S. Venkatachala, M. S. Rawat, K. D. Sharma & A. K. Jain

396

Aptian and Albian palynomorphs from southern England

D. J. Batten

403
The P. turneri dinoflagellate assemblage and the Aptian-Albian boundary in Australia

Roger Morgan

The Aptian-Albian boundary in Canada

Stanley A. J. Pocock

Palynology of the Lower Cretaceous in Argentina

Sergio Archangelsky

DIVISION III/SYMPOSIUM 6

Palynostratigraphy and palaeoecology of the Navarro Group (Maestrichtian) of Texas, U. S. A.

Arun Kumar

The utility of fungal spores in marginal marine strata of the late Cenozoic, northern Gulf of Mexico

William C. Elskik

Palynological data of the Neogene marginal facies in Hungary

Esther Nagy

The present day state of marinopalynological studies

E. V. Koreneva

Palynological researches of modern sediments of southern seas of the USSR and their relationship with the vegetation of shores

V. A. Vronsly

Palynology of the Palaeogene marginal sediments of Himachal Pradesh, India

H. P. Singh & A. K. Khanna

Palynologic study of late Cainozoic and modern deposits in the eastern part of the Black Sea area

I. I. Shatilova

Correlation of sea and continental deposits of Colkhida on the basis of palynological data

N. C. Mamatsashvili

Palynology of the bottom sediments of the White Sea and the reflection of vegetation of littoral regions in palynocomplexes

E. S. Maljasowa

Palynological correlation of Early Cretaceous fresh-water to marine strata

Norman F. Hughes

Influence of oceanic and epicontinental water barriers on formation of the floristic kingdoms and their areas

E. D. Zaklinskaya
DIVISION III/SYMPOSIUM 7.1

Laboratory experiments on spore and pollen wall maturation .......................... 506
Shukla Sengupta

Chemical studies on the thermal products from sporopollenin and their probable geochemical significance .......................... 513
J. Brooks

Diagenesis: A critical survey of current palynological and geochemical studies .................. 529
J. Brooks

Experimental diagenesis of spores, pollen and phytoclasts—the role of metal ions in the diagenesis and analysis of palynomorphs .......................... 545
J. Brooks, M. J. Fisher & S. Sengupta

Maturation studies of some Indian coals and lignites and their bearing on oil and gas prospecting .................. 551
G. K. B. Navale & B. K. Misra

Fluorescence, infra-red spectra, contraction and thermoanalysis of sporopollenin .................. 565
P. Pierart

Pollen and pollinial wall preparations for cytochemical and infra-red spectroscopic studies: Nature of acetolysis induced changes .................. 569
A. N. Namboodiri & P. Sreedevi

Kerogen distribution and depositional environments in the Middle Jurassic of Yorkshire, U. K. .................. 574
M. J. Fisher

Organic maturation and hydrocarbon generation in the Mesozoic sediments of the Sverdrup Basin, Arctic Canada .................. 581
M. J. Fisher, P. C. Barnard & B. S. Cooper

Use of transmitted light microscopy of sedimentary organic matter for evaluation of hydrocarbon source potential .................. 589
D. J. Batten

On the problem of oxidation of pollen and preservation of reference pollen slides in tropical climate .................. 595
Sunirmal Chanda & Pabitrananda Ganguly

Exinite chemodiagenesis and spore wall compressional failure .................. 597
K. J. Nildas

Evaluation of genetic coal types by palynological methods .................. 610
G. K. B. Navale

DIVISION III/NON-SYMPOSIUM PAPERS

Palynostratigraphy of sedimentary formations in Arunachal Pradesh—1.
Palynology of Siwalik rocks of the Lesser Himalayas, Kameng District .................. 617
S. K. Dutta & H. P. Singh
