

DESIGN OF WATER QUALITY INFORMATION SYSTEMS

Edited by

Robert C. Ward
Jim C. Loftis
Graham B. McBride

Proceedings of an International Symposium

held at

Fort Collins, Colorado, U.S.A.

June 7-9, 1989

Sponsored by

COLORADO STATE UNIVERSITY

U. S. ENVIRONMENTAL PROTECTION AGENCY

in cooperation with

American Geophysical Union
American Water Resources Association
International Association of Hydrological Sciences
National Water Well Association
Water Pollution Control Federation

UB/TIB Hannover 89
111 863 996

Opening Session

| | |
|---|---|
| Welcome - Neil Grigg, Director, Colorado Water Resources Research Institute, Fort Collins, CO | 2 |
| Opening Remarks - Robert Ward, Colorado State University, Fort Collins, CO | 5 |
| Keynote Address - Marshall Moss, Hydrologist, National Research Program, USGS, Tucson, AZ | |
| <i>Water Quality Data in the Information Age - How Far Have We Come and Where Are We Going?</i> | 8 |

Response

| | |
|--|----|
| Jay Messer, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, USA | |
| <i>Why Monitor?</i> | 16 |
| Harry Bell, IBM, Corporation, East Fishkill, N.Y. USA | |
| <i>Water Quality Information Systems: Past, Present and Future - An Industrial Perspective</i> | 22 |
| Douglas Bloem, City of Portland, Portland, Oregon USA | |
| <i>Evolution of a Water Utility's Water Quality Information System</i> | 29 |

Systematic Approaches to Monitoring System Design

| | |
|--|----|
| <i>A Systems Approach to Design</i> - Robert Ward, Colorado State University, Fort Collins, Colorado, USA | 37 |
| <i>Water Quality Branch Monitoring Activities: A Dynamic Approach to Evolving Issues</i> - T. J. Dafoe, Environment Canada, Ottawa, Ontario, Canada | 47 |
| <i>Reasons We Should (But Often Don't) Use Monitoring Information in EPA/State Surface Water Quality Programs</i> - Wayne Praskins, U.S. Environmental Protection Agency, Washington, D.C., USA | 54 |

| | |
|---|----|
| <i>Initiation of a National Water Quality Monitoring Network for New Zealand -</i> D. G. Smith and G. B. McBride, Water Quality Center, Hamilton, New Zealand | 59 |
| <i>Water Quality Monitoring System in Queensland -</i> W.A. Poplawski and A. McNeil, Water Resource Commission, Queensland, Australia | 73 |

Statistical Aspects of Monitoring System Design

| | |
|---|-----|
| <i>Use of Distribution Plots and Trend Analyses to Evaluate Sampling Frequency</i> <i>at Water-Quality Monitoring Sites -</i> David Mueller, U.S. Geological Survey, Lakewood, Colorado, USA | 88 |
| <i>Survey Design and Interpretation of Results in Illinois Groundwater Studies -</i> Susan C. Schock, Illinois State Water Survey and Edward Mehnert and Dennis McKenna, Illinois State Geological Survey, Champaign, Illinois, USA | 105 |
| <i>Determining and Increasing the Statistical Sensitivity of Nonpoint Source</i> <i>Control Grab Sample Monitoring Programs -</i> J. Spooner, D. Dickey, L. Nelson and J. Gilliam, North Carolina State University, Raleigh, North Carolina, USA | 119 |
| <i>Determination of Sampling Frequency for Pollutant Load Estimation Using</i> <i>Flow Information Only -</i> Peter Richards, Heidelberg College, Tiffin, Ohio, USA | 136 |
| <i>Methodology for the Planning and Operation of a Water Quality Network</i> <i>with Temporal and Spatial Objectives: Application to Acid Lakes</i> <i>in Quebec -</i> Marius Lachance and B. Bobee, INRS-Eau, University of Quebec, Quebec, Canada and J. Haemmerli, Inland Waters, Environment Canada, Quebec, Canada | 145 |
| <i>Regional Surface Water Quality Characteristics of Nebraska -</i> Norman Crisp, U.S. Environmental Protection Agency, Region VII, Kansas City, Kansas, USA | 163 |

Ensuring Adequacy of Data Records for Statistical Analysis

| | |
|--|-----|
| <i>Quality Control in the analysis of Trace Metals in Groundwater:</i> <i>A Case Study from Lake Tyrrell Region, Victoria, Australia -</i> W.B. Lyons and Susan Welch, Univ. of New Hampshire, Durham, New Hampshire; David Long, Michigan State Univ., East Lansing, Michigan; Mark Hines, Univ. of New Hampshire; and P.G. Macumber, State of Victoria, Melbourne, Victoria, Australia | 178 |
|--|-----|

| | |
|---|------|
| <i>Water Quality Monitoring: Methods for System Error -</i> Steve Porter, University of Florida, Belle Glade, Florida; and Robert Ward, Colorado State University, Fort Collins, Colorado, USA | .188 |
| <i>Laboratory Information Management: An Integral Part of Water Quality Monitoring Systems -</i> Henk van Vliet, Hydrological Research Institute, Pretoria; and Pauline Albertyn, BSW-DATA, Sandton, South Africa | .212 |
| <i>Groundwater Quality Information System --</i> Arun Deb, Shi-Tao and Anthony Kreamer, Weston, West Chester, Pennsylvania, USA | .222 |
| <i>Overcoming Technological Difficulties in Continuous Water Quality Monitoring -</i> Michael Enos, Brad Piehl, Richard Spotts, and Douglas Greer, Riverside Technology, Inc., Fort Collins, Colorado, USA | .231 |

Managing Water Quality Data Records on Computers

| | |
|--|------|
| <i>Illinois Water Inventory Program -</i> James Kirk, Illinois State Water Survey, Champaign, Illinois, USA | .243 |
| <i>NAQUADAT, A Redesigned Data Base -</i> Peter Brooksbank, Environment Canada, Ottawa, Canada | .251 |
| <i>Overview of Water Quality Information Systems from a Steering Committee Perspective -</i> Rod Frederick, U.S. Environmental Protection Agency, Washington, D.C., USA | .263 |
| <i>Analysis and Integration of Ecological monitoring Data -</i> Edward Barrows, NSI Technology Services Corporation, Research Triangle Park, North Carolina, USA | .276 |

Managing Data/Reporting Information

| | |
|---|------|
| <i>Data Management for a Federal Superfund Site: A Practical Perspective -</i> Jonathon Goldman, Kennedy/Jenks/Chilton, Inc., San Francisco, California, USA | .288 |
| <i>Data Management System in Support of a Ground Water Remediation Program -</i> Lisa Riedle and Gregg Gibbons, RMT, Inc., Greenville, South Carolina, USA | .294 |
| <i>Managing Data from a Large-scale Groundwater Monitoring Program -</i> Robert Lorenz, E.I. du Pont de Nemours and Company, Aiken, South Carolina and William Fay, Exploration Software, Athens, Georgia, USA | .309 |

| | |
|---|--------------|
| <i>Computerized Urban Runoff Water-Quality Data Handling begins with Electronic Data Collection and Laboratory Reporting --</i> James Kunkel and Tim Steele, In-Situ, Inc., Lakewood, Colorado, USA |318 |
|---|--------------|

Banquet Address

| | |
|--|--------------|
| Speaker: John Cairns, Jr., University Distinguished Professor and Director, University Center for Envr. and Hazardous Materials Studies, VPI, Blacksburg, Virginia, USA | |
| <i>Management of Water Eco-Systems as Quality Control Units</i> |338 |

Data Analysis

| | |
|---|--------------|
| <i>The Bull Run Watershed as a Water Quality Information System -</i> Ruth Tracy and Bruce McCammon, U.S. Forest Service, Troutdale, Oregon, USA |348 |
| <i>A Groundwater Monitoring Program for the Santa Cruz River, Pima County, Arizona - Phillip Patterson, David Eaker and David Esposito, Pima County, Tucson, Arizona, USA</i> |354 |
| <i>WQSTAT II: A Data Analysis Software Package Developed for Water Quality Data - Jim Loftis, Colorado State University, Fort Collins, Colorado, USA</i> |363 |

Case Studies

| | |
|--|--------------|
| <i>The Development and Implementation of an Investigation into the Source and Extent of Sediment Contamination in an Isolated Arm of Lake Turman, Missouri - K.D. Lawrence, Tom Holloway, N.H. Crisp and J.E. Joslin, U.S. Environmental Protection Agency, Region VII, Kansas City, Kansas, USA</i> |367 |
| <i>GIS Applications in Management of Non-Point Source Control Programs -</i> Carol Cox Russell, Arizona Department of Environmental Quality, Phoenix, Arizona, USA |382 |
| <i>An Estuarine Water Quality Information System - Robert Magnien and Michael Haire, Maryland Department of the Environment, Baltimore, Maryland, USA</i> |387 |
| <i>Development and Implementation of Design Procedures for Environmental Monitoring Systems -- Tom Greengard, Rockwell International, Golden, Colorado, USA</i> |399 |

Case Study - The TIME Project

- *The TIME Project: An Overview* -- Alison K. Pollack, Systems Applications, Inc., San Rafael, California, and Jesse Ford, U.S. Environmental Protection Agency, Corvallis, Oregon, USA 413
- *Site Selection Procedures for Temporally Integrated Monitoring of Ecosystems (TIME)* - T.C. Young, Civil and Environmental Engineering Department, Clarkson University, Potsdam, New York, and J. Ford, Environmental Research Laboratory, U.S. EPA, Corvallis, Oregon, USA 425
- *Estimation of Wet Deposition to Surface Water Systems for the TIME Project: A Geographic Approach* - C. Daly, Systems Applications, Inc., San Rafael, California, USA 436
- *What can Biological Monitoring Tell Us About Environmental Health?* - R.M. Hughes, NSI, Corvallis, Oregon, USA 447
- *Testing for Trend in Water Quality Data* - J.C. Loftis and C.H. Taylor, Colorado State University, Fort Collins, Colorado, USA 461
