PAPERS, AUTHORS, SESSIONS AND SESSION CHAIRMEN

The Effect of the Volume Fraction and the Reinforcement Size on the Mechanical Properties of a SiC Particulate Reinforced 6061 Aluminium Composite

K.S. Foo and W.M. Banks

Copper/Molybdenum Composite Prepared by Powder Metallurgy Using Copper Coated Molybdenum Powder

Pay Yih and D.D.L. Chung

Processing and Fabrication Technology

Filament Winding and TOW Placement Technology

Chairman: Dr. Walt V. Breitigam, Shell Development Company

A New Compact Robotic Head for Thermoplastic Fiber Placement

Klaus D. Felderhoff and Karl V. Steiner

Application of Statistical Design of Experiments to Thermoplastic Tape Laying

Duncan Wood and Susan C. Mantell

B-Spline Interpolation Improves Filament Winding Controller’s Performance

Shaiq A. Haq

Design Considerations for Fiber Placement

Don O. Evans

Development of a Single TOW Laying Process

Pusheng Chen, Aly ElShiekh and Steven DeTeresa

Experimental Determination of Process Parameters for Laser Assisted Processing of PEEK/Carbon Thermoplastic Composites

S.K. Mazumdar and S.V. Hoa

On-Line Consolidation Mechanisms in Thermoplastic Filament Winding (Tape Laying)

C.E. Carpenter and J.S. Colton

Processing and Fabrication Technology

Non-Destructive Testing and Evaluation

Chairman: Toby Cordell, Wright Research Development Center

Detection of Composite Heat Damage by Drift Spectroscopy

Paul A. Mehrkam and Eileen Armstrong-Carroll

How to Get the Best Value for Each Dollar Spent Inspecting Composite and Bonded Aircraft Structures

L.J. Hart-Smith

The Bonded Lap-Shear Test Coupon—Useful for Quality Assurance but Dangerously Misleading for Design Data

L.J. Hart-Smith
Technology Insertion: Applications

Aerospace, Recreation and Transportation Applications

Chairmen: Scott Beckwith, Beckwith Technology Group
Leslie Cooke, C3 International

Engineering Standards for Advanced Polymer Composites
Frank T. Traceski

Fokker 50 Thermoplastic Main Landing Gear Door: Design and Justification
Warden Schijve

Fokker 50 Main Landing Gear Door, Thermoplastics Processing
Arnt R. Offringa

Graphite/Epoxy Acoustic Guitar Technology
John A. Decker, Jr.

Composite Monocoque Bicycle

Technology Insertion: Applications

**Biomedical Composites and Polymer Applications**

Chairman: *Deva Devanathan, Zimmer Inc*

An Application of Composites in Fracture Fixation: Dynamization of the Fixator Frame – Fractured Bone Construct
A. Nazre and Kim Dueringer

Application of Polymers in Urology
F.A. Salama

Design of CFRP Lumbar/Thoracic Stackable Spine Fusion Cages
Carl R. McMillin and John W. Brantigan

Evaluation of PEKEKK Composites for Spine Implants
Carl R. McMillin

Process Optimization of Spectra Fiber Reinforced Polyethylene for Use in Total Knee Arthroplasty
Jack Jennings

**Advanced Materials and Structures Technology for Space**

Chairmen: *Dr. William Gaubatz, McDonnell Douglas Aerospace Dr. Darryl Tenney, NASA Langley Research Center/Advanced Materials*

Conductive White Thermal Control Paint for Spacecraft
Cheng Hsieh, Ed Metzler, Gus Forsberg, Lisa McHugh, Tim O'Donnell and James Cordaro

Fabrication and Testing of an Hybrid Titanium-Composite Integral Filament Wound Solid Rocket Motor Case
V. Giavotto, C. Caprile, G. Sala, F. Depasquale, G. Ciavatta and M. Ciranna

Development of Carbon/Epoxy Composite Interface Adapter in LM-2E Launch Vehicle
Zhu Datong and Chen Zheng

Evaluation of Kapton Pyrolysis, Arc Tracking, and Flashover on SiO$_2$-Coated Polyimide Insulated Samples of Flat Flexible Current Carriers for Space Station Freedom
Thomas J. Stueber and Chris Mundson

Low Earth Orbital Atomic Oxygen Environmental Simulation Facility for Space Materials Evaluation
Curtis R. Stidham, Thomas J. Stueber, Bruce A. Banks, Joyce A. Dever and Sharon K. Rutledge

**Advanced Materials**

*Environmental Effects and Testing Technology II*

- **Chairman:** Dr. Tony Saliba, University of Dayton
- **Effects of Thermal History and Jet Fuel Absorption on the PVT Properties of APC-2**
  Deborah A. Gill, Tony E. Saliba and John D. Russell
- **Loading Rate and Temperature Dependence on Flexural Fatigue Behavior of a Satin Woven CFRP Laminate**
  Michael K. McMurray, Juichi Enyama, Masayuki Nakada and Yasushi Miyano
- **Processing of Non-Cured Prepreg Waste**
  W. Michaeli and M. Stark
- **Strength and Stiffness Degradation of Fiber Reinforced Polymers Under Accelerated Environmental Conditioning**
  Salem S. Faza, Hota V.S. GangaRao and Seshagiri Ajjarapu
- **Thermal Oxidative Stability Lifetime Prediction for Benzocyclobutene Polymer Composites**
  W.M. Lee and S.A. Laman

**Advanced Materials**

*Advanced Thermoplastic Composites: Processing*

- **Chairman:** Dr. Hassel Schjelderup, Consultant
- **Cost Effective Thermoplastic Composites**
  W.K. Jones and D.C. Leach
- **Effect of Mold Parameters on Consolidation of Thermoplastic Composite Laminates**
  Timothy G. Simmons
- **Low Cost Composites Based on Long Carbon Fiber Thermoplastics**
  Russell J. Bockstedt and Jeffrey L. Sajna
- **Prepreg Guidance and Tensioning Device for Stamp Forming of Continuously Fibre Reinforced Thermoplastic Prepregs Suitable for Series Production**
  W. Michaeli and M. Jehrke
Development of the Rubber Forming Technique to Realize Fabric Reinforced Thermoplastic Products
L.M.J. Robroek

Technology Insertion: Applications

General Applications

Chairman: Benjamin Bell, U.S. Windpower
Low Thermal Expansion Composite With Interpenetrating Aluminum and Silicon Networks Fabricated by Liquid Al-Si Infiltration of a Silicon Particle Preform
Yuyong Chen and D.D.L. Chung
Aerospace Technology in NGV Fuel Containers
Stephen K. Takagishi
Carbon Fiber Reinforced PPS Thermoplastic Materials Implemented in a Cost Sensitive Commercial Application
Malcolm W.K. Rosenow and Todd E. Andres
Carbon Fiber Reinforced Concrete as an Electrical Contact Material for Smart Structures
Pu-Woei Chen and D.D.L. Chung
Composite Fabric Design Tool
Edward Bernardon, Tom Lee and Steven C. Luby
Energy Absorbing Systems for Head Protection
T.A. Abbott
Production of Structural Hollow Fibre Reinforced Components Using a Combined RTM and Blow-Up Technology
W. Michaeli, J. Dyckhoff and M. Jehrke

Technology Insertion: Applications

Commercial Sandwich Construction Applications II

Chairman: Dr. Deborah Weissman-Berman, University of Florida/Aerospace Engineering
Elastic Response of Thermoplastic Sandwich Beams
Deborah Weissman-Berman
Flexural Test Methods and Results for DOW Thermoplastic Sandwich Panels
David E. Jones, Jr.
Optimal Design and Control of a Sandwich Beam for Maximum Frequency and Minimum Dynamic Response
J.M. Bai and C.T. Sun
Applications of Thermoplastic Composites in Marine Applications
Roger K. Young
