Editor's Preface and Introductory Remarks 1

Accident Research and Trends in Development

Elias M. Choueiri, Rüdiger Lamm:

Peter J. Fassnacht, Carl D. Spurgeon, Elizabeth A. Weaver:
The Status of Motorcycle Safety in the USA 31

Jean-René Carré, Claude Filou:
Mobility and Accident Risk for Motorcycling in France 55

Ulrich Schulz, Hubert Koch:
Factors that Influence the Involvement of Motorbikers in Traffic Accidents 89

Anita Kautz:
Statistical Analysis of Motorcycle Accidents in Dresden 105

Hans-Jochen Jahndel, Hans-Jürgen Neumann:
Safety Risks and Consequences of Development of the Two-Wheeled Motor Vehicle in the Traffic of Tomorrow 117

Nicholas M. Rogers:
A Preliminary Study Into the Feasibility of Motorcycle Airbags 135

Oleg Sokolov:
Trends in Development of Motorcycles in the USSR 173
Helmets

Clinton O. Chichester, George Snively:
Rotational Acceleration of the Head Induced by Glancing Impacts 183

James Tangorra, Albert R. George:
Wind Noise of Motorcycle Helmets 201

Dietmar Otte, Günter Felten:
Requirements on Chin Protection in Full-Face
for Motorcyclist Impact and Injury Situations 229

Brakes

Hans Eberspächer:
Psychological Consideration on Brake Use Patterns of Motorcyclists 267

Alois Weidele:
Braking While Cornering on a Motorcycle
- Problems of Riding Dynamics, Influences of Rider Personality,
Potentials of Development 277

Touichiro Hikichi, Tatsuhiro Tomari, Masaie Katoh, Michael Thiem:
Research on the Motorcycle Antilock Brake System. Part 3: Braking
Effectiveness of an Electronically Controlled ABS on Road Surfaces with
Different Levels 301

Yukimasa Nishimoto, Knau Iwashita, Tetsuo Tsuchida, Michael Thiem:
Research on Combined Brake System for Motorcycle 327

Traffic Behaviour and Risk Taking Behaviour

Falko Rheinberg:
Flow-Experience when Motorcycling:
A Study of a Special Human Condition 349
Frederick H. Ford, Linda G. Alverson-Eiland:  
"The Relationship Between Anxiety and Task Performance and Skill Acquisition in the Motorcycle Safety Foundation's Motorcycle RiderCourse"

Tsuyoshi Katayama, Masanori Motoki, Hideo Ochiai, Makoto Nakanishi:  
"Comparison of Riding Behaviour Between Inexperienced Riders and Experienced Riders"

Peter Brooks:  
"Driver Error in a Mixed-Traffic Environment: The Need for Increasing 'Technical Awareness'"

Roger Eggers, Peter C. Compes:  
"Risk Taking Behaviour of Motorcyclists: Strategical Aspects of Risk Analysis and Risk Control"

Reiner Brendicke:  
"Attitudes of Motorcycle Riders Toward Risk Exposure - A Study of Various Age Groups"

Ulrich Schulz, Heike Gresch, Hartmut Kerwien:  
"Motorbiking: Motives and Emotions"

**Construction und Development**

Tilo Schweers, Christoph Albus:  
"Objective Assessment of Motorcycle Manoeuvrability"

Ludwig Iffelsberger:  
"Application of Vehicle Dynamics Simulation in Motorcycle Development"

Rudolf Sagerer, Gerhard Heinrich:  
"Strength Testing for Substantiating the Frame Stability of Motorcycle and Sidecar Combinations from Single Unit Production"

Urs Tobler:  
"Ergonomics and Motorcycles"
Arnold Wagner:
**Concept, Realisation and Driving Experience of/in Motorcycles with Enclosed Cabin**  559

John W. Zellner, Scott A. Kebschull, Kenneth D. Wiley:
**Motorcycle Leg Protectors: An Analysis of Overall Effectiveness Via Computer Simulation**  585

**Environment**

Reiner Stenschke:
**Possibilities for Reducing Noise Emissions from Motorcycles**  645

Heinrich Steven:
**Noise Generated by Motorcycles**  663

Peer-Olaf Kalis, Norbert Gorißen, Lutz Hartung, Hermann Appel:
**Reduction of Exhaust Gas Emissions of Motorcycles**  683

Vsevolod Kleniksky:
**Fuel Consumption Reduction and Emission Decrease in an Utilitarian PTW 2-Stroke Engine by Simple Modification**  703
