PROCEEDINGS
of the
Second International Conference
on
Electrostatic Precipitation
November 1984 - Kyoto, Japan

Senichi Masuda, Editor

International Steering Committee:
Chairman: Senichi Masuda (Japan)
Members:
  Kenneth Darby (U.K.)
  John S. Lagarias (U.S.A.)
  Sabert Oglesby, Jr. (U.S.A.)
  Tadao Ohtsuka (Japan)
  Sidney R. Orem (U.S.A.)
  Edmund C. Potter (Australia)
  George C. Preston (U.S.A.)
  Harry J. White (U.S.A.)

Institute of Electrostatics Japan
Table of Contents

Opening Session

"Welcome"
Senich Masuda (Japan)

Keynote Address  "The Challenge of the '80s"
John S. Lagarias (U.S.A.)

"Transition Review"
Harry J. White (U.S.A.)

Session 1  Electrostatic Precipitation World Wide

Panel Session: "Electrostatic Precipitation Worldwide"
E. Potter (Australia), T. Ohtsuka (Japan), K. Darby (U.K.),
S. Masuda (Japan), P. Mehendru (India), S. Oglesby (U.S.A.),
P. Vereshchagin (U.S.S.R.) and Xi. Yan (China)

"Electrostatic Precipitation in India--Its Present Status & Future Trends"
P.C. Mehendru, S. Chand and T.K. Chaudhuri (India)

"Some Results of ESP Research in the USSR"
I.P. Vereshchagin and G.Z. Mirzabekyan (U.S.S.R.)

"The Development of Electrostatic Precipitation Technology in China"
Yan Xingzhong and Lin Youwen (China)

Session 2  Electrostatic Precipitation in Particulate Control Strategies

(2-1) "Electrostatic Precipitation Application in Integrated Environmental Control
       Systems"
       R. Shirato (Japan)

(2-2) "Effects of Furnace Injection of Sorbent for SO₂ Control on Electrostatic
       Precipitator Technology and Requirements"
       J.H. Abbott, J.P. Gooch and J.D. Kilgroe (U.S.A.)

(2-3) "Electrostatic Precipitation of Both Fluidized-Bed and Pulverized-Coal Flyash from the Same Coal"
       C.A.J. Paulson and J.S. Vale (Australia)

(2-4) "Electrostatic Precipitation under Extreme Conditions of Temperature and
       Pressure"
       E. Weber (West Germany)

(2-5) "High Pressure, High Temperature Electrostatic Precipitation Technology in the U.S.A."
       G. Rinard, D. Rugg, M. Durham, J. Armstrong and T. Yamamoto (U.S.A.)

(2-6) "Economic and Technical Comparisons of Fabric Filters and Electrostatic
       Precipitators"
       R.C. Carr, W. Piulle, V.H. Belba and F.A. Horney (U.S.A.)

(2-7) "Present Status and Future Trends of Emission and Opacity Standards in Industrial Countries"
       S. Kato (Japan)

Session 3  Electrostatic Precipitation Today - 1

(3-1) "Effect of Corona Power on Electrostatic Precipitator Performance"
       H.L. Engelbrecht, N.D. Graves and R.R. Crynack (U.S.A.)
"Panel Discussion on Wide Spacing Precipitators"
D. Heinrich (U.K.), K. Darby (U.K.), G. Driggers (U.S.A.),
T. Kawamura (Japan), S. Matts (Sweden), G. Meyer-Schwinning (West Germany),
G. Nichols (U.S.A.) and S. Nohso (Japan)

(3-2) "Computer Optimized Precipitators - Operational Experience and Test Results"
F. Neulinger and H. Schummer (West Germany)

(3-3) "Computer and Microprocessor Control of Electrical Precipitators as Currently Practiced in the U.S."
J.A. Finny (U.S.A.)

(3-4) "Overview of the U.S. EPA Electrostatic Particulates R&D Program"
N. Plaks (U.S.A.)

Session 4 Electrostatic Precipitation Today - II

Panel Discussion on State of the Art of Pulse Energization and Its Evaluation"
S. Masuda (Japan), K. Darby (U.K.), D. Dinelli (Italy), J. DuBard (U.S.A.)
F. Lausen (Denmark), R. McRainie, H. Milde (U.S.A.) and M. Rea (Italy)

(4-1) "State of the Art of Precharging"
S. Masuda (Japan)

(4-2) "Precipitability of Fly Ash from Various Coals"
J. Suzuki and N. Tachibana (Japan)

(4-3) "Flue Gas Conditioning Studies"
J.P. Gooch, E.B. Dismukes, R.E. Bickelhaupt and R.F. Altman (U.S.A.)

(4-4) "Bipolar Current Probe for Measuring Space Potential and Back Corona Severity in ESP"
S. Masuda, T. Itagaki, S. Nohso, O. Tanaka, K. Hironaga and N. Fukushima (Japan)

(4-5) "Reduction of Power Consumption in Precipitators"
T. Ando, Y. Nakayama and Y. Matsumoto (Japan)

Session 5 Basic Technology of Precipitation

(5-1) "Dust Resistivity - Its Significance and Interpretation"
E.C. Potter (Australia)

(5-2) "Properties of the Particulate Dust Layer That Arise Because of Its Particulate Structure"
K.J. McLean (Australia)

(5-3) "A New Method of Evaluation of Mechanical Strength of Dust Layer in ESP"
K. Makino, M. Yamada, M. Kawahara and K. Kuramitsu (Japan)

(5-4) "Effect of Turbulence on Precipitator Performance"
S.A. Self, M. Mitchner, K.D. Khim, D.H. Choi and R. Leach (U.S.A.)

(5-5) "Impact of Coal Combustion on Particulate Pollution and Role of Electrostatic Precipitation for Its Abatement"
S. Kurihara (Japan)

(5-6) "Effects of Wire Diameter on Particle Charging and Collection Efficiency in Electrostatic Precipitators"
D.H. Pontius and L.E. Sparks (U.S.A.)

(5-7) "SO\textsubscript{3} Conditioning for High Resistivity Fly Ash"
E.L. Coe, Jr. (U.S.A.)
Session 6-A Resistivity, Ash Chemistry and Conditioning

(6A-1) "Sulphur to Coal - How It Influences Resistivity" - Invited
K.M. Sullivan (Australia)

(6A-2) "Effect of Coal Type and Combustion Conditions on Aerosol Properties from Pulverized Coal Combustion System" - Invited
M. Sadakata, A. Yoshino, T. Sakai and H. Matsuoka (Japan)

(6A-3) "Ash Chemistry, Resistivity and Electrostatic Precipitator Performance"
J. Dalmon (South Africa)

(6A-4) "Resistivities of South African Fly Ashes"
D. Heinichen and K. Walton (South Africa)

(6A-5) "SO_3^2-Flue-Gas Conditioning, a Proven Method to Increase the Efficiency of Existing Electrostatic Precipitators"
H.J. Gomoll (West Germany)

(6A-6) "Effect of Sodium Conditioning on the Resistivity of Fly Ash of Selected Indian Coal"
J.M. Dave (India)

(6A-7) "Electrostatic Precipitators in Dry FGD Applications"
Y. Chen, R. Triscori, H. Krigmont, H. Spencer and R. Davis (U.S.A.)

Session 6-B Electrode Design, Spacing and Sizing

(6B-1) "Electrostatic Precipitator Sizing Methodologies, A Review" - Invited
N.W. Frisch (U.S.A.)

(6B-2) "Some Electrode Geometry, Electric Field and Performance Effects in Electrostatic Precipitation" - Invited
H.J. Hall (U.S.A.)

(6B-3) "The Research and Application of Electrostatic Precipitator with Wide Spacing and Cross-Positioned Channel Collecting Plates in Power Plant"
G.J. Chen and L.Q. Wang (China)

(6B-4) "Electrostatic Precipitation Phenomena in Very Large Diameter Smoke Stacks"
I.I. Inculet (Canada)

(6B-5) "Test and Study on Controlling Acid Mist by Means of Electrostatic Field of Extra High Voltage"
Bai Xi-Yao, Wang Xu-Chuan, Lu Shen-Yan, Zhu Yu-Cheng and Jia Feng-Lin (China)

(6B-6) "Plate Spacing Effect on Precipitator Performance"
K. Darby (U.K.)

(6B-7) "Operating Results of Commercial Precipitators with 400 mm Plate Spacing"
W. Diener (Switzerland)

Session 6-C Electrostatic Precipitation Technology and High-Temperature, High-Pressure Precipitators

(6C-1) "Laboratory and Pilot Plant Evaluation of the Cooled-Electrode Precharger for Collecting High-Resistivity Dust" - Invited
M.D. Durham, G.A. Rinard and D.E. Rugg (U.S.A.)

(6C-2) "High Temperature, High Pressure Electrostatic Precipitation, Current Status" - Invited
P.L. Feldman and K.S. Kumar (U.S.A.)
(6C-3) "Simulation of Some Physical Processes in Electrostatic Precipitators"
I. Berta (Hungary)

(6C-4) "Three Year Performance Evaluation of a New Rigid Electrode Precipitator Design"
G.R. Gawreluk and E.R. Brailey (U.S.A.)

(6C-5) "Practical Results of New Developments on EPs - Benefits and Limitations"
J. Brandt (West Germany)

(6C-6) "Demonstration of a Two-Stage Electrostatic Precipitator for Application to Industrial Processes"
C.G. Noll (U.S.A)

(6C-7) "Design Criteria for Optimised Precipitators"
P.F. Coventry and J.F. Hughes (U.K.)

Session 6-D Electrostatic Augmentation of Mechanical Collection

(6D-1) "Electrical Augmentation of Fabric Filters by Precharging" - Invited
W.B. Smith, J.D. McCain, D.H. Pontius and B.E. Pyle (U.S.A.)

(6D-2) "Improved Particle Collection in Deep Bed Filters by Using Electret Fibres"
Hp. Baumgartner and F. Löffler (West Germany)

(6D-3) "Filtration Performance of Precharged Dust Particles"
K. Ohtsuka, M. Shimoda, T. Yukitake, S. Tanaka and H. Asano (Japan)

(6D-4) "Electrostatic Enhancement of a Fabric Filter Baghouse"
W. Humphries, C. Jones, G. Miles and G. Stewart (Australia)

(6D-5) "ULPA-Filter - Mechanically or Electrostatically? A Critical Examination"
D. Cucu and H.J. Lippold (West Germany)

(6D-6) "Fundamental Processes of Fine Particle Collection by Charged Water Droplets"
M. Hara, S. Sumiyoshitani and M. Akazaki (Japan)

(6D-7) "Electro-Dynamic Precipitation: A New Concept for Combined Gas Absorption and Fine Particulate Removal"
J.F. Vicard (France)

Session 8-A Electrostatic Precipitation - Fundamentals

(8A-1) "The Use of Energetic Electrons in a Particle Precharger and in a Sulfur Dioxide Reactor" - Invited
R.H. Davis, J.S. Clements, W.C. Finney (U.S.A.) and A. Mizuno (Japan)

(8A-2) "A Review of Mathematical Models for ESPs and Comparison of Their Successes" - Invited
P. Lawless and L. Sparks (U.S.A.)

(8A-3) "Some Aspects of Efficiency Theory for Electrostatic Precipitators"
T. Yamamoto (U.S.A.)

(8A-4) "Modeling of Corona Quenching Phenomena in Duct-Type Electrostatic Precipitators"
A.A. Elmoursi and G.S.P. Castle (Canada)

(8A-5) "TSDC Measurement of Fly Ashes from Pulverized Coal Combustion"
T. Oda, S. Masuda and T. Fujita (Japan)

(8A-6) "Particle Collection by Electret Fiber"
H. Emi, C. Kanaoka and Y. Otani (Japan)
Session 8-B  Electrostatic Precipitation - Energization

(8B-1) "Improvement of Electrostatic Precipitator Performance with Pulse Energization"
O.D. Sinhuber (West Germany) 557

(8B-2) "Pulse Energization - an Alternative to Conditioning for Highly Resistive Dusts"
K. Darby (U.K.) 575

(8B-3) "Practical Equipment Now Available for Pulse Energization Will Save Energy
and Improve Performance"
K. Porle (Sweden) and Y. Matsui (Japan) 585

(8B-4) "Pulse Charging Characteristics Using Microcomputer Control"
A. Cobley and B. Makin (U.K.) 595

(8B-5) "Influence of Process Parameters on Pulse Enhancement Factors"
H.J. Joergensen, E. Jacobsen and P. Lausen (Denmark) 600

(8B-6) "Study on Optimum Power Supply for an Electrostatic Precipitator"
Zhao Tong-Guang and Ma Hong-Da (China) 608

(8B-7) "Submicrosecond Pulse Energization for Retrofitting Applications"
S. Masuda and S. Hosokawa (Japan) 613

Session 8-C  Aerosol Science and Measurement

(8C-1) "Aerosol Characterization I (State of the Art Review)" - Invited
O. Preining (Austria) 623

(8C-1') "Aerosol Characterization II (A System Analytical Approach for Aerosols in
Industry)" - Invited
O. Preining (Austria) 629

(8C-2) "Real-Time Measurement of Electrostatic Charge and Aerodynamic Diameter of
Aerosol Particles and Its Application to Electrostatic Precipitators and
Electrostatically Enhanced Fabric Filters"
M. Mazumder, R. Ware and J. Wilson (U.S.A.) 634

(8C-4) "Application of Laser Velocimetry to the Analysis of Electrostatic Precipitators"
J. Taillet, C. Pacou, J. Pigère, C. D'Humières, and D. Soulevant (France) 642

(8C-5) "Particulate Charging with Ions Obtained with Vaporizable Aerosol Injection"
J. Taillet (France) 647

(8C-6) "Measurement of Electrostatic Mobility Distribution of Dust Particles in a
Wet-Type Electrostatic Precipitator"
S. Okuda, F. Lee and H. Takano (Japan) 653

(8C-7) "Dust Measurement for Collection Efficiency of Electrostatic Precipitators"
I. Tamori, N. Kogure and K. Imagami (Japan) 661

Session 8-D  Applied Electrostatics

(8D-1) "Development of Electrostatic Research in China"
R. Li (China) 666

(8D-2) "The Influence of Back Ionization on Particle Charging"
A.G. Bailey and S. Singh (U.K.) 670
Electromagnetically Levitated Probe for Space Charge Analysis

N. Murasaki, S. Matsumoto, K. Fujibayashi and M. Matsui (Japan)

Study of Dust Particle Collection Efficiency in DC Co-Flow Type Electrostatic Fluidized Bed Precipitators

S. Ogata (Japan) and J.S. Chang (Canada)

Optimal High Voltage Energization on the Condition of ESP

Yang Yujun (China)

Unipolar Diffusion Charging of Ultrafine Aerosol Particles

M. Adachi, K. Okuyama and Y. Kousaka (Japan)

Session 7-PA/9-PA Electrostatic Precipitation

Research of 3-Stage Wide Interelectrode Spacing Electrostatic Dust Collector Type NKB

Zhu Ke-Ming and Bai Xi-Yao (China)

Study on Checking Open Dust Source by Means of Extra High Voltage Electrostatic Field

Bai Xi-Yao, Wang Xu-Chuan, Lu Shen-Yan, Zhu Yu-Cheng, Jia Feng-Lin, Shi Quang-Xue and Wang Jian-Zhong (China)

The Calculation of Electric Field in an Electrostatic Precipitator

T. Ohkubo, Y. Nomoto, T. Adachi and M. Kawasaki (Japan)

Wet Type Electrostatic Precipitators Installed in Waste Incinerators in Japan

S. Okuda and M. Wada (Japan)

The Experiment of Electrostatic Precipitator with Ultrasonic Agglomeration

T. Nakane, T. Otsuka and K. Seya (Japan)

Collection Efficiency of Size-Fractioned Dusts for Electrostatic Precipitators and Baghouses

M. Samata (Japan)

Estimation Formula for Dust Collection Efficiency in Electrostatic Precipitators

K. Ohtsuka, T. Yukitake, M. Shimoda, H. Asano and H. Yamada (Japan)

Pulse Energization of Precipitators Using Long Corona Transmission Lines

S. Masuda and S. Hosokawa (Japan)

Lateral Propagation of Back Corona and Its Avoidance in Precipitator Operation

S. Masuda, T. Itagaki, S. Kaneko and M. Kubota (Japan)

Effects of Ripples and Polarity in Voltage on Corona V-I Characteristics and Particle Charging in ESP

A. Iijima (Japan)

Flue Gas Conditioning by Gypsum Produced from Lime-Stone Scrubbers

T. Tomita, O. Tanaka and S. Nosu (Japan)

New Features of the Back-Coronas Examined with Electrostatically Accumulated Welding-Fumes

Y. Nagao, T. Takahashi and K. Haga (Japan)

Collection Characteristics of Ash Particles Focussing on Physicochemical Processes in Pulverized Coal Combustion System

K. Okazaki, T. Nishikawa and K. Ohtake (Japan)
Recent Results of Applications of the Moving Electrode Electrostatic Precipitator for Coal Fired Utility Boilers
H. Asano, M. Ootsuka and T. Yano (Japan)

Evaluation of Electrostatic Precipitability of Coal Fly-Ash Using Laboratory Combustor
S. Shibuya, Y. Mochizuki, K. Fukuzawa and H. Asano (Japan)

A Method of Back Corona Detection and Its Application
T. Noda, H. Terai and T. Kameshima (Japan)

Dust Layer on the Discharge Electrode and Enlarged Electrode Spacing
C. Golkowski (Poland)

Field Distribution Characteristics Near Collecting Electrode in Duct Precipitators
Chang Diguang and Sun Biao (China)

Electrical and Collecting Characteristics in a Model ESP Unit
T. Watanabe, Y. Deguchi and M. Yashima (Japan)

A New High Efficiency ESP for Oil Mist
D. Cucu, H.J. Lippold and H. Beständig (West Germany)

Wide Spacing Electrostatic Precipitator for Blast Furnace Gas
T. Kawamura (Japan)

One-Duct-Model Study of Extremely-Wide-Spacing Electrostatic Precipitation for Ion-Ore-Sintering Exhaust Gas
T. Kawamura (Japan)

Are Non-Deutschian Phenomena Required to Explain Wide Spacing?
D.O. Heinrich (U.K.)

High Intensity Charging Device for Carbon Soot Particulates
S. Masuda (Japan) and Jae-Duk Moon (Korea)

Combined Treatment of SO₂ and High Resistivity Fly Ash Using a Pulse Energized Electron Reactor
A. Mizuno (Japan), J.S. Clements and R.H. Davis (U.S.A)

The Influence of Flue Gas Additives on the Electrostatic Precipitation of Fly Ash
J.A. Cross (Australia)

Impulse Energization of Industrial ESP
G. Dinelli and M. Rea (Italy)

Design and Operating Experience of Electrostatic Precipitators for Indian Fly Ash
S. Sekar and T.C. Parthasarathy (India)

Some Space Charge Problems Encountered with Large Electrode Spacing
L. Lindau and S. Matts (Sweden)

Effects of Pulse Energization on Electrical Mechanisms in a Fly Ash Precipitator
J.L. DuBard, W. Piulle and L.E. Sparks (U.S.A.)

Increased Passage Width - Development Steps and Results Achieved with Industrial Installations
G. Mayer-Schwinning (West Germany)

Computer Control System Using Intermittent Emitting
K. Takimoto, T. Hino and S. Mori (Japan)
Session 7-PB/9-PB Electrostatic Augmentation of Mechanical Collection

(PB-1) "Collection Efficiency of Electrostatic Granular Bed Filter with Precharger"
T. Nagayama, M. Watanabe and H. Makino (Japan)

(PB-2) "Agglomeration of Gravel Due to Electric Arc in an Electrostatic Granular Moving-Bed Scrubber in the Presence of Conductive Dust"
L.C. Phan, M.A. Allaire, R. Veillette and M. Dion (Canada)

Session 7-PC/9-PC Aerosol Science and Measurement

(PC-3) "Comparison of Submicron Particle Size Distribution in Flue Gas by Various Instruments"
H. Matsuda, H. Makino and M. Watanabe (Japan)

(PC-5) "Measurement of Charged Particle Velocities in Electrostatic Precipitators"
M. Shimoda, T. Yukitake and K. Ohtsuka (Japan)

(PC-6) "The Charging of Aerosols in Corona Discharge Field"
T. Sato (Japan)

(PC-7) "Measurement and Utilization of Dynamic Properties of Powder Bed"
A. Tanaka (Japan)

(PC-8) "Low Pressure Cascade Impactors for Aerosol Sampling at High Temperatures"
A. Berner and O. Preining (Austria)

Session 7-PD/9-PD Applied Electrostatics

(PD-1) "Electrodynamic Behaviour of Dust Particles within Electric Curtain Field of Plane Type"
Z. Dudzicz (Poland)

(PD-2) "Spontaneous Electrification of Water Spray from a Nozzle Made of Insulator"
N. Murasaki, Y. Suzuki, K. Fujibayashi and M. Matsui (Japan)

(PD-3) "Electrical Properties of Corona Charged Electrets"
T. Oda, N. Hiruma, K. Ueno and S. Masuda (Japan)

(PD-4) "Charge Density Distribution on Surface of Insulator After Electrostatic Discharge"
M. Matsui, N. Murasaki and K. Fujibayashi (Japan)

(PD-5) "New Theoretical Analysis on Currents Induced by a Moving Point Charge among Conductors"
K. Miyoshi, Y. Miyoshi and M. Mizuno (Japan)

(PD-6) "Characteristics of the Positive Corona Sheath in Air - Estimation of the Luminosity Distribution by the Abel Transformation"
Y. Takahashi, S. Kobayashi and T. Kashimura (Japan)

(PD-7) "Discharges on Electrified Polymer Surface"
S. Kobayashi, T. Kouno, S. Matsumoto, Y. Takahashi and H. Saito (Japan)

(PD-8) "Footing Point of the Separating Discharge and Paschen Curve"
S. Kobayashi, T. Kouno, S. Matsumoto, Y. Takahashi and T. Hirano (Japan)

(PD-10) "Influence of Surfactant upon AC Flashover of the Insulator Having a Back-Side Electrode"
Y. Yamano, S. Kobayashi and Y. Takahashi (Japan)
(PD-11) "Charge of Water Drops Dropping in a Nonuniform Electric Field"
N. Yoshida, R. Ishimaru and T. Adachi (Japan)

1054

(PD-12) "Forces Acting on Corona Wire in Parallel Plate Electrode"
M. Kawasaki and M. Akazaki (Japan)

1062

(PD-13) "Experimental Studies on Charge Duality of Dust Particles"
K. Fujibayashi, N. Murasaki and M. Matsui (Japan)

1070

(PD-14) "Development of the Continuous Flocking Machine Using Electric Curtain Panel"
H. Kunisawa and K. Kato (Japan)

1076

(PD-15) "Fishing Tackles Made of Carbon FRP and the Electric Shock"
S. Kobayashi, Y. Takahashi and M. Kobayashi (Japan)

1084

(PD-16) "Computation of Electric Field Lines by Charge Simulation Method"
S. Kato (Japan)

1091

Session 10 Panel Session on Status and Future of Precipitators

Panel Session on Status and Future of Precipitators
S. Oglesby, Jr. (U.S.A.), W. Crandall (U.S.A.), K. Darby (U.K.),
G. Dinelli (Italy), L. Fisher (U.S.A.), J. Lagarias (U.S.A.),
S. Masuda (Japan), S. Orem (U.S.A.), T. Ohtsuka (Japan), E. Potter (Australia)
G. Preston (U.S.A.)
