TRENDS IN FOOD SCIENCE AND TECHNOLOGY

Editors

M. R. Raghavendra Rao
N. Chandrasekhara
K. A. Ranganath

1989

Association of Food Scientists and Technologists (India)
Central Food Technological Research Institute
Mysore – 570 013
CONTENTS

1. FOOD TECHNOLOGY – EMERGING TRENDS

Food Technology – Emerging Trends: Membrane Process
Thomas Philip 3

Membrane Processes and their Commercial Applications
Munir Cheryan 16

Membrane Process – A Revolutionary Trend in Food Industry
K. P. Govindan 26

Electroacoustic Dewatering (EAD) Process – A Novel Approach
for Food Processing and Recovery
H. S. Muralidhara, S. P. Chauhan, N. Senapati, R. Beard, B. Jinjis
and B. C. Kim 34

Deacidification of Fruit Juices by Electrodialysis
A. M. Nanjundaswamy and K. C. Chikkappaji 43

Role of Extrusion Cooking in Food Processing
M. R. Chandrasekhara 49

Role of Extrusion Process
Rangaswamy Chinhaswamy 57

Technological Aspects of Supercritical Fluid Extraction
K. K. Tiwari 59

Supercritical Fluid Extraction System for Food Spices Extractives
K. Udaya Sankar and P. N. Srinivasa Rao 71

Water Activity and its Control in Food Processing; Present Status
and Future Prospects
K. S. Jayaraman 82

Water Activity Measurement and its Control in Food Processing
N. Balasubrahmanyam and K. R. Kumar 91

Thermal Processing – From Appertization to Aseptic Packaging
S. Ranganna 97
The Use of Microwave Heating in Meat and Fish Processing
D. W. Everington

Radiation Preservation of Foods – Potentialities and Prospects
G. B. Nadkarni

Plant Cell Cultures for Food Applications
L. V. Venkataraman and G. A. Ravishankar

Biotechnology in the Agro-Biomass Utilization
P. A. Biacs, I. Versanyi and M. Harkay

Fermentation Advances and the Food Industry
N. G. Karanth

Microbial Polysaccharides in Food Applications
G. P. Kalle

Recent Developments in the Meat Industry
J. Wismer Pedersen

Futuristic Scenario for the Indian Fish Processing Industry
N. V. Sripathy

Computerization for Food Industry
Kirk C. Aune

Computerisation in Food Industry
P. Veerraju

Application of Computers in Flour and Feed Milling Industry
M. P. Shyam and J. K. Prabhakar

II. NUTRITIONAL ASPECTS

Nutritional Implication of Foods
S. G. Srikantia

Nutrition Under Stress
P. K. Vijayaraghavan and K. R. Viswanathan

Infant Feeding Trends in the U.S.A
Guy H. Johnson
Technological Considerations in the Delivery of Nutrients in the Control and Prevention of Nutritional Deficiencies in Developing Countries

B. S. Narasinga Rao

Fortification of Common Salt

Pichmani Subramanian

Food Safety – Current International Issues

C. B. Hudson

Faba Bean Protein as a Functional Component in Food Emulsions

G. Muschiolik

Natural Toxicants in Foods

S. R. Padwal Desai

Natural Toxicants in Foods

D. Rajagopal Rao

Insecticide Residues in Foods – A Review of Work Done in India

K. M. Appaiah

Behaviour, Dissipation and Levels of Phosphine Residues in Fatty Nuts and Cereals

J. R. Rangaswamy

Mycotoxins – An Appraisal of Challenges and Solutions

V. Sreenivasa Murthy

Health and Economic Significance of Mycotoxins in Developing Countries and Strategies for Prevention and Control

Ramesh V. Bhatt

III. FOOD MATERIALS – STORAGE AND PROCESSING

Research Achievements of Milling and Baking Qualities of Wheat

Hans Bolling

Foodgrain Storage and Handling – A Model for 2000 AD

S. K. Majumder

Processing System for Cereals and Pulses – Trends and Perspectives

R. Shankara and V. H. Narasimha
Handling and Grading of Wheat in Switzerland
G. Haberli 316

Grain Processing in India
G. S. Bains 319

Wheat Processing – The Present and the Future
S. R. Shurpalekar 327

Rice Quality
K. R. Bhattacharyya 333

Pretreatment, Packaging, Storage and Transportation of Fresh Fruits and Vegetables
V. B. Dalal 334

Post Harvest Technology of Fresh Horticultural Products – Present Status and Prospects
M. V. Patwardhan 345

Role of Post Harvest Technology of Horticultural Crops in India
Susanta K. Roy 349

Fruit Juice Concentration
W. E. Eipeson, R.S. Kamteke, K. E. Khalil and A.M. Nanjundaswamy 357

Advances in Dehydration Processes for Fruits, Vegetables and their Products
A. M. Nanjundaswamy and G. Radhakrishniah Setty 369

Quick Freezing Preservation of Foods – A Critical Appraisal of Global Developments
J. S. Pruthi 377

Processing of Milk and Milk Products
A. P. Mahadevan 388

Animal Food Products
T. R. Sharma 404

Animal Food Production in India
A. K. Chatterjee 409

V. FOOD QUALITY

Integration of Sensory Evaluation and Instrumental Analysis Aided by Chemometrics
Tetsuo Aishima

Sensory Analysis in Food Quality Evaluation
Shanthi Narasimhan and V. S. Govindarajan

Optimization and Product Positioning through Sensory Analysis
D. Rajalakshmi

Colour as a Criterion of Quality
Lakshminarayana Setty

Rheological Properties of Plant Food Dispersions: An Overview of Recent Studies
M. A. Rao

Analysis of Food Texture
Naginchand

Microbiological Assessment of Food Quality
C. T. Dwarakanath and N. Keshava

Food Technology – Emerging Trends – Food Flavours
T. S. Santhanakrishnan

Development and Trends in Food Flavours
K. O. Abraham and M. L. Shankaranarayana

Flavour Innovation – The Importance of Food Quality Acceptance
Gerald E. Uhde

Browning Reaction Products and Food Quality
J. Mauron

Browning Phenomenon in Thermally Processed Milk and Milk Proteins
A. Srinivasan
Nonenzymatic Discolouration in Fruit and Vegetable Products
S. Ranganna and Lakshminarayana Setty

VI. FOOD PACKAGING

Food Packaging: New Trends
P. Veer Raju

Recent Developments in Plastics for Food Packaging
K. R. Kumar

Copolymer Sealants in Flexible Packaging
W. Jay Elms

Retort Pouches for Processed Food Products
M. Mahadevaiah

Aseptic Processing and Packaging of Fruit Juices, Concentrates and Pulps
S. Ranganna

Aseptic Packaging of Foods
Ivan Versanyi

Aseptic Packaging
A. Astrom

Aseptic Bag-in-Box Packaging System
S. N. Prahlad

VII. HUMAN RESOURCES DEVELOPMENT

Human Resources Development in Food Science and Technology: A Socio-Technological Approach
H. A. B. Parpia

Advanced Training and Technology Needs for the Arab World to Build Agro-Food Industries
Seham Fiad

Training of Personnel in the Food Industry — Flour Milling and Baking Industry
M. M. Krishnaiah
Progress in Food Chain Calls for Fast Development in Nutrition Research, Training and Education
St. Berger

VIII. DEVELOPMENTAL ASPECTS – INFORMATION NEEDS, TECHNOLOGY TRANSFER, INDUSTRY, SELF-RELIANCE, RURAL DEVELOPMENT, FINANCE, AND MARKETING.

Information Needs of Developing Countries in Food Science and Technology and Its Role in Techno-Economic Development
E. J. Mann

Information for Food Industry – Indian Experience
K. A. Ranganath and B. Ramanna

Organization and Management of Research and Development in Food Science and Technology
H. A. B. Parpia

Food Policies for Development
Prafull H. Bhatt

Food Policies – Retrospects and Prospects
T. V. Pillai

Technological Forecasting in Agriculture in India
R. Bandyopadhyay, A. S. Roy and S. Datta

Impact of Technology Import on Development of a Self-Reliant Agro-Food Industry
Baldev Singh

Agro-Food Industry in Latin America
Teresa Salazer De Buckle and William Holaday

Impact of Food Technology Imports on Self Reliant Development in Africa
I. A. Akinrele

Food Technology: A Means of Socio-Economic Transformation for Small Poor Countries
Arnoldo K. Ventura

Energy Conservation in Food Processing Industries
M. C. Misra
Energy Conservation Management in the Food Processing Industry
R. L. Upadhyaya

Some Food Technologies for Rural Areas
C. V. Seshadri

Potential for Rural Development through Small-Scale Food Processing in Bangladesh
Ilene Bergen

Management of Livestock
N. S. Ramaswamy

Strengthening the Linkages Between Investment Promotion and Transfer of Technology
M. C. Bhatt

Entrepreneurship Development for Food Conservation and Processing
Prafull H. Bhatt

Food Exports: The Indian Experience
Fateh Singh Jasol

Special Needs and Problems in the Marketing of Processed Food
Ravi Kiran Aggarwal

Summary of Technical Sessions
