Proceedings of the Fourth ASTM-EURATOM Symposium on Reactor Dosimetry

RADIATION METROLOGY TECHNIQUES, DATA BASES, AND STANDARDIZATION

Volume II

National Bureau of Standards
Gaithersburg, Maryland
March 22–26, 1982

Edited by
F. B. K. Kam

Manuscript Completed: May 1982
Date Published: July 1982

Prepared for the U.S. Nuclear Regulatory Commission
Office of Nuclear Regulatory Research
Under Interagency Agreements DOE 40-551-75 and 40-552-75
NRC FIN No. B0415

Sponsored by
ASTM, Subcommittee E10.05 on Nuclear Radiation Metrology
Joint Research Center of the Commission of the European Communities
U.S. Nuclear Regulatory Commission
U.S. Department of Energy, Office of Fusion Energy
U.S. Department of Energy, Office of Light Water Reactors
Electric Power Research Institute
National Bureau of Standards
International Atomic Energy Agency

prepared by
Oak Ridge National Laboratory
Oak Ridge, Tennessee 37830
operated by
Union Carbide Corporation
for the
U.S. Department of Energy
Contract No. W-7405-eng-26
CONTENTS OF VOLUME II

SESSION B.2: BENCHMARKS AND NUCLEAR DATA

NBS ISNF and Cavity Fission U-235 Standard Neutron Fields ........................................ 597
  E. D. McGarry et al.

Neutron Spectrum Investigation in the Reference Spectrum ΣΣ-ITN by Means of Recoil Proton Spherical Counters ................................................................. 615
  D. Albert et al.

CFRMF Spectrum Update and Application to Dosimeter Cross-Section Data Testing ............. 623
  R. A. Anderl et al.

Average Neutron Cross Sections in the CF-252 Benchmark Field .................................... 637
  W. Mannhart

Intercomparison of the D2O-Moderated 252Cf Sources at the N.B.S. and at the SEFOR Calibration Center ................................................................. 649
  W. E. Brandon et al.

Multigroup Processing of ENDF/B Dosimetry Covariances ........................................... 655
  D. W. Muir et al.

The MOL Cavity Fission Spectrum Standard Neutron Field and its Applications ................ 665
  A. Fabry et al.

Supplementary Neutron Flux Calculations for the ORNL Pool Critical Assembly Pressure Vessel Facility ................................................................. 689
  P. J. Maudlin and R. E. Maerker

A Benchmark Experiment for Neutron Transport in Iron, Carbon Steel and Sodium ............. 699
  J. Burian et al.

ASTM Standard Recommended Guide on Application of ENDF/A Cross Section and Uncertainty File: Establishment of the File ........................................... 705
  E. P. Lippincott and W. N. McElroy

A Benchmark Gamma-Ray Skyshine Experiment ............................................................... 711
  R. R. Nason et al.

Comparison of Measured and Evaluated Spectrum-Averaged Cross-Section Data .................. 725
  W. L. Zijp et al.

Characterization of Reactor Neutron Spectra and Measurement and Evaluation of Resonance Integrals ................................................................. 745
  A. Ahmad et al.

Updated Results for the MOL-ΣΣ Benchmark and First Results of the Connected U_{nat} Experiment ................................................................. 755
  G. De Leeuw–Gierts and S. De Leeuw
SESSION B.3: FUSION-I

Proposed Neutron Diagnostic Systems for JET .......................................................... 771
O. N. Jarvis et al.

Neutron Flux and Spectral Measurements to Characterize Irradiation Facilities
for Fusion Materials Studies ........................................................................ 783
L. R. Greenwood

Displacement Damage Calculations Using ENDF/B-V Cross Sections Including
Thermal Capture and Beta Decay Effects .......................................................... 793
R. K. Smither and L. R. Greenwood

SESSION C.1: DAMAGE CORRELATION

Review of IAEA Specialists’ Meeting on Irradiation Embrittlement and Surveillance of
Reactor Pressure Components, Vienna, Austria, 19–21 October 1981 .................. 809
L. E. Steel

Investigation on the Dependence of RPV Steel Embrittlement on Irradiation
Temperature and Neutron Exposure ................................................................. 819
J. Ahlf et al.

Standards for Materials Behavior Under Neutron Irradiation ................................. 829
P. D. Hedgecock and J. S. Perrin

Influence des Neutrons Thermiques sur la Fragilisation de L’Acier de Peau
D’Etanchéité des Reacteurs à Haute Temperature (H.T.R.) ......................... 839
A. Alberman et al.

Characterisation D’Emplacements D’Irradiation en Spectres Neutroniques
et en Dommages ....................................................................................... 847
P. Mas and R. Perdreau

Evaluation and Uncertainty Estimates of Charpy Impact Data ............................... 855
F. W. Stallmann

Comparison and Limitation of Uncertainties in Surveillance and Lifetime
Prediction of LWR Pressure Vessels ............................................................... 861
W. Schneider

SESSION C.2: NUCLEAR DATA NEEDS AND PROBLEMS

Highlights from the IAEA Advisory Group Meeting on Nuclear Data for Radiation
Damage Assessment and Related Safety Aspects .................................................. 873
N. P. Kocherov

Experience in Using the Covariances of Some ENDF/B-V Dosimetry Cross Sections:
Proposed Improvements and Addition of Cross-Reaction Covariances ............. 877
C. Y. Fu and D. M. Hetrick

Spectrum-Integrated Helium Generation Cross Sections for $^6$Li and $^{10}$B
in the Sigma Sigma and Fission Cavity Standard Neutron Fields ..................... 889
B. M. Oliver et al.
SESSION C.3: FUSION-II

Tokamak Fusion Test Reactor Fusion–Reactor–Products Diagnostics
H. W. Hendel et al.

Neutron Dosimetry for the TFTR Lithium Blanket Module Program
Y. D. Harker et al.

Fusion–Blanket Dosimetry Program at the Idaho National Engineering Laboratory
F. Y. Tsang et al.

Fast Neutron Dosimetry of Spallation Neutron Sources
F. Hegedüs

A Review of Helium Accumulation Neutron Dosimetry for Fusion Neutron Test Environments
D. W. Kneff et al.

SESSION D.1: LIGHT WATER REACTORS-III

Status of Regulatory Demands in the U.S. on the Application of Pressure Vessel Dosimetry
P. N. Randall

Neutron Exposure Parameters for the Fourth HSST Series of Metallurgical Irradiation Capsules
F. B. K. Kam et al.

Characterization of the Neutron Environment Inside the Primary Containment of Caorso Nuclear Power Plant
E. Borioli et al.

Spectral Analysis of a BWR Vessel
E. B. Norris

Mesure et Interpretation des Flux de Dommages dans le Simulateur de Cuve P.W.R. d’Oak-Ridge (ORR-PSF)
A. Alberman et al.

A Brief Account of the Effect of Overcooling Accidents on the Integrity of PWR Pressure Vessels
R. D. Cheverton

LWR Pressure Vessel Monitoring: Absolute or Relative Dosimetry?
W. Schneider
### SESSION D.2: ADJUSTMENT CODES AND UNCERTAINTIES
