Preprints Vol. II

INTERNATIONAL TECHNICAL MEETING

TECHNOLOGY IN THE 90'S
SPERING IN A CHANGING ENVIRONMENT

Calgary Convention Centre,
June 10 - 13, 1990
OPERATIONS

90-54
Geochemical Modelling: A Valuable Tool for Addressing Scale Problems
Gina Nenniger, John Nenniger, Peter Bulkowski*, Nenniger Engineering
*now with Petro-Canada Resources

90-55
Scale Inhibitor Evaluations and a Mechanism of Inhibition of Sparingly Soluble Salts
Mason B. Tomson, Rice University
J.Matty, Central Michigan University,
J.E. Oddo, Rice University

90-56
Biological Paraffin Control Systems Show Production Increases in Addition to Controlling Paraffin
Mark D. Bishop, Kiseki Technology Inc.,
Dean R. Woodward, P.S.L. Inc.

90-57
Optimizing Hot Oiling/Watering Jobs to Minimize Formation Damage
John Nenniger, Gina Nenniger, Nenniger Engineering Inc.

90-58
Combination of Selected Solvents and Mutual Solvents Successful in Removing Hydrocarbon Based
Formation Damage
C.W. Hamberlin, D.C. Thomas, M.G. Trbovich, Welchem, Inc.

90-59
Predicting Rod Wear in Conventional and Screw Pump Installations
Tim C. Presber, Ballater Resources Ltd.

INSITU COMBUSTION

90-60
Perspective of a Fireflood Process Using Low Air Injection Rates
Peter Tsang, Husky Oil Operations Ltd.

90-61
Pressure Transient Tests in Fireflood Operations- Countess Field, Alberta
M. Metwally, PanCanadian Petroleum
G. Kular, AOSTRA

90-62
Oxygen Fireflooding: Determination of Maximum Water/Oxygen Ratio for Normal Wet Combustion
V.N. Venkatesan, K. Sampath, J.B. Otto, Mobil R&D

90-63
Laboratory Combustion Behavior of Countess B Light Oil
E.T. Tzanco, PanCanadian Petroleum Limited
R.G. Moore, J.D.M. Belgrave, M.G. Ursenbach, University of Calgary

90-64
Factorial Experiments in In Situ Combustion
Dr Malcolm Greaves, Dr Robert W. Field, University of Bath, UK
Dr Jeremy W.O. Dudley, Water Research Centre
LABORATORY INVESTIGATIONS

90-65
Phase Behavior and Physical Properties of CO₂-Saturated Heavy Oil and Its Constitutive Fractions
Sunil L. Kokal, Selim G. Sayegh, Petroleum Recovery Institute

90-66
Effects of Viscous Instability on Unsteady-State Relative Permeability
Hemanta K. Sarma, Brij B. Maini, Gary Allen, Petroleum Recovery Institute

90-68
Experimental Measurement of the Distribution of Residual Oil Saturations in Heterogenous Carbonate Cores
Using X-Ray Computerized Tomography
Paul J. Hicks, Jr., University of Houston
Harry A. Deans, University of Wyoming
K. Narayanan, BP Research

90-69
The Significance of Fines Migration in Mercury Capillary Pressure Measurements
Peter L. Churcher, Jerry C. Shaw, P. Rosemary French, Petroleum Recovery Institute

90-70
Two Phase Flow in Highly Deviated Wells
J.F. Stanislav, K. Christensen, A. Chakma, University of Calgary

LOGGING AND SEISMIC APPLICATIONS

90-71
Seismic Velocities in Carbonate Rocks
Zhijing Wang, Core Laboratories
W. Keith Hirsche, Western Geophysical
George Sedgwick, Alberta Research Council

90-72
Seismic Monitoring in Enhanced Oil Recovery
W. Keith Hirsche, Western Geophysical
George Sedgwick, Alberta Research Council
Zhijing Wang, Core Laboratories

90-73
Monitoring the Performance of Pembina Nisku Miscible Floods
Fletcher Bennett, J. Gerry Geoghegan, Esso Resources Canada Limited

90-74
Pulsed Neutron Capture Evaluation of Upper Cretaceous Milk River Gas Sands
Dieter Kirsch, North Canadian Oils
Jim Edgson, Jim McDonald, Rod McKenzie, Dowell Schlumberger

90-75
Prediction of Abnormal Pressures in the Niger Delta Basin Using Well Logs
Olubunmi O. Owolabi, Pennsylvania State University
Godwin A. Okpobi, National Fertilizer Company of Nigeria Ltd.
Iyalla A. Obomanu, Nigerian National Petroleum Corporation
90-76
Computation of Mud Filtrate Invasion Profiles
Geoffrey D. Phelps, Pi-Technologies

EOR METHODS

90-77
Caustic Flooding for Heavy Oil Recovery
R.W.P. Symonds, Shell Canada Ltd.
S.M. Farouq Ali, Sara Thomas, University of Alberta

90-78
A Laboratory Study of Natural Gas Huff ‘N’ Puff
Hiemi Kim Haines, Teresa G. Monger, Marathon Oil Company

90-79
Solvent Tracers and The Judy Creek Hydrocarbon Miscible Flood

90-80
Giant Salt Creek Field Looks to Immiscible CO2 Technology in Second Century
Connie L. Bargas, H. David Montgomery, Donald H. Sharp, Janice L. Vosika, Amoco Production

90-81
Modeling of High Ph Sandstone Dissolution
Jean Labrid, Institut Français du Pétrole

90-82
Improving Oil Recovery in the Naturally Fractured, Tight, Dirty Sandstone of the Townsend Newcastle Sand Unit-Weston County, Wyoming
Steven M. Hochanadel, TIORCO, Inc.
Charles L. Townsend, The Townsend Companies Inc.

THERMAL RECOVERY I

90-84
Water-Alternating-Steam Process Improves Project Economics at West Coalinga Field
K.C. Hong, Chevron Oilfield Research Company
C.E. Stevens, Chevron USA

90-85
Dual Injection With Steam and Hot Water in The Kern River Field - A Case History
G.L. Messner, D.R. Stelling, Texaco

90-86
Performance of Horizontal-Vertical Well Combinations for Steamflooding Bottom Water Formations
Helen L. Chang, S.M. Farouq Ali, University of Alberta
A.E. George, CANMET

90-87
Incorporation of Wellbore Steam Segregation in Steam Stimulation
Fredric C. Arnold, University of Oklahoma
90-88
Measurement of Steam Quality Using a Neutron Densitometer
Pak T. Wan, Atomic Energy of Canada Limited-Research Company, Whiteshell Nuclear Research Establishment

STIMULATION FLUIDS

90-89
Encapsulated Breaker for Aqueous Polymeric Fluids
M.T. King, J. Gulbis, G.W. Hawkins, H.D. Brannon, Dowell Schlumberger

90-90
Breaker Concentrations Required to Improve the Permeability of Proppant-Packs Damaged by Concentrated Linear and Borate-Crosslinked Fracturing Fluids
H.D. Brannon, R.J. Pulsinelli, Dowell Schlumberger

90-91
A New System for Controlling the Crosslinking Rate of Borate Fracturing Fluids
K.E. Cawiezel, J.L. Elbel, Dowell Schlumberger

90-92
Effect of Gelled Fracturing Fluids on the Conductivity of Propped Fractures
Mark A. Parker, Halliburton Services

90-93
Continuously Gelled Diesel Systems for Fracturing Applications
M.A. McCabe, J.M. Terracina, R.A. Kunzi, Halliburton Services

90-94
Improved Quality Control of Fracture Treatments Using Advanced Data Collection/Analysis Equipment
C.M. Pearson, ARCO Alaska
G.D. Cooper, Guydon Software Services
J. H. Schmidt, ARCO Oil and Gas Company
S.G. Nelson, Guydon Software Services
C.T. Montgomery, ARCO Oil and Gas Company

NUMERICAL MODELLING

90-95
Combining a Volumetric Model With a Pseudo-Miscible Field Simulation to Achieve Uniform Fluid Levelling in the Rainbow Keg River “B” Pool
David K. Fong, Frank Y. Wong, Ray G. Nagel, Jonathan K. Peggs, Husky Oil Operations Ltd.

90-96
Numerical Simulation of Scaled-Model Steamflooding Experiments in Tar Sand With a Bottomwater Zone
M. Kumar, T.N. Do, Chevron Oil Field Research Company

90-97
Modeling of Emulsion Flow in Porous Media
S.M. Farouq Ali, University of Alberta
J.H. Abou-Kassem, The Pennsylvania State University
CIM/SPE 1990 ITM - PAPERS WITHDRAWN

CIM/SPE 90-11  Reviews of Hole Cleaning Requirements For Directional/Horizontal Wells;  
S.T. Saleh, University of Alaska Fairbanks

CIM/SPE 90-17  Evaluation of Internal Pipeline Corrosion in The Elmworth Deep Basin: an  
Analytical Approach;  
D.V. Elgie, Canadian Hunter Exploration Ltd., G. Adams, Atlas Wireline,  
R. Strilchuk, C&M Engineering

CIM/SPE 90-24  Video Camera Technology - Application in the Petroleum Industry;  
W. Gallacher, M.L. Sinal, Canadian Fracmaster Limited, S. Morrical, Heartland  
Perforating, A. Shane, Esso Resources Canada Limited

CIM/SPE 90-30  Application of Expert Systems Technology To Automatic Kick Detections;  
S. Varnado, G. Lloyd, TITAN/Spectron

CIM/SPE 90-33  Alaska Oil: How Does It Measure Up;  
B.W. McCoskey, ARCO Pipeline Company

CIM/SPE 90-49  Two-Phase Flow Correlations as Applied to Pumping Well Buildup Testing;  
A.R. Hasan, Consultant, C.S. Kabir, University of North Dakota

CIM/SPE 90-67  Residual Oil Ganglia Populations and Testing of Percolation Theory  
Predictions;  
I. Chatzis, University of Waterloo

CIM/SPE 90-83  Heavy Oil Completion Techniques in California;  
W. Lowry, M. Glenn, Mobil Exploration & Producing US

CIM/SPE 90-111 Studies of Aerated Bitumen Droplet Flotation;  
L.J. Danielson, J.R. Spence, R.G. Smith, Syncrude Canada Limited

CIM/SPE 90-138 Impact of Technology on Economics of Upgrading of Heavy Oil and Tar  
Sands Bitumen;  
R.P. Padamsey, AOSTRA

CIM/SPE 90-139 The Economic Evaluation of Leasing As An Alternative To Purchasing;  
M.G. Olson, D.R. Lee, BP Resources Canada Limited
