# TABLE OF CONTENTS

**SP-320-1**  
Activated Hybrid Cementitious System, a Green Alternative for Concrete Production . . . 1  
Authors: Diego Velandia, Cyril Lynsdale, John L. Provis, and Fernando Ramirez

**SP-320-2**  
Preferable Use of Hybrid Cement in Concrete Intended for Industrial Applications . . . 11  
Authors: I. Janotka, P. Martauz, and Michal Bačuvčík

**SP-320-3**  
Low-Energy Alinite Cement from Soda Sludge Waste . . . 24  
Authors: Gültekin O. Uçal, Mahdi Mahyar, Mustafa Tokyay, and Ismail Ö. Yaman

**SP-320-4**  
Reuse of Ceramic Industry Sludge as a Component in Cement-Based Materials . . . 32  
Authors: M.I. Sánchez De Rojas, M. Frias, E. Sabador, C. Medina, E. Asensio, and J. Rivera

**SP-320-5**  
Effects of Sol-Gel Derived Nano-Silica Suspensions in Cement Paste . . . 50  
Authors: Dulani P. A. Kodippili, Ehsan Rezabeigi, Michelle R. Nokken, and Robin Drew

**SP-320-6**  
Rheological Behaviour of Alkali-Activated Slag Concrete . . . 60  
Authors: Francisca Puertas, María Del Mar Alonso, Manuel Torres-Carrasco, Belen González Fonteboa, Iris González Taboada, Gemma Rojo, and Fernando Martínez-Abella

**SP-320-7**  
Performance and Properties of Concrete Made with Calcined Clays . . . 72  
Authors: Nancy Beuntner and Karl-Christian Thienen

**SP-320-8**  
Mitigation of Microcracking in Alkali-Activated Combined Slag and Fly Ash Concretes for Good Performance in Winter Conditions . . . 83  
Authors: Alexandre Rodrigue, Josée Duchesne, Benoit Fournier, and Benoit Bissonnette

**SP-320-9**  
New Additions for the Design of Eco-Efficient Cements. Analysis of Pozzolanic Reaction Kinetics . . . 96  
Authors: Gabriel Medina, José María Medina, Isabel Sáez Del Bosque, Moisés Frías, María Isabel Sánchez De Rojas, and César Medina

**SP-320-10**  
Drying Shrinkage in Alkali Activated Class C Fly Ash Mortars and the Mitigation Methods . . . 109  
Authors: Darshan Ballekere Kumarappa, Chathurani Chandrasiri, and Sulapha Peethamparan

**SP-320-11**  
Durability Properties of Fly Ash Blended Cement Concrete in Inland Environment . . . 120  
Authors: Yunusa A. Alhassan and Yunus Ballim

**SP-320-12**  
Influence of Supplementary Cementitious Materials on the Autogenous Self-Healing of Cracks in Cementitious Materials . . . 130  
Authors: Imane Salama, Benoit Hilloul, Sonagon Medjigbodo, and Ahmed Loukili
SP-320-13
Performances of Hemp Concretes: from Microscopic to Functional Properties . . . 144
Authors: Guillaume Delannoy, Sandrine Marceau, Philippe Glez, Etienne Gourlay, Marielle Guéguen-Minerbe, Dinarzed Diafi, Issam Nour, Sofiane Amziane, and Fabienne Farcas

SP-320-14
New Insights into the Retarding Effect of Aluminates on C₃S Hydration . . . 155
Authors: E. Pustovgar, M. Palacios, J.-B. D’espineose De Lacalleirle, T. Matschei, N. Ruffray, R. Verel, and R.J. Flat

SP-320-15
Influence of Pozzolanic Materials on the Hydration of Calcium Sulfoaluminate Cements . . . 167
Authors: Frank Winnefeld, Lukas H.J. Martin, Elsa Tschopp, Christian J. Müller, and Barbara Lothenbach

SP-320-16
Chloride Ingress in Concrete Containing GGBF Slag or Fly Ash . . . 179
Authors: Eisuke Nakamura and Hirohisa Koga

SP-320-17
Modelling of Temperature-Dependent Pozzolanic Reaction of Low-Calcium Fly Ash in Blended Cement Paste . . . 189
Authors: Tiao Wang, Tetsuya Ishida, and Yuya Takahashi

SP-320-18
Corrosion Resistance of Concrete Incorporating Supplementary Cementing Materials in a Marine Environment . . . 203
Authors: Andrew Fahim, Edward G. Moffatt, and Michael D.A. Thomas

SP-320-19
Environmental Benefits of Using Glass Powder in Manhole Production . . . 217

SP-320-20
Effects of Ternary Cements with Limestone Filler on DEF in Concrete . . . 230
Authors: Yasser Amine, Nordine Leklou, and Ouali Amiri

SP-320-21
Carbonation-Activated Steel Slag Binder As Alternative Cementing Material . . . 243
Authors: Yixin Shao, Mehrdad Mahoutian, and Zaid Ghouleh

SP-320-22
A New Generation of Micro-Particulate-Based Admixtures for Concrete . . . 257
Authors: Paul H. Seiler, Christopher Eagon, Frank S. Ong, Stephen A. Farrington, and Van Bui

SP-320-23
Assessing the Autogenous Shrinkage of Alkali-Activated Slag/Fly Ash Mortar Blends . . . 272
Authors: Siva Uppalapati and Özlem Cizer

SP-320-24
Properties of Self-Compacting Concrete with Natural and Synthetic Fibers . . . 284
Authors: Tahar Tioua, Abdelouahed Kriker, Abderrahim Bali, Gonzalo Barluenga, and Mourad Behim

SP-320-25
The Role of Surface Area and Compacity of Nanoparticles on the Rheology of Cement Paste . . . 293
Authors: Oscar A. Mendoza Reales, Emilio C. C. M. Silva, Maria D. M. Paiva, Pedro Duda, and Romildo Dias Toledo Filho
SP-320-26
Comparison of Three Plasticizers in Carbonate-Activated Slag Concrete...306
Author: Rolf Andreas Lauten

SP-320-27
Mixture Proportions of Concrete with Dredging Sediments as Novel SCM...316
Authors: Céline Van Bunderen, Ruben Snellings, Liesbeth Horckmans, Lucie Vandewalle, and Özlem Cizer

SP-320-28
Monitoring the Hydration of Cementitious Material by Acoustic Emission...326
Authors: Evin Dildar Dzaye, Geert De Schutter, and Dimitrios Aggelis

SP-320-29
Chemo-Mechanical Properties of Cement Matrices with Fly Ash and Slag...336
Authors: William Wilson, Luca Sorelli, and Arezki Tagnit-Hamou

SP-320-30
Effects of Pre-Hydration on Compressive Strength of Quaternary Binders...349
Authors: Suguru Goto, Thomas A. Bier, Keisuke Takahashi, and Tetsuhiro Sakai

SP-320-31
Degree of Fly Ash Reaction in Internally Alkali-Activated Cement Paste...361
Authors: Phuong Trinh Bui, Yuko Ogawa, Kenichiro Nakarai, and Kenji Kawai

SP-320-32
Metakaolin-Based Geopolymer Concretes: From Dry to Fluid Concretes...374
Authors: Raphaëlle Pouhet and Martin Cyr

SP-320-33
Investigating the Feasibility of Using Reclaimed and Remediated Fly Ashes as Class F Fly Ash Alternatives...394
Authors: Raissa Ferron, Ryan Kalina, Saif Al-Shmaisani, and Maria Juenger

SP-320-34
Potential for Using Waste Recycled Glass in Engineered Cementitious Composites...408
Authors: Hocine Siad, Mohamed Lachemi, Mustafa Sahmaran, and K. M Hossain

SP-320-35
Suitability of Alkali Activated GGBS/Fly Ash Concrete for Chloride Environments...421
Authors: Dali Bondar, Sreerjith V. Nanukuttan, Marios N. Soutsos, P.A. Muhammed Basheer, and John L. Provis

SP-320-36
Factors Controlling Carbonation Resistance of Alkali-Activated Materials...435
Authors: Susan A. Bernal, Xinyuan Ke, Maria Criado, Shishir Mundra, and John L. Provis

SP-320-37
Alkali-Activated Cementitious Materials and Concretes – Steps Towards Standardization...444
Author: John L. Provis

SP-320-38
Development of Test Methods and Specifications for Chemically Activated Binders...449
Authors: R. Douglas Hooton, Lawrence Sutter, and Mary Christiansen

SP-320-39
Isothermal Calorimetry Investigation of Slag Activation...461
Authors: Qiwei C. Nowasell, Ray B. Henderson, and John T. Kevern

SP-320-40
Industrial Production and Use of a Portland Calcined Clay Limestone Cement...474
Authors: Fernando Martirena and Karen Scrivener
Towards a Service Life Prediction System of Concrete Structures Based on a Neural-Computing Approach

Authors: Bakhta Boukhatem, Arezki Tagnit-Hamou, Mohamed Chekired, and Mohamed Ghrici

Large Amplitude Oscillatory Shear Protocol Applied to Cement-Based Materials

Authors: Théau Conte and Mohend Chaouche

Delayed Ettringite Formation in Concrete Containing Limestone Filler

Authors: Mohammad A. Aqel and Daman K. Panesar

Geopolymers Cured at Ambient Temperatures

Authors: Daniela Hesselbarth, Thomas Moser, and Jürg Sturzenegger

Effect of Glass Powder (GP) on the Pore Solution of Cement Pastes

Authors: Isabelle Fily-Paré, Benoît Fournier, Josée Duchesne, and Arezki Tagnit-Hamou

Optimization Performance of High Volume Fly Ash Self-Consolidating Mixtures with Hydrated Lime (Mortar Component)

Authors: Hayder Alghazali and John J. Myers

Thermal Behaviour of High Volume Fly Ash Concrete and Its Temperature Simulation

Authors: Peter G. Gaunt, Mathew K.R. Versfeld, André Ferreira, and Stephen O. Ekolu

Influence of Lime on the Properties of Cement-Based Materials

Authors: Reda Jaafri, Abdellilah Aboulayt, Syed-Yasir Alam, Emmanuel Roziere, and Ahmed Loukili

GGBS Cements Activated by Chloride: Hydration and Corrosion Potential

Authors: Laurent Steger, Bernard Salesses, Cédric Patapy, Mohend Chaouche, Laurent Frouin, and Martin Cyr

Prediction of Hemp Concrete Morphological Deformation by X-ray Tomography

Authors: Kamilia Abahri, Chady El Hachem, Fares Bennai, Ngoc Toan, and Rafik Belarbi
