# Contents

## Gamification and Learning

Assessing Gamification Effects on E-learning Platforms: An Experimental Case ................................................................. 3  
*Katherine Andrea Cuartas Castro, Ingrid Paola Hernández Sibo, and I-hsien Ting*

Improving Business Process Management Competencies by Applying Gamification Aspects in Teaching Bachelor Students .......... 15  
*Christian Ploder, Reinhard Bernsteiner, and Stephan Schlögl*

Student’s Perceptions of Cyberbullying in the Context of Cyberbullying Criteria and Types: The Role of Age .................. 24  
*Piret Luik and Karin Naruskov*

Use of *Kahoot* and *EdPuzzle* by Smartphone in the Classroom: The Design of a Methodological Proposal ..................... 37  
*Lara Orcos Palma, Pedro J. Blázquez Tobías, Marta Curto Prieto, Francisco Javier Molina León, and Ángel Alberto Magreñán Ruiz*

Impact of an Introductory ERP Simulation Game on the Students’ Perception of SAP Usability ........................................... 48  
*Alen Rajšp, Paul Wu Horng-Jyh, Tina Beranić, and Marjan Heričko*

## Learning and Knowledge Transfer

Source Code Representations for Plagiarism Detection. ................................. 61  
*Míchal Ďuračík, Emil Kršák, and Patrik Hrkút*

Digital Technologies Applied to Textual Reading and Understanding in English: A Practical Approach Using Kahoot ..................... 70  
*Vanessa Lauermann and Débora N. F. Barbosa*

A Competence Framework for Open Educational Resources: The Case of the Public Sector. .............................................. 80  
*Franziska Voß, Thomas De Fries, Sabine Möbs, Jan M. Pawlowski, Celina Raffl, and Julia Stoffregen*

Business Students’ Experience with Peer Grading ........................................... 93  
*Viktorija Florjančič*
Citation Function Classification Based on Ontologies and Convolutional Neural Networks ........................................ 105
  Khadidja Bakhti, Zhendong Niu, Abdallah Yousif, and Ally S. Nyamawe

Training Teacher in the Generation of Knowledge in Higher Education: b-Learning Teacher to Prosumer Teacher .......................... 116
  Leonardo Emiro Contreras Bravo, Karolina González Guerrero, and Luis Fernando Vargas Tamayo

Learning Technologies Applications

EDMODO: Experiencing a Global Education Network ......................... 131
  Ángela Musskopf and Débora Nice Ferrari Barbosa

Try to See It My Way - How Students View the Use of Lecture Capture. .... 142
  Jane Sinclair and Anne-Maria Aho

Learning System Development: A Review of Approaches to Rethink Learning in Different Contexts ................................. 155
  Sabine Siemsen and Marja Naaranoja

Design and Application of a Creative Strategy Based on the Method of Problem-Based Learning (PBL) in Engineering Students ...................... 168
  Leonardo Emiro Contreras Bravo, Giovanny Mauricio Tarazona Bermudez, and José Ignacio Rodríguez Molano

Computer-Based Accessible Testing System for Students with Visual Impairments and Learning Disabilities .......................... 181
  Waseem Sheikh

Virtual Learning Environments

How to Create an Adaptive Learning Environment by Means of Virtual Organizations .......................................................... 199
  Sara Rodríguez, Cecilia Giuffra Palomino, Pablo Chamoso, Ricardo Azambuja Silveira, and Juan M. Corchado

Designing a Conceptual Framework to Enhance Teacher Professional Development in a 3D VLE ................................................. 213
  Evripidis Koltsiakis, Fotini Paraskeva, and Hara Bouta

A Motivational Design of a Flipped Classroom on Collaborative Programming and STEAM ............................................. 226
  Vasiliki Karampa and Fotini Paraskeva
An Experience Using Educational Data Mining and Machine Learning Towards a Full Engagement Educational Framework ............................................ 239
  Héctor R. Amado-Salvatierra and Rocael Hernández Rizzardini

ICT Skills in University Teachers, the Knowledge, Use and Pedagogical Appropriation of These Technologies .......................................................... 249
  Ángela Patricia Manrique Barrera, Ariel Adolfo Rodríguez Hernández, and Jorge Enrique Otalora Luna

SWEBOK – Based Process for the Teaching and Learning of Requirements Engineering ................................................................. 260
  Andrea Alarcón-Aldana, Mauro Callejas-Cuervo, and Jorge Otálora-Luna

Mobile Learning and Moocs

The Impact of Mobile Device Use ................................................................. 275
  D'Arcy Becker, Aimee Pernsteiner, and Dawna Drum

Adaptation of an Educational Exergame to Mobile Platforms: A Development Process ................................................................. 287
  Débora Nice Ferrari Barbosa, Jorge Luis Victória Barbosa, João Batista Mossman, Bernardo Benites de Cerqueira, and Lucas Schneider Postai

Adults’ Perception of MOOC as Part of a Constellation of Cultural Experiences ................................................................. 299
  Rita Bencivenga

Author Index .................................................................................. 311
