CONTENTS

SPE 24550 Reducing Risk: Priorities and Strategies for Environmental Protection .......... 9
R.C. Loehr, U. of Texas

SPE 24551 EPA Initiatives for Improving the Management of Crude Oil and Natural Gas Exploration and Production Wastes .................................................. 17

SPE 24552 Review of New API-Recommended Practices for Petroleum Production Above Ground Storage Tank Installation, Inspection, and Repair .................................. 23
N.W. Hein Jr., Conoco Inc., and M.D. Loudermilk, American Petroleum Inst.

SPE 24553 Drilling Fluids: Making Peace With the Environment ................................ 35
Roger Bleier and A.J.J. Leuterman, M-I Drilling Fluids Co., and
C.L. Stark, Milpark Drilling Fluids

SPE 24554 Environmental Planning Through Risk Assessment .......................... 43

SPE 24555 Impacts of Environmental Initiatives on the Cost of Producing Crude Oil and Natural Gas Supplies .......................................................... 53
M.L. Godec, G.E. Smith, and Bundhrig Kosowski, ICF Resources Inc.

SPE 24556 New Method for Better Control of Cement Performance in High-Temperature Wells .................................................. 65
E.B. Nelson and J.M. Casabonne, Dowell Schlumberger

SPE 24557 Drilling Contractor Dilemma for the Nineties: Performance and Service With Profit .................................................. 77
J.R. Irwin, Anwood Oceaneics Inc.

SPE 24558 Partnering in the 90's: A Case History ........................................ 87

SPE 24559 Drilling Time Analysis: A Total Quality Management Tool for Drilling in the 1990's .................................................. 97
A.G. Kadaster, Amoco Production Co.; C.W. Townsend, Consultant;
and E.K. Albaugh, Consultant

SPE 24560 Drilling for Quality ................................................................. 113
G.F. Sandison, Texaco Inc., and A.M. Kern, Miller Consulting Group

SPE 24561 Application of Quality Standard ISO 9001 to Directional Well Planning ...... 121
J.A. Johnstone, Cliff Morrison, and R.L. Fernandez, Eastman Teleco

SPE 24562 Drilling Manpower Planning: Using a Systems Dynamics Approach ........ 131
J.F. Brett, Oil & Gas Consultants Intl., and J.D. McCuish and K.W. Oates, Amoco Production Co.

SPE 24563 Reduction of Naturally Occurring Radioactive Material Disposal Volume by Chemical and Physical Treatment .................................................. 141
J.Y. Mason, Rio Linda—Tenneco Inc., and R.J. Block and M.L. Knippers, Exxon Chemical Co.

SPE 24565 Land Treatment of Petroleum Hydrocarbon-Based Drill Cuttings: Pilot Scale Field Study .................................................. 149

SPE 24566 Drilling Wastes Evaluated in Plant Growth Study ................................ 163
B.S. Wilton, J.B. Bloys, and R.D. Watts, ARCO Oil & Gas Co., and B.W. Hino,
Texas A&M U. Research & Extension Center at Dallas

SPE 24567 Disposal of Filter Media Used in Exploration and Production Operations .................................................. 173
Susan Morrissey and Reza Hashemi, Pall Corp.

SPE 24568 Treatment of Production Tank Bottom Sludge by Composting ................ 181
S.B. Nordrum, Chevron Corp.; Leroy Fyock, Meridian; and Margaret Findlay,
Bioremediation Consulting Inc.

SPE 24569 Laminar Displacement in Annuli: A Combined Experimental and Theoretical Study .................................................. 191
Ahmadi Tehrani, John Ferguson, and S.H. Bittleston, Schlumberger Cambridge
SPE 24570 Real-Time Monitoring Provides Insight to Flow Dynamics During Foam Cementing

D.L. Purvis and D.D. Smith, BJ Services

SPE 24571 Erodability of Partially Dehydrated Gelled Drilling Fluid and Filter Cake

K.M. Ravi, Halliburton Services; R.M. Beirute, Amoco Production Co.; and R.L. Covington, Halliburton Services

SPE 24572 Ultrasonic Cement Evaluation in Inhomogeneous Cements

Ming Gong and S.L. Morriss, U. of Texas

SPE 24573 Investigation of Ultrasonic and Sonic Bond Tools for Detection of Gas Channels in Cements

J.E. Griffith and F.L. Sabins, Halliburton Services, and P.E. Harness, Halliburton Logging Services

SPE 24574 A Laboratory Study of Cement and Resin Plugs Placed With Thru-Tubing Dump Bailleurs

W.S. White, Mobil E&P U.S. Inc.; D.G. Calvert, Mobil E&P Services; J.M. Barker, Halliburton Logging Services; and D.L. Bour, Halliburton Services

SPE 24575 Conversion of Drilling Fluids to Cements With Blast Furnace Slag: Performance Properties and Applications for Well Cementing

SPE 24576 Real-Time Well Control Advisor

G.M. Milner, Tracor Applied Sciences

SPE 24577 Use of a Kick Simulator as a Well Planning Tool

C.P. Leach, Conoco Inc., and P.A. Wand, Anadrill/Schlumberger

SPE 24578 Dynamic Two-Phase Flow Simulator: A Powerful Tool for Blowout and Relief-Well Kill Analysis

SPE 24579 Top-Hole BOP: From Design Through Offshore Qualification

Arnfinn Nergaard, Smedvig IPR A/S; J.R. Garder, Smedvig Petroservices A/S; Jan Freyer, Smedvig IPR A/S; Rune Askeland, A/S Smedvig Drilling Co.; and Vidar Larsen, Smedvig IPR A/S

SPE 24580 Analysis of Gas Rise Velocities From Full-Scale Kick Experiments

Frank Hovland and Rolv Rommetveit, Rogaland Research

SPE 24581 Determining Circulating Fluid Temperature in Drilling, Workover, and Well Control Operations

SPE 24582 Drillstring Vibrations: A New Generation Mechanism and Control Strategies

W.D. Aldred and M.C. Sheppard, Anadrill/Schlumberger

SPE 24583 Detection of BHA Lateral Resonances While Drilling With Surface Longitudinal and Torsional Sensors

P.R. Paslay, Techaid Corp.; Y-M. Jan, ARCO E&P Technology; and J.E.E. Kingman and J.D. Macpherson, Exlog Inc.

SPE 24584 Quantifying Common Drilling Problems With Mechanical Specific Energy and a Bit-Specific Coefficient of Sliding Friction

R.C. Pessier, Hughes Tool Co., and M.J. Fear, BP Exploration

SPE 24585 Application and Development of 17½-in. Very Long Insert Roller-Cone Bits To Drill Interbedded Lithologies

SPE 24586 The Design and Testing of Anti-Whirl Bits

SPE 24587 Development of an Anti-Whirl Bit

SPE 24612  Operational Advances From Field Application of Short-Radius Horizontal Drilling in the Yates Field Unit ........................................... 707  
V.G. Odorisio and S.C. Curtis, Marathon Oil Co.

SPE 24613  Ovality and Stresses of API Tubulars in Horizontal Wells With FEM ............. 719  
Ferda Akgun, Middle East Technical U., and B.J. Mitchell and H-P. Huttemaier, Colorado School of Mines

SPE 24614  Directional and Stability Characteristics of Anti-Whirl Bits and Non-Axisymmetric Loading .................................................. 727  
P.E. Pastusek and C.H. Cooley, Hughes Christensen; L.A. Sinor, Amoco Production Co.; and Mark Anderson, Hughes Christensen

SPE 24615  Optimal Applications Engineering and Borehole Stability Analysis Avoid Differential Sticking and Lead to Successful Openhole Completion of North Sea Horizontal Well ........................................... 741  
M.T. Gibson and P.J. Tayler, Conoco (UK) Ltd., and Giin-Fa Fuh, Conoco Inc.

SPE 24616  Proactive Safety Approaches in the Seismic Industry ........................................... 755  
T.J. Dujmovich, Conoco Inc.

SPE 24617  Guidance for Designing Offshore Modules Evolving From Gas Explosion Research .................................................. 763  
J.R. Bakke and Kees van Wingerden, Christian Michelsen Research as

SPE 24618  SARA Sections 311-312 Compliance: Is It Worth the Cost? .............................. 771  
G.H. Holliday, Holliday Environmental Services Inc.

SPE 24619  Restraining System To Help Contain Well Flowlines and Equipment During Rupture for Increased Safety .................................. 779  
J.L. Stromberg and J.B. Surjaatmadja, Halliburton Services

SPE 24620  Safety Equal to Other Management Challenges Means Profits .......................... 791  
W.S. Avery and Randy Sartain, Milpark Drilling Fluids

SPE 24621  Safe Deployment of Specialized Coiled-Tubing Tools in Live Wells .................. 799  
H.V. Thomeer and D.M. Eslinger, Dowell Schlumberger

No manuscript was received for the following:

SPE 24564  Innovative Treatment Alternatives for Oily Wastes Generated During the Exploration and Production of Oil and Gas  
R.M. Kabrick, Remediation Technologies Inc.

SPE 24601  Site Assessment and Remediation at Exploration and Production Facilities  
T.C. Bouvette, Camp Dresser & McKee Inc.; J. Wiggin, Exxon Co. USA; and H. Rifai, Rice U.

SPE 24608  Development of Oilfield Waste Management Plans  
J.H. Alderman, Cornerstone Environmental Resources Inc., and M.E. Covent, Southwestern Laboratories Inc.
