PART ONE: RUTLAND WATER: THE RESOURCE FOR PUBLIC WATER SUPPLY

Rutland Water – from conception to operation
by E. A. Knights 7
A 'regrettable necessity' – the decision to construct
by P. Lawson 19
Escaping from prison: an economic reassessment of Rutland Water
by P. R. Herrington 27

PART TWO: THE RESERVOIR IN THE RUTLAND ENVIRONMENT

The landscape of Rutland Water
by Dame Sylvia Crowe 43
Perimeter forestry and landscape works at Rutland Water
by A. Ford 47
Tree pre-planting at Rutland Water
by C. J. Gill 51
Area structure plans of Leicestershire County and Rutland District Councils
by D. Wightman & P. Burford 52
Traffic and visitor surveys at Rutland Water
by D. Wightman 53
Rutland 2000: educational resources of Rutland Water
by Bryan Waites 55
Archaeological discoveries at Rutland Water
by A. W. Adams, T. H. McK. Clough, M. S. Gorin, N. M. Reynolds & M. Todd 57

PART THREE: WATER QUALITY, ALGAL ECOLOGY AND RESERVOIR MANAGEMENT

Circulation patterns; their investigation and prediction
by E. J. Myers, R. S. Oldham & A. J. D. Ferguson 67
Vertical movements of the surface water and thermal stratification in Rutland Water
by S. L. Maddocks 79
The effect of Langmuir circulation on the distribution and settling of algae and suspended particles
by Tavicha Buranathanitt, David J. Cockrell & Peter H. John 88
Models of annual cycles in lentic water bodies
  by B. Henderson-Sellers & P. B. R. Archer 89

Rutland Water raw water quality – problems and management
  by N. F. Low 93

The production of public supply drinking water from Rutland Water at the Wing Treatment Works
  by D. B. Ford, B. E. Drage & T. J. Roberts 103

Rutland Water phytoplankton: the development of an asset or a nuisance?
  by A. J. D. Ferguson & D. M. Harper 117

PART FOUR: ZOOLOGICAL ECOLOGY AND RESERVOIR MANAGEMENT

Zooplankton and their relationships with water quality and fisheries
  by D. M. Harper & A. J. D. Ferguson 135

Benthic invertebrates of Rutland Water
  by J. A. Bullock, F. Clark & S. Ison 147

The leeches of Rutland Water
  by M. Majeed 157

Studies on two species of Asellus in Rutland Water
  by Y. T. Daoud 158

Bathymetric distribution of some Chironomidae (Diptera) in Rutland Water
  by A. E. Brown & R. S. Oldham 159

The protozoan epizoites found on the gills of Gammarus pulex
  by M. H. Walker & E. Roberts 171

The control of a fly nuisance problem in a woodland area adjacent to Rutland Water
  by M. J. Knight & R. S. Oldham 177

Establishing and maintaining the trout fishery at Rutland Water
  by D. E. Moore 179

The feeding of trout during the filling phase of Rutland Water
  by D. M. Harper 191

Temporal variations in the diet of brown trout (Salmo trutta L.) and rainbow trout (S. gairdneri R.) in Rutland Water
  by A. D. Warlow & R. S. Oldham 199

The population dynamics of eyeflukes Diplostomum spathaceum and Tylodelphys clavata (Digenea: Diplostomatidae) in rainbow and brown trout in Rutland Water: 1974–1978
  by J. Moody & E. Gaten 207

Rutland Water Nature Reserve: concept, design and management
  by T. P. Appleton 211

The distribution of micro-organisms through a bunded lagoon in Rutland Water
  by J. T. Holah & J. D. McLver 225

Wildlife surveys of the reservoir site prior to inundation 1971–1976
  by I. M. Evans 231
