BRITISH CERAMIC PROCEEDINGS  
No. 45 MARCH 1990

Published by The Institute of Ceramics  
Shelton, Stoke-on-Trent, Staffs. U.K.

# Contents

|  |     |
|--|-----|
| 1. Alternative Grain Boundary Phases for Heat-Treated $\text{Si}_3\text{N}_4$ and $\beta'$ -sialon Ceramics . . . . .    | 1   |
| <i>D. P. Thompson</i>  |     |
| 2. Thermochemistry of Oxynitride Perovskite Preparation by Conventional and Plasma Nitriding Processes . . . . .         | 15  |
| <i>I. Elphinstone and A. Hendry</i>  |     |
| 3. Crystallization Treatments for Neodymia-Containing Oxynitride Glasses and Glass Ceramics . . . . .                    | 23  |
| <i>V. Morrissey, J. Lonergan, M. J. Pomeroy and S. Hampshire</i>   |     |
| 4. HIP'ing of Silicon Carbide and Silicon Nitride . . . . .  | 33  |
| <i>R. C. Piller, S. J. Friend and I. E. Denton</i>   |     |
| 5. The Influence of Processing Parameters on the Properties of Mn-Zn Ferrite Prepared by the Citrate Gel Route . . . . . | 45  |
| <i>V. A. Roberts, R. Freer and F. R. Sale</i>  |     |
| 6. Shaping Complex Ceramic Components by Green Machining . . . . .   | 53  |
| <i>N. D. Butler, D. J. Dawson and R. A. Wordsworth</i>   |     |
| 7. Fabrication of Machineable Hydroxyapatite . . . . .   | 59  |
| <i>M. Shareef, P. F. Messer and R. van Noort</i>   |     |
| 8. Ultra-Rapid Quenching: a New Route to Produce High-Temperature Ceramic Composites . . . . .                           | 71  |
| <i>P. Pilate and F. Cambier</i>  |     |
| 9. High Strength and Weibull Modulus from Colloidal Processing of Ceramics . . . . .                                     | 79  |
| <i>K. Kendall, N. McN. Alford, W. J. Clegg and J. D. Birchall</i>  |     |
| 10. Fabrication of Low-Shrinkage Mullite-Zirconia Composites . . . . .   | 91  |
| <i>S. Wu and N. Claussen</i>   |     |
| 11. Microwave Processing of Ceramics . . . . .   | 97  |
| <i>J. G. P. Binner</i>   |     |
| 12. Removal of the Organic Binder from Moulded Ceramic Bodies . . . . .  | 109 |
| <i>M. J. Edirisinghe</i>   |     |
| 13. Fabrication of Glass Ceramics by Tape Casting . . . . .  | 123 |
| <i>G. Partridge, C. A. Elyard and A. K. Datta</i>  |     |
| 14. Fabrication of Ceramic Coatings from Liquid Ceramic Precursors . . . . .   | 131 |
| <i>S. R. Daish, R. E. Edwards, D. F. Rush and D. L. Segal</i>  |     |
| 15. The Fabrication of Silicon Carbide Fibres by the Polymeric Precursor Route . . . . .                                 | 139 |
| <i>R. J. P. Emsley, J. H. Sharp and J. E. Bailey</i>   |     |

|  |     |
|--|-----|
| 16. Processing and Properties of Coated Fibres for High-Temperature Composites<br><i>N. J. Mattingley</i>  | 153 |
| 17. Evaluation of Sedimentation as a Technique for the Separation of Sub-Micron Diameter Silicon Carbide Whiskers<br><i>M. J. Crimp and R. F. Preston</i>                                    | 163 |
| 18. Techniques for Fabrication of $\beta'$ -Sialon Ceramic Matrix Composites<br><i>R. M. Bower, H. J. Edrees and A. Hendry</i>   | 169 |
| 19. Dispersion and Packing of Mixtures of $\text{Si}_3\text{N}_4$ Powders with SiC Whiskers<br><i>J. C. M. Almeida, J. M. G. Sacramento, R. N. Correia, A. T. Fonseca and J. L. Baptista</i> | 179 |
| 20. Reinforcement of Silicon Nitride Ceramics with Whiskers and Platelets<br><i>X. Y. Zhang, F. P. Zeng, M. J. Pomeroy and S. Hampshire</i>  | 187 |
| 21. Dispersion of SiC Whiskers in a $\text{Si}_3\text{N}_4$ Matrix using pH Control<br><i>M. J. Crimp and R. C. Piller</i>   | 199 |
| 22. Growth and Microstructural Development of Melt-Oxidation Derived $\text{Al}_2\text{O}_3/\text{Al}$ -Based Composites<br><i>M. Sindel and N. Claussen</i>                                 | 205 |
| 23. Fibre-Reinforced Mullite Composites by Sol-Gel Processing<br><i>M. Chen, P. F. James, F. R. Jones and J. E. Bailey</i>   | 211 |
| 24. Fabrication of Particulate, Platelet, Whisker and Continuous Fibre Reinforced Glass and Ceramic Materials<br><i>A. R. Hyde and G. Partridge</i>  | 221 |
| 25. Carbon Fibre Reinforced Glass Matrix Composites by Sol-Gel Processing<br><i>V. Gunay, P. F. James, F. R. Jones and J. E. Bailey</i>  | 229 |
