2.1 CRITICAL FLOW OF TWO-PHASE MIXTURES

STATE-OF-THE-ART ADDRESS: MATHEMATICAL METHODS IN NUCLEAR REGULATORY THERMAL-HYDRAULICS
William T. Hancox, Atomic Energy of Canada Limited, Whiteshell Nuclear Research Establishment, Manitoba, Canada. 798

THE RELAP5 CHOKE FLOW MODEL AND APPLICATION TO A LARGE SCALE FLOW TEST
V. H. Ransom & J. A. Trapp, EG&G Idaho, Inc. 799

NONEQUILIBRIUM VAPOR GENERATION RATES OF FLASHING WATER FLOWS
N. Abuaf, B. J. C. Wu, G. A. Zimmer, P. Saha & O. C. Jones, Jr., Brookhaven National Laboratory. 820

THE APPLICATION OF RELAP5 TO A PIPE BLOWDOWN EXPERIMENT
K. E. Carlson, V. H. Ransom & R. J. Wagner, EG&G Idaho, Inc. 842

INVESTIGATION OF HIGHLY ACCELERATED TWO-PHASE FLOW IN A NOZZLE
F. Kedziur, Institut fur Reaktorentwicklung (IRE), Federal Republic of Germany. 857

MEASUREMENT OF VOID DISTRIBUTIONS IN HORIZONTAL PIPE DURING BLOWDOWN BY X-RAY BEAM SCANNING METHOD
T. Kagawa, T. Ishizuka, T. Narbayashi & K. Tokuyama, Toshiba Corporation Nuclear Engineering Laboratory, Japan. 874

ASSESSMENT OF THE CRITICAL FLOW MODELS OF RELAP4/MOD6 AND TMOC CODES
T. Siikonen & H. Holmstrom, Technical Research Centre of Finland. 890

2.2 TWO-PHASE FLOW INSTRUMENTATION

STATE-OF-THE-ART ADDRESS: TWO-PHASE FLOW INSTRUMENTATION
Jean-Marc Delhye, Commissariat a l'Energie Atomique Centre d'Etudes Nuclearairs de Grenoble, France. 903

A PRELIMINARY STUDY OF THE APPLICATION OF RECONSTRUCTION TOMOGRAPHY TO VOID FRACTION MEASUREMENTS IN TWO-PHASE FLOW
F. A. Kulacki, P. A. Schlosser, A. C. Devuono & P. Munshi, Ohio State University. 904

BASIC TWO-PHASE FLOW MEASUREMENTS USING 16\(^N\) TAGGING TECHNIQUES
M. L. Perez-Griffo, R. C. Block & R. T. Lahey, Jr., Rensselaer Polytechnic Institute. 923
NONINTRUSIVE LOCAL DENSITY DETERMINATION USING GAMMA SCATTERING OR NEUTRON ACTIVATION  N. N. Kondic, U. S. Nuclear Regulatory Commission .......................................................... 934

VOIDAGE IN A SERPENTINE GEOMETRY NUCLEAR BOILER TUBE  J. W. Pye & B. Chojnowski, Marchwood Engineering Laboratories, England .......................................................... 955

EXPERIENCE WITH STEAM TEMPERATURE AND WATER DETECTION PROBES FOR TRANSIENT MIST FLOW IN HOT ROD BUNDLES  P. Ihle, St. Muller, Institut fur Reaktorbauelement, FRG .......................................................... 970

THE ANALYSIS OF A DRAG-DISK IN TRANSIENT TWO-PHASE FLOW  P. S. Kamath & R. T. Lahey, Jr., Rensselaer Polytechnic Institute .......................................................... 999

2.3 CRITICAL HEAT FLUX AND EFFECTS OF LOCAL DISTURBANCES

KEYNOTE ADDRESS: BOILING HEAT TRANSFER MECHANISMS IN RE- ACTOR THERMAL-HYDRAULICS  Author E. Bergles, Dept. of Mechanical Engineering, Iowa State University .......................................................... 1019

ON DNB LOCATION WITH AXIALLY DISUNIFORM HEAT FLUX PROFILES AND FLOW OBSTRUCTION: AN EXPERIMENTAL CONTRIBUTION  M. Cumo & G. Palazzi, CNEN - C.S.N. Casaccia, Italy .......................................................... 1043

AN EXPERIMENTAL STUDY OF DRYOUT HEAT TRANSFER IN TUBES BY A TEMPERATURE TRANSIENT METHOD  W. J. Green & K. R. Lawther, AAEC Research Establishment, Australia .......................................................... 1092

SPACING DEVICES FOR NUCLEAR FUEL BUNDLES: A SURVEY OF THEIR EFFECT ON CHF, POST CHF HEAT TRANSFER AND PRESSURE DROP  D. C. Groenveld & W. W. Yousef, AECL, Chalk River, Ontario, Canada .......................................................... 1111

THE "BOILING CURVE" IN HIGH QUALITY FLOW BOILING  B. S. Shiralkar, R. A. Hein & G. Yadigaroglu, General Electric Company .......................................................... 1131

ANALYSIS OF BLOWDOWN HEAT TRANSFER EXPERIMENTS AND CRITICAL HEAT FLUX  J. C. M. Leung & K. A. Gallivan, Argonne National Laboratory .......................................................... 1142
2.4 HEAT TRANSFER AND REWETTING DURING REFLOOD

THERMAL-HYDRAULICS OF THE BOTTOM REFLOODING IN TUBES WITH DIFFERENT THICKNESS AND LENGTH M. DeSalve & B. Panella, Politecnico di Torino, Instuto di Fisica Tecnica e Impianti Nucleari, Italy. 1196

AN INVESTIGATION OF FLOODING PHENOMENA IN AN EXPERIMENT RELATED TO THE PWR PROBLEM H. C. Simpson & D. H. Rooney, University of Strathclyda, Glasgow, Scotland ............................... 1217

HEAT TRANSFER AND FLUID FLOW DURING REFLOODING OF BLOCKED ARRAYS K. Rust & P. Ihle, Institut fur Reaktorbauelements, FRG. .......................... 1237

STUDIES ON THE SIGNIFICANCE OF RADIANT HEAT TRANSFER IN THE FUEL ASSEMBLY UNDER LOCA CONDITIONS M. L. Jokela & H. Ollikkala, Technical Research Centre of Finland ................................. 1252

MULTIDIMENSIONAL EFFECTS IN THE THERMAL RESPONSE OF FUEL PIN SIMULATORS L. J. Ott, Oak Ridge National Laboratory .......................... 1266

2.5 HYDRODYNAMIC MECHANISMS IN BOILING HEAT TRANSFER

KEYNOTE ADDRESS: TWO-PHASE HYDRODYNAMICS: MODEL AND MECHANISMS S. Banerjee, Dept. of Engineering, McMaster University, Hamilton, Ontario, Canada. ........................................ 1288

A FLOW REGIME DEPENDENT MODEL OF TWO-PHASE FLOW Rodney R. Gay* & Donald Statile**, *Rensselaer Polytechnic Institute, **Yankee Atomic Electric Co. .......................... 1331

AN EVALUATION OF TWO BUBBLE-DETACHMENT MODELS FOR TWO-PHASE FLOW D. R. H. Beattie, AAEC Research Establishment, Australia .......................... 1343

TURBULENCE STRUCTURE OF A CO-CURRENT AIR-WATER BUBBLE FLOW M. Lance, J. L. Marie, G. Charnay & J. Bataille, Laboratoire de Mecanique des Fluides Ecole Centrale de Lyon, France .......................... 1363
### Experimental Study of Steam Condensation Inside Horizontal Tubes
V. Vocino & A. Cabella*, CISE, Italy, Ansaldo, Genova...

### The Stability of Quasi-Stable Film Boiling and the Behavior of the Vapor Film to a Quenching Initiation on a Horizontal Wire in Subcooled Water
M. Mori & S. Toda, Tohoku University, Japan...

### Core-Concrete Molten Pool Dynamics and Interfacial Heat Transfer
A. S. Benjamin, Sandia Laboratories...

#### 2.6 Entrainment and Droplet Deposition in Two-Phase Flow

**Session 18**

**Keynote Address:** Basic Measurements in Two-Phase Flow

**Film Entrainment and Drop Deposition for Two-Phase Flow**
A. Koestel, R. G. Gido & J. S. Gilbert, Los Alamos Scientific Laboratory...

**Droplet Motion in Two-Phase Flow**
P. W. James, G. F. Hewitt & P. B. Whally, Atomic Energy Authority Research Establishment, Harwell, England...

**An Experimental Study on Angular Collisions Between Drops and Moving Liquid Films**
F. A. Rockenbach & D. R. Alexander, University of Nebraska...

**Experimental Remarks on "Sputtering" Phenomena and Droplets Generation in Falling Film Rewetting**
M. Cumo, G. E. Farello & M. Furrer, Centro di Studi Nucleari della Casaccia, Comitato Nazionale per l'Energia Nucleare, Italy...

**A Radioisotope Method for Interfacial Area Measurements in Two-Component Systems**
S. Banerjee & A. Khachadour, McMaster University, Ontario, Canada...
