

PROCEEDINGS  
SPE SPIE—The International Society for Optical Engineering

# Infrared Fiber Optics III

**James A. Harrington**  
**Abraham Katzir**  
*Chairs/Editors*

**5–6 September 1991**  
**Boston, Massachusetts**

*Sponsored and Published by*  
SPIE—The International Society for Optical Engineering

**Volume 1591**

SPIE (Society of Photo-Optical Instrumentation Engineers) is a nonprofit society dedicated to the advancement of optical and optoelectronic applied science and technology.

# INFRARED FIBER OPTICS III

Volume 1591

## CONTENTS

	Conference Committee .....	v
	Introduction .....	vii
<b>SESSION 1</b>	<b>OVERVIEW OF INFRARED FIBER OPTICS</b>	
1591-02	<b>Crystalline and hollow infrared fiber optics</b> J. A. Harrington, Rutgers Univ. ....	2
<b>SESSION 2</b>	<b>GLASS INFRARED FIBER OPTICS</b>	
1591-03	<b>Use of microgravity for investigating phase separation and crystallization in a heavy metal fluoride glass</b> S. Varma, S. E. Prasad, I. Murley, B.M. Hi-Tech Inc. (Canada); T. A. Wheat, CANMET (Canada). ....	14
1591-04	<b>Mechanical properties of aluminum fluoride glass fibers</b> J. Colaizzi, M. J. Matthewson, T. Iqbal, M. R. Shahriari, Rutgers Univ. ....	26
1591-05	<b>Chalcogenide glass optical fibers</b> A. R. Hilton, Sr., Amorphous Materials, Inc. ....	34
1591-06	<b>New IR glass fibers based on tellurium halide</b> X. H. Zhang, H. Ma, J. Lucas, Univ. de Rennes (France). ....	43
<b>SESSION 3</b>	<b>CRYSTALLINE AND HOLLOW FIBERS AND NEW COATINGS</b>	
1591-09A	<b>Mechanical resistance of silver halide infrared fibers</b> N. Barkay, A. Katzir, Tel-Aviv Univ. (Israel). ....	50
1591-09B	<b>CO<sub>2</sub> laser-induced breakdown in AgCl<sub>x</sub>Br<sub>1-x</sub> crystals, polycrystalline samples, and fibers</b> L. Nagli, A. Katzir, Tel Aviv Univ. (Israel). ....	60
1591-10	<b>Properties of silver halide core-clad fibers and the use of fiber bundles for thermal imaging</b> I. Paiss, F. Moser, A. Katzir, Tel Aviv Univ. (Israel). ....	70
1591-11	<b>Mechanisms of optical losses in polycrystalline fibers</b> V. G. Artjushenko, A. A. Lerman, E. G. Litvinenko, A. O. Nabatov, V. I. Konov, A. I. Kuznetsov, V. G. Plotnichenko, I. L. Pylnov, V. A. Shtein-Margolina, A. A. Urusovskaja, V. V. Vojtsekhovskiy, N. D. Zaharov, General Physics Institute (USSR); W. Neuberger, CeramOptec GmbH (FRG); K. B. Moran, CeramOptec Inc. ....	83
1591-12	<b>Water adsorption and desorption on silver halide IR fibers</b> Y. Karari-Barak, A. Katzir, Tel Aviv Univ. (Israel). ....	90
1591-13	<b>Single-crystal fibers for laser power delivery</b> G. N. Merberg, J. A. Harrington, Rutgers Univ. ....	100
1591-28	<b>ZnSe-coated Ag waveguide for CO<sub>2</sub> laser light transmission</b> Y. Matsuura, M. Miyagi, Tohoku Univ. (Japan). ....	109
1591-14	<b>Fabrication of thin dielectric-coated square waveguides for CO<sub>2</sub> laser light transmission</b> H. Machida, A. Nishimura, H. Ishikawa, M. Miyagi, Tohoku Univ. (Japan). ....	116
1591-15	<b>Investigation of the deposited metallic and the dielectric layers in plastic hollow fiber</b> R. Dahan, J. Dror, M. Alaluf, I. Gannot, N. I. Croitoru, Tel Aviv Univ. (Israel). ....	123

(continued)

# INFRARED FIBER OPTICS III

Volume 1591

1591-16	<b>Buffer coatings and cable assembly techniques for infrared fiber</b> R. J. Burger, D. J. McEnroe, L. J. Vacha, N. Farland, J. R. Clark, Galileo Electro-Optics Corp. . . . .	130
1591-25	<b>Infrared delivery systems for Er:YAG laser</b> U. Kubo, Y. Hashishin, Kinki Univ. (Japan); H. Tanaka, Mitsubishi Cable Industries Ltd. (Japan); T. Mochizuki, Hoya Corp. Ltd. (Japan). . . . .	141
1591-29	<b>Plastic hollow waveguides as transmitters and filters in mid-IR radiation</b> M. Alaluf, J. Dror, N. I. Croitoru, Tel Aviv Univ. (Israel). . . . .	146
1591-30	<b>Intermodal interference in the middle-IR waveguides</b> V. G. Artjushenko, K. I. Kalaidjian, M. M. Mirakian, General Physics Institute (USSR). . . . .	152
1591-34	<b>High-excitation-density luminescence as probe of mixed silver halides</b> D. Millers, L. Grigorjeva, E. Kotomin, E. Krivads, R. Eglitis, Univ. of Latvia (USSR). . . . .	157
<b>SESSION 4</b>	<b>APPLICATIONS OF INFRARED FIBERS</b>	
1591-17	<b>Evanescence-wave spectroscopy down infrared transmitting optical fibers</b> R. D. Driver, J. N. Downing, G. M. Leskowitz, Galileo Electro-Optics Corp.. . . . .	168
1591-18	<b>Spectroscopy of gases using IR fibers</b> V. Ruddy, Dublin City Univ. (Ireland). . . . .	180
1591-19	<b>Liquid and gas fiber optic evanescent-wave spectroscopy by tunable lasers</b> A. Messica, A. Katzir, Tel Aviv Univ. (Israel); U. Schiessl, M. Tacke, Fraunhofer-Institut für Physikalische Messtechnik (FRG). . . . .	192
1591-20	<b>Application of infrared fibers in diode laser trace gas analysis</b> R. Grisar, J. Anders, M. Knothe, W. J. Riedel, Fraunhofer-Institut für Physikalische Messtechnik (FRG). . . . .	201
1591-21	<b>Infrared diode laser chemical sensors with multipass cell based on silver halide and chalcogenide fibers</b> V. G. Artjushenko, V. G. Plomichenko, E. V. Stepanov, A. I. Nadezhdinskii, A. I. Kuznetsov, K. L. Moskalenko, General Physics Institute (USSR). . . . .	206
1591-33	<b>Applications of remote fiber optic spectroscopy using IR fibers and Fourier transform infrared spectrometers</b> M. A. Druy, P. J. Glatkowski, W. A. Stevenson, Foster-Miller, Inc.. . . . .	218
1591-22	<b>Chalcogenide glass fibers for remote spectroscopic chemical sensing</b> M. Rodrigues, G. H. Sigel, Jr., Rutgers Univ.. . . . .	225
1591-23	<b>Evanescence-wave spectroscopy using chalcogenide glass fiber: theoretical analysis and experiments</b> M. Katz, A. Bornstein, Soreq Nuclear Research Ctr. (Israel); I. Schnitzer, A. Katzir, Tel Aviv Univ. (Israel). . . . .	236
1591-24	<b>Remote spectroscopy using mid-IR fiber-coupled laboratory apparatus</b> R. J. Burger, P. J. Melling, Galileo Electro-Optics Corp.; W. R. Moser, J. R. Berard, Worcester Polytechnic Institute. . . . .	246
1591-07	<b>Attenuated total reflection spectroscopy with chalcogenide bitapered fibers</b> A. Bornstein, M. Katz, A. Baram, D. Wolfman, Soreq Nuclear Research Ctr. (Israel). . . . .	256
1591-26	<b>Multiplexed sensor systems in quantitative FTIR process spectroscopy</b> R. D. Driver, D. Brubaker, J. N. Downing, G. M. Leskowitz, J. D. Stark, Galileo Electro-Optics Corp. . . . .	263
	Addendum. . . . .	275
	Author Index. . . . .	276
