CONTENTS

VOLUME 1

FOREWORD - Prof. D.H. Montgomery, Secretary, Western Society of Naturalists iii

OPENING ADDRESS - Hon. J.B. Bolger, Minister of Fisheries, Wellington 1

KEYNOTE ADDRESSES -

Evolution of the South Pacific marine biota: the expanding fossil record
Dr C.A. Fleming, Victoria University of Wellington 5

Cretaceous-Recent plate tectonic history and paleoceanographic development of the Southern Hemisphere
Dr J.A. Grant-Mackie, University of Auckland 27

Distribution patterns of Southern Hemisphere marine biotas: some comments on their origins and evolution
Dr G.A. Knox, University of Canterbury 43

SYMPOSIUM ON BOTANICAL ASPECTS OF MARINE BIOGEOGRAPHY AND EVOLUTION IN THE SOUTHERN HEMISPHERE -

Mangrove biogeography (abstract only)
V.J. Chapman 83

Biogeography of benthic marine algae of the southern oceans
G.R. South 85

Biogeography of seagrasses: evidence from associated organisms
K.L. Heck and E.D. McCoy 109

Geographical distribution and evolutionary implications of higher marine fungi in the Southern Hemisphere (extended abstract)
G.C. Hughes 129

Relations of physiological-cytological peculiarities and biogeography of marine diatoms in the Southern Hemisphere
D. Werner 131

SYMPOSIUM ON GEOLOGICAL AND PALEONTOLOGICAL ASPECTS OF MARINE BIOGEOGRAPHY AND EVOLUTION IN THE SOUTHERN HEMISPHERE -

Environmental instability and South Pacific reefs (abstract only)
D.R. Stoddart 147
Problems of dating reefs and shore lines
   W.H. Easton

The fossil record, plate tectonics, and development of
characteristic members of austral marine faunas
   J. Wyatt Durham

Cenozoic planktonic biogeographic evolution in the Southern Ocean
   J.P. Kennett

SYMPOSIUM ON ZOOLOGICAL ASPECTS OF MARINE BIOGEOGRAPHY
AND EVOLUTION IN THE SOUTHERN HEMISPHERE -

Patterns in the derivation of a New Zealand fish fauna
   R.M. McDowall

Biogeography of anthozoans along the west coast of South America: 
habitat, disturbance, and prey availability
   K.P. Sebens and R.T. Paine

Experimental recruitment of endo-cryptolithic communities at
Lizard Island, Great Barrier Reef: preliminary results
   P.A. Hutchings and P.B. Weate

Biogeography of Pacific molluscs (abstract only)
   B. Salvat

Coral reef communities at the Houtman Abrolhos, Western
Australia, in a zone of biogeographic overlap
   B.R. Wilson and L.M. Marsh

On the biogeography of balanomorph barnacles of the Southern
Ocean including new balanid taxa; a subfamily, two genera
and three species
   W.A. Newman

The demosponge fauna from the New Caledonian area
   C. Levi

Marine zoogeography and evolution of Bryozoa in the Southern
Hemisphere
   D.F. Soule and J.D. Soule

The evolution and zoogeography of shallow-water tropical shrimps
   A.J. Bruce
