RESEARCH FOR TOMORROW'S TRANSPORT REQUIREMENTS

Proceedings of the World Conference on Transport Research
Vancouver, British Columbia, Canada, May 1986
# Contents

## Volume 1

### Chairman's Introduction, Trevor D. Heaver

Truck Transportation Data — Reflections on the Canadian Experience
A. M. Clayton, F. P. Nix ......................... 172

The Oregon Weigh-in-Motion/Heavy Vehicle Electronic License Plate Demonstration Project: New Technology for Data Collection M. Krukar, L. Henion ......................... 188

Automatic Vehicle Identification for Transportation Monitoring and Control P. Davies, P.O. West, L.A. Schmitt ......................... 207

The Automatic Core Census of Road Traffic in Great Britain K. Russam, A.D. Butler ......................... 225

Impact of New Technology on Railway Cost-Effectiveness A.H. Wickens ......................... 234

Optimising Railway Infrastructure A.E. Metcalf, H. Hide ......................... 243

Aerodynamic Research to Improve Railway Performance J.L. Peters ......................... 257

An Engineered Cost Model for High-Productivity Rail Transport Daniel S. Smith ......................... 277

THEME II

Government Policies ......................... 289
Research Programs for Government Policy Development G.K.R. Reid ......................... 290

Aligning Transportation Research with Management's Goals Thomas B. Deen ......................... 303

Enjeux et perspectives de la recherche-developpement dans les transports terrestres Bernard Gerardin ......................... 314

Emphases in Public Transport Research and Development in the Industrial Nations up to the year 2000 Helno Nuppnau ......................... 319

Transport Research and Economics M.E. Beesley ......................... 326

Regulations and Policies Affecting Transport Development H. L. Beenhakker ......................... 335

Monitoring the Deregulation of Public Passenger Transport in Great Britain G. Margason ......................... 344

Recent UK Experience of the Influence of Regulation on Performance R.P. Turner, P.R. White ......................... 355

Implications of USA Deregulation on Trucking Industrial Organization Kevin Horn ......................... 375

Captive Shippers and the Success of Railroads in Capturing Monopoly Rent P.V. Garrod, W. Miklius ......................... 384

A Model of Relations between the Public Administration
and Companies Operating Collective Transportation by Bus
K. C. Ribeiro Pinto, L. Zmetek Granja .......................... 399

An Evaluation of the Effects of Deregulation Policies on
the Santiago Chile Public Transport System
J. Enrique Fernández, Joaquín de Cea .......................... 409

Approach to the Future Role and Characteristics of
Regional Railway Transit — Case Study:
Federal Republic of Germany
Andreas Kossak .................................................. 424

Criteria for Local Government Management of Railway
Services in Japan
Misao Sugawara ............................................... 431

Three Perspectives on Airline Regulation and Deregulation:
Historical, Analytical and National Interest
R.F. Harris .................................................... 447

The Management of Highway Infrastructure Rehabilitation:
A Forward Look
A.M. Khan, P. LaFontaine ................................. 459

Dynamic Model for Optimizing the Timing and Intensity of
Highway Pavement Maintenance
K. Tsunokawa, J.L. Schofer .................................. 480

The Trans-European North-South Motorway (TEM)
Finding the Ways of Practical Co-Operation
U. Armangil, B. Vasarhelyi .............................. 497

Computer Implications for Highway Managers’ Priorities
Gary E. Kruger ................................................. 510

Using Highway Maintenance Management System
Information to Select Optimum Levels of Service
R. Ian Kingham, Ram B. Kulkarni ......................... 529

An Economic Evaluation for Road Traffic Noise
Hisao Uchiyama ............................................... 537

A Multi-Modal Assessment of Hazardous Materials
Transport Risk
M.D. Abkowitz, G.F. List .................................. 553

Some Data Considerations for Traffic Accident Research
Gerald R. Brown .............................................. 566

Some Aspects of Traffic Safety in Developing Countries
With Special Reference to India
S.K. Khanna, P.K. Sikdar .................................. 583

THEME III

Logistics ......................................................... 599

Dynamic Structured Forecasting in Bulk Trades
Ernst G. Frankel ............................................. 600

Management, Models and Logistics in the World Coal Trade
W.G. Waters II, Dean H. Uyeno .......................... 612

Logistics Trends and their Implications for Competitive
Strategy: The Case of Domestic Wheat Flour Milling
Daniel R. Sersland .......................................... 630

The Effects of the Centralisation of Inventory on the
Movement of Freight by Road in the United Kingdom
A. C. McKinnon .............................................. 646
Road Freight — Aspects of Information Systems
Derek S. Wright ........................................... 665
Improved Road Standard and Business Efficiency
Johnny Lindström ......................................... 677
Le poids des réseaux de communication et des systèmes
d'informations dans la gestion des organisations
logistiques: leurs effets sur les entreprises de
transport en France
Jacques Colin .............................................. 684
The Future of Intermodal Transportation of Perishable
Commodities in the United States
Richard Beilock, Kenneth Casavant .................... 701
Soil Recycle and Transportation Model
Y. Hanzawa, T. Matsuda, K. Nomura .................. 717

THEME IV

International Shipping and Ports ................. 733
The Transformation of Shipping and the Role of
Ship Management
Gunnar K. Sletmo ........................................ 734
The Role of Financial Institutions in Shipping Markets
P. S. Douglas .......................................... 747
A Cost Based Simulation Analysis of South East
Asia-Australia Liner Shipping
F.D. Gallagher, S.J. Meyrick ......................... 754
Efficiency and Competition in Liner Shipping
Dan Shneerson .......................................... 773
Statistical Evidence on Ship Management Practices
K.J. Button, S.R. Tolofari, D.E. Pitfield ........... 783
Maritime Constraints and International Trade: Case Study
of the Impact of Cargo Preference on U.S. Wheat Trade
James Jones, Kenneth L. Casavant, Chong Kim ...... 795
The European Maritime Policy
Pierre Bauchet ........................................... 808
Trends in U.S. Liner Shipping: Past, Present, and Future
Henry S. Marcus ........................................ 813
The Development of Water Transportation in China
Bi Hualin, Jiang Qiongzhu .............................. 828
The Development of Seaport Policies
Richard Goss ............................................. 836
Containerisation and Development Strategies for ASEAN
Ports: The Implications of Change?
Ross Robinson ........................................... 849
Modelling Container Terminal Operations
E. G. Frankel ............................................ 864
Terminal Operations Management Systems
B.A. Radomske, T.W. Engelhart, D. Kotak .......... 876
Réseaux de pétiti: application à l'analyse des
opérations portuaires
F.A.C. Mora-Camino, M.A.G. Neto de Matos,
A. Lopes Pereira ........................................ 897
Modal Split in the British Inland Container Market
S.R. Temple, D.W. Whibley ........................... 909
