

Applications of Multiple Scattering Theory to Materials Science

Symposium held December 2-5, 1991, Boston, Massachusetts, U.S.A.

EDITORS:

W.H. Butler

Oak Ridge National Laboratory, Oak Ridge, Tennessee, U.S.A.

P.H. Dederichs

KFA Institut für Festkörperforschung, Jülich, Germany

A. Gonis

Lawrence Livermore National Laboratory, Livermore, California, U.S.A.

R.L. Weaver

University of Illinois, Urbana, Illinois, U.S.A.

MATERIALS RESEARCH SOCIETY
Pittsburgh, Pennsylvania

Contents

PREFACE	xii
MATERIALS RESEARCH SOCIETY SYMPOSIUM PROCEEDINGS	xii

PART I: HISTORY AND FOUNDATIONS OF MULTIPLE SCATTERING THEORY

*TRANSFER OF CLASSICAL MULTIPLE SCATTERING THEORY TO QUANTAL MULTIPLE SCATTERING THEORY J. Korringa	3
*MULTIPLE SCATTERING OF ELECTRONS IN CONDENSED MATTER PHYSICS: AN OVERVIEW B.L. Gyorffy	5
*EXPERIENCES WITH THE QUADRATIC KORRINGA-KOHN-ROSTOKER BAND THEORY METHOD J.S. Faulkner	27
*THE MUFFIN-TIN-ORBITAL POINT OF VIEW O.K. Andersen, A.V. Postnikov, and S. Yu. Savrasov	37
*THE APPLICATION OF SCATTERING THEORY TO THE EVALUATION OF CORRELATION FUNCTIONS H. Winter, Z. Szotek, and W.M. Temmerman	71
FULL POTENTIAL ELECTRONIC STRUCTURE CALCULATIONS AND THE CONCEPT OF STRESS FIELDS AND ENERGY DENSITIES FOR TOTAL ENERGY CALCULATIONS P. Ziesche	85
THE WAVE FUNCTION IN MULTIPLE SCATTERING THEORY W.H. Butler and X.-G. Zhang	89

PART II: CLASSICAL APPLICATIONS OF MULTIPLE SCATTERING THEORY

CLASSICAL APPLICATIONS OF MULTIPLE SCATTERING THEORY, AN OVERVIEW Richard L. Weaver	99
*TWO METHODS FOR ANALYZING WAVES IN COMPOSITES WITH RANDOM MICROSTRUCTURE John R. Willis	101
*EFFECTIVE PROPERTIES OF DISCRETE RANDOM COMPOSITES WHEREIN THE HOST AND INCLUSION PHASES OBEY DIFFERENT CONSTITUTIVE RELATIONS V.V. Varadan, R.T. Apparao, and V.K. Varadan	113
DIELECTRIC RESPONSE OF A CHAIN OF DISORDERED POLARIZABLE SPHERES: NUMERICAL SIMULATION AND THEORY Pedro Villaseñor-Gonzalez, Cecilia Noguez, and Ruben G. Barrera	123

*Invited Paper

EFFECTIVE DIELECTRIC FUNCTION OF A COMPOSITE WITH ALIGNED SPHEROIDAL INCLUSIONS	129
Ruben G. Barrera, Jairo Giraldo, and W. Luis Mochan	
EFFECTS OF MULTIPLE SCATTERING ON ULTRASONIC VELOCITY, ATTENUATION AND BACKSCATTERING NOISE IN POLYCRYSTALS	135
R. Bruce Thompson, James H. Rose, and S. Ahmed	
MULTIPLY SCATTERED AND DIFFUSING ULTRASOUND: APPLICATIONS, EXPERIMENTS, THEORY	141
Richard L. Weaver	

PART III: FULL POTENTIAL MULTIPLE SCATTERING THEORY

MULTIPLE SCATTERING THEORY WITH SPACE FILLING POTENTIALS	149
W.H. Butler	
*VARIATIONAL PRINCIPLES FOR FULL-POTENTIAL MULTIPLE SCATTERING THEORY	153
R.K. Nesbet	
*KORRINGA-KOHN-ROSTOKER ELECTRONIC STRUCTURE METHOD FOR SPACE-FILLING CELL POTENTIALS	159
A. Gonis, W.H. Butler, and X.-G. Zhang	
MULTIPOLAR EXPANSIONS FOR MULTIPLE SCATTERING THEORY	173
R.G. Brown and M. Ciftan	
*A FULL-POTENTIAL KKR GREEN'S FUNCTION METHOD FOR IMPURITIES IN METALS	185
P.H. Dederichs, B. Drittler, and R. Zeller	
SOLUTION OF THE SINGLE-SITE ASPHERICAL SCATTERING PROBLEM FOR THE DIRAC EQUATION	199
Stephen C. Lovatt, B.L. Gyorffy, and Guang-Yu Guo	
THE GREEN FUNCTION CELLULAR METHOD AND ITS RELATION TO MULTIPLE SCATTERING THEORY	205
W.H. Butler, X.-G. Zhang, and A. Gonis	
RELATIVISTIC MULTIPLE SCATTERING THEORY FOR SPACE FILLING POTENTIALS	211
Xindong Wang, X.-G. Zhang, W.H. Butler, B.N. Harmon, and G.M. Stocks	

PART IV: APPLICATIONS OF MULTIPLE SCATTERING THEORY TO ALLOYS

ALLOY THEORY THROUGH THE AGES	219
A. Gonis	
SELF-CONSISTENT-FIELD KKR-CPA CALCULATIONS IN THE ATOMIC-SPHERE APPROXIMATIONS	221
Prabhakar P. Singh, A. Gonis, and Didier de Fontaine	
*REAL SPACE MULTIPLE SCATTERING DESCRIPTION OF ALLOY PHASE STABILITY	227
P.E.A. Turchi and M. Sluiter	

*Invited Paper

GROUND STATE SEARCHES IN FCC INTERMETALLICS C. Wolverton, G. Ceder, D. de Fontaine, and H. Dreysse	243
*AB INITIO-CALCULATIONS OF RESIDUAL RESISTIVITIES FOR DILUTE Ni-ALLOYS I. Mertig, R. Zeller, and P.H. Dederichs	249
MULTIPLE SCATTERING THEORY, A SUCCESSFUL APPROACH TOWARDS ELECTROMIGRATION J. van Ek and A. Lodder	259
*FIRST PRINCIPLES CALCULATION OF RESIDUAL RESISTIVITY D.M. Nicholson, R.H. Brown, W.H. Butler, H. Yang, J.W. Swihart, P.B. Allen, A. Mehta, and L.M. Schwartz	269
*COMPOSITIONAL DISORDER, MAGNETISM, AND THEIR INTERPLAY IN METALLIC ALLOYS D.D. Johnson, J.B. Staunton, F.J. Pinski, B.L. Gyorffy, and G.M. Stocks	277
COMPARISON OF Ni-Pt AND Co-Pt ALLOYS AIDED BY MULTIPLE- SCATTERING CALCULATIONS OF LOCAL ELECTRONIC STRUCTURE Alejandro Pisanty, Miguel Angel Martinez-Carrillo, and Carlos Amador	291
PHASE DIAGRAM OF Ni-Pt FROM LINEAR MUFFIN-TIN ORBITALS TOTAL ENERGY CALCULATIONS C. Amador, W.R.L. Lambrecht, and B. Segall	297

PART V: RELATIVISTIC MULTIPLE SCATTERING THEORY

RELATIVISTIC MULTIPLE SCATTERING THEORY B.L. Gyorffy	305
*SPIN POLARISED RELATIVISTIC KKR J.B. Staunton, M. Matsumoto, and P. Strange	309
A MULTI-ATOM, SELF-CONSISTENT, RELATIVISTIC KKR ELECTRONIC STRUCTURE PROGRAM: NUMERICAL ASPECTS AND APPLICATIONS G.Y. Guo and W.M. Temmerman	317
CALCULATIONS OF SPIN-WAVE ENERGY GAP IN TRANSITION METALS V.P. Antropov and A.I. Liechtenstein	325
*SPIN-POLARIZED RELATIVISTIC BAND STRUCTURE CALCULATIONS FOR DILUTE AND CONCENTRATED DISORDERED ALLOYS H. Ebert and H. Akai	329
IMPLICATIONS AND APPLICATIONS OF RELATIVISTIC SPIN-POLARIZED MULTIPLE SCATTERING G. Hörmandinger and P. Weinberger	341
FULLY RELATIVISTIC LAYER-KKR GREEN FUNCTION THEORY AND ITS APPLICATION TO SPIN-POLARIZED PHOTOEMISSION Eiiti Tamura	347

PART VI: APPLICATION OF MST TO SURFACES AND EXTENDED DEFECTS

APPLICATION OF MULTIPLE SCATTERING THEORY TO SURFACES AND EXTENDED DEFECTS Bernard R. Cooper	355
--	-----

*Invited Paper

*A FULL-POTENTIAL KKR-GREEN'S FUNCTION METHOD TO CALCULATE THE ELECTRONIC STRUCTURE OF SURFACES R. Zeller, P. Lang, B. Drittler, and P.H. Dederichs	357
EFFECTIVE CLUSTER INTERACTIONS AT DISORDERED SURFACES V. Drchal, J. Kudrnovsky, L. Udvardi, P. Weinberger, and A. Pasturel	369
FULL-POTENTIAL LMTO CALCULATION OF BRITTLE FRACTURE IN TITANIUM CARBIDE D.L. Price and B.R. Cooper	375
CAN POLAR INTERFACE ENERGIES BE CALCULATED BY MEANS OF SUPERCELLS? W.R.L. Lambrecht, C. Amador, and B. Segall	381
ELECTRONIC STRUCTURE OF PLANAR FAULTS AND POINT DEFECTS IN HIGH TEMPERATURE INTERMETALLICS J.M. MacLaren and C. Woodward	387
*REAL-SPACE MULTIPLE SCATTERING THEORY METHOD: FORMALISM AND APPLICATIONS X.-G. Zhang	393
SELF-CONSISTENT ELECTRONIC-STRUCTURE CALCULATIONS FOR INTERFACE GEOMETRIES Erik C. Sowa, J.M. MacLaren, X.-G. Zhang, and A. Gonis	405
LIE GROUP CALCULATION OF THE GREEN FUNCTION OF DISORDERED SYSTEMS Christian Brouder	411
PART VII: SCATTERING AND MULTIPLE SCATTERING	
SCATTERING AND MULTIPLE SCATTERING IN DISORDERED MATERIALS, AN OVERVIEW Richard L. Weaver and W.H. Butler	419
*DIFFUSING WAVE SPECTROSCOPY: THE DYNAMICS OF MULTIPLY SCATTERING MEDIA D.A. Weitz, D.J. Pine, D.J. Durian, and J.X. Zhu	421
*WAVE PROPAGATION IN DISPERSED RANDOM MEDIA Ping Sheng, Xiaodun Jing, and Minyao Zhou	423
OBSERVATION OF ELASTIC WAVE LOCALIZATION Ling Ye, George Cody, Minyao Zhou, Ping Sheng, and Andrew Norris	435
*COMPLEX GEOMETRY AND ELECTRIC DOUBLE LAYERS Bertrand Duplantier	441
OPTICAL RESPONSE OF ROUGH METAL SURFACES AND ISLAND FILMS M. Urbakh	451
PART VIII: APPLICATION OF MST TO LEED, PHOTOEMISSION AND SPECTROSCOPIES	
*A SIMPLE DERIVATION OF THE LAYER-KKR THEORY OF LEED P.M. Marcus	459

*Invited Paper

*ADVANCED MULTIPLE SCATTERING THEORIES OF LOW-ENERGY ELECTRON DIFFRACTION (LEED) M.A. Van Hove	471
MULTIPLE SCATTERING CALCULATIONS APPLIED TO XAS: A STRUCTURE AND ELECTRONIC SENSITIVE TOOL Philippe Sainctavit and J. Petiau	483
*APPLICATIONS OF MULTIPLE SCATTERING THEORY TO ELECTRON SPECTROSCOPY P.J. Durham	489
PHOTOEMISSION OF Co/Cu(100). NON-RELATIVISTIC SPIN- AND ANGLE-RESOLVED NORMAL EMISSION R. Schneeweiss, U. König, J. Redinger, P. Weinberger, C.M. Schneider, and J. Kirschner	499
*CHARGE AND SPIN SELFCONSISTENT KKR-CPA METHODOLOGY FOR COMPLEX MULTI-COMPONENT ALLOYS A. Bansil, S. Kaprzyk, and J. Tobola	505
FIRST-PRINCIPLES ANGLE-RESOLVED PHOTOEMISSION INTENSITY CALCULATIONS IN $\text{YBa}_2\text{Cu}_3\text{O}_7$ M. Lindroos, A. Bansil, and J.C. Campuzano	519
POSITRON 2D-ACAR EXPERIMENTS AND ELECTRON-POSITRON MOMENTUM DENSITY IN $\text{YBa}_2\text{Cu}_3\text{O}_{7-x}$ L.C. Smedskjaer, A. Bansil, U. Welp, Y. Fang, and K.G. Bailey	525
AUTHOR INDEX	531
SUBJECT INDEX	533

*Invited Paper
