PROCEEDINGS

Drilling Conference

February 18–21, 1992
New Orleans, Louisiana

Sponsored by Society of Petroleum Engineers (SPE), Inc./International Association of Drilling Contractors
<table>
<thead>

</table>
Rig Supervisors: Preparing the Next Generation .......................... 195
D.P. Nordt and M.S. Stone, Marathon Oil Co.

The Economics and Related Factors Involved in the Replacement of Land Drilling Rigs ............................... 201
D.W. Holm, MND Drilling Corp.

A Method for ‘‘Comparing Apples to Oranges’’ in Rig Bid Analysis ........ 209
S.K. Lewis, Eaton Industries of Houston Inc.

Long-Reach, High-Angle Drilling in the Gulf of Mexico: A Case History of Eugene Island Block 370 Well B-11 ......................... 215
R.L. Gadberry and S.S. Switzer, NERCO Oil & Gas Inc.

PDC Bit Dynamics .................................................. 227
C.J. Langeveld, Shell Research B.V.

An Analysis of the Field Performance of Antiwhirl PDC Bits ............ 243
J.M. Clegg, Hycalag

Bi-Center Bit Performance Reduces Drilling Cost in California ........ 253
J.L. Quintana, ARCO Oil & Gas Co.

Prevention of Bit Balling in Shales: Some Preliminary Results ........... 259
Sanjit Roy and G.A. Cooper, U. of California

New Roller Cone Bits With Unique Nozzle Designs Reduce Drilling Costs .................................................. 269
S.R. Moffitt, D.E. Pearce, and C.R. Ivie, Reed Tool Co.

Performance of Rock Bits in the 17½- and 14¾-in. Sections of Germany’s Ultradeep KTB Well ................................. 279

Horizontal Slim Hole Drilling With Coiled Tubing: An Operator’s Experience ........................................ 289

First Field Trial of a Coiled Tubing for Exploration Drilling ............... 301

Analysis of Buoyancy-Assisted Casings and Liners in Mega-Reach Wells .................................................. 309
K.E. Ruddy, O’Brien-Goins-Simpson & Assocs., and Douglass Hill, Eastman Christensen

Drilling the Deepest Horizontal Well in the Gulf of Mexico, South Marsh Island 239 D-10 ........................................ 317
R.W. Jenkins and A.N. Patrickis, Texaco E&P Inc.

Case History of a Horizontal Well Using a High-Angle Pilot Hole ........ 331
E.S. Stacey, C.T. Rogers, and J.K. Bowman, Petro-Hunt Corp.; B.R. Noblett, Atlas Wireline Services; and M.F. Cooney, Eastman Christensen

A Comparison of Field Drilling Experience With Low-Viscosity Mineral Oil and Diesel Muds ........................................... 341

Quality Assurance for Field Mud Testing Equipment ........................ 355
Simon Geraghty, Baroid Ltd., and T.D. Motley, Elf Enterprise Caledonia Ltd.

Design and Implementation of a Bulk Mud Additive System To Reduce Personnel Exposure and Eliminate Waste ........................................ 361
A.P. Wisnie, Conoco Inc., and Ron Brazzel, Chemrich Inc.

Flow Rate Predictions for Cleaning Deviated Wells ........................ 367
Yuejin Luo and P.A. Bern, BP Research Centre, and B.D. Chambers, BP Exploration

Experimental Investigation of the Influence of Chemical Potential on Wellbore Stability ........................................... 377
A.H. Hale and F.K. Mody, Shell Development Co., and D.P. Salisbury,
On the Stability of Shales and Its Consequences in Terms of Swelling and Wellbore Stability .......................................................... 391
F.J. Santarelli, Elf Aquitaine, and M.E. Chenevert and S.O. Osisanya, U. of Texas

Dielectric Constant Measurements: A New, Rapid Method To Characterize Shale at the Wellsite .................................................. 401
P.K. Leung and R.P. Steiger, Exxon Production Research Co.

Surface Detection of Vibrations and Drilling Optimization: Field Experience ........................................................... 409
Henry Henneuse, Elf Aquitaine

Drillstring Imaging: An Interpretation of Surface Drilling Vibrations .......... 425
A.K. Booer and R.J. Meehan, Schlumberger Cambridge Research

Real-Time Downhole Shock Measurements Increase Drilling Efficiency and Improve MWD Reliability ...................................................... 433
S.C. Rewcastle and T.M. Burgess, Anadrill/Schlumberger

A Field Method for Controlling Drillstring Torsional Vibrations ............... 443
Prasert Sananikone, Osamu Kamoshima, and D.B. White, Sedco Forex

Industry Participation in the Development of an Integrated Drilling Engineering Applications Platform .................................................. 453
S.J. Sawaryn, BP Exploration, and H.L. Grayson, Exlog Inc.

The Designing and Building of an All-Purpose Automatic Torque-Wrenching Machine for Drilling Rigs ........................................ 465
Holger Kinzel and B.G. Pieters, Weatherford Products & Equipment GmbH

Field Trials of the First RA-D (Rig Automation-Drilling) Automated Drilling Rig ................................................................. 473
B.K. Simpson, Strachan & Henshaw Ltd.

Acquiring and Maintaining ISO Technical Quality Standards ................... 487
J.K. Bryan, Hughes Tool Co., and Yehuda Dror, Det norske Veritas Industry Inc.

Operator/Contractor Relationships: A Team Approach ........................................ 493
J.R. Smith, C.K. Kidwell, and V.E. Unger, Shell Western E&P Inc., and Ed Fercho and C.M. Helmer, Canadian Marine Drilling Ltd.

Cementing as a Total Service ...................................................... 503
R.D. Stilley and J.E. Griffith, Halliburton Services

Ninian Field Wellhead/Tree Commodity Action Team and Manufacturer Alliance Relationship .................................................. 511
P.A. Hansen, Chevron UK Ltd., and Andy Freeland, ABB Vetco-Gray UK Ltd.

A Field Guide for Surface BOP Equipment Inspections .......................... 523
W.J. Kandel and D.J. Streu, Chevron Services Co.

Precontract Prescription for Success: A Painless Subsea BOP Inspection ........ 539

The Internal Pressure Capacity of Crescent-Shaped Wear Casing .................. 547
J.S. Song, Jerry Bowen, and Frank Klementich, Oil Technology Services Inc.

Drillpipe Protectors Successfully Used To Reduce Casing Wear in Deep, Directional Well ............................................................ 555
F.F. Schneider and G.J. Collins, Marathon Oil Co.

Evaluation of Premium Threaded Connections Using Finite-Element Analysis and Full-Scale Testing ..................................................... 563

Advances in Dynamic Bottomhole Assembly Modeling and Dynamic Response Determination .................................................. 581
P.D. Spanos, Rice U., and M.L. Payne, ARCO E&P Technology

General Guidelines for Predicting Fatigue Life of MWD Tools .................... 591
C.A. Cheatham and B.C. Comeaux, Sperry-Sun Drilling Services, and C.J. Martin, U. of Texas
IADC/SPE 23907  Development of a Cartridge Data Transmission System for Use With Air Drilling Motor
Les Shale, Eastman Christensen, and G.T. Moberley, Sharewell Inc.
603

IADC/SPE 23909  Innovative Steerable Underreaming BHA Design Overcomes BOP Restrictions
F.W.S. Raitt, Smith Intl., and John Boyle, BP Exploration
611

IADC/SPE 23910  Optimization of the Drilling Performance in the 17½-in. Section of an Exploration Well in the Overthrust of Southern Italy
Alain Besson and Patrick Toutain, TOTAL; and D.E. Scott and N.C. Meany, Hughes Tool Co.
621

IADC/SPE 23912  Technology and Technique for Scientific Drilling in Crystalline Rocks: Experience and Perspectives
A.V. Mnatsakanov, M.Y. Gelfgat, and R.S. Alikin, VNIIBT
631

IADC/SPE 23913  Application of Soft Torque Rotary Table in Mobile Bay
Kazem Javanmardi and D.T. Gaspard, Shell Offshore Inc.
645

IADC/SPE 23914  Efficiency Drilling Techniques for Increased Penetration Rates in the Gulf of Mexico
R.R. Weakley, Chevron USA
651

IADC/SPE 23915  An Advanced System for the Early Detection of Sticking Pipe
S.I. Jardine, D.P. McCann, and S.S. Barber, Sedco Forex Schlumberger
659

IADC/SPE 23916  Economic Environmental Management of Drilling Operations
H.J. Longwell III and T.J. Akers, Exxon Co. U.S.A.
669

IADC/SPE 23917  The Environmental Compliance Audit and Its Cost
D.J. Haftner, Grace Drilling Co.
679

IADC/SPE 23919  Microbiological Waste Decomposition in a Drilling Pit at the Oil/Gas Condensate Fields
M.B. Zinberg, T.A. Surgina, I.B. Ivanowskaya, and D.A. Galjan, Volgo-UralNIPIgas
689

IADC/SPE 23920  Field Experiences With an Environmentally Acceptable Rotary-Shouldered Thread Compound
W.D. Stringfellow and N.L. Jacobs, Bomac b.v.
695

IADC/SPE 23922  Minerals Management Service Regulation of Floating Drilling Unit Operations in the Beaufort and Chukchi Outer Continental Shelf
J.B. Regg and R.Y. Kuranel, Minerals Management Service
703

IADC/SPE 23924  Casing Operations on Deep, Directional, and Horizontal Wells: A New Approach on Planning and Follow-Up
713

IADC/SPE 23926  Case Histories Regarding the Application of Microfine Cements
J.F. Heathman and L.E. East Jr., Halliburton Services
723

IADC/SPE 23927  Recent Technological Advances Help Solve Cement Placement Problems in the Gulf of Mexico
S.D. Brady, Texaco USA Inc., and P.P. Drecq, K.C. Baker, and D.J. Guillot, Dowell Schlumberger
733

IADC/SPE 23930  Drilling Safely at Well Design Limits: A Critical Well Design Case History
Robert Quitzau and J.B. Muchtar, Mobil Oil Indonesia
749

IADC/SPE 23931  History and Development of a Rotating Blowout Preventer
L.A. Cress, Clayton W. Williams Jr. Inc.; Rick Stone, Petratex Resources Inc.; and Mike Tangedahl, Seal Tech
757

IADC/SPE 23934  Sensitivity of Early Kick Detection Parameters in Full-Scale Gas Kick Experiments With Oil- and Water-Based Drilling Muds
B.T. Anfinsen and Rolv Rommetveit, Rogaland Research
775
IADC/SPE 23935 An Evaluation of Flowmeters for the Detection of Kicks and Lost Circulation During Drilling ......................................................... 783

IADC/SPE 23936 Rapid and Reliable Gas Influx Detection ..................................................... 793
Daniel Codazzi, P.K. Till, A.A. Starkey, C.P. Lenamond, and B.J. Monaghan, Anadroll/Schlumberger

IADC/SPE 23937 The IADC Roller Bit Classification System .................................................... 801

IADC/SPE 23938 The IADC Roller Bit Dull Grading System .................................................... 819

IADC/SPE 23939 First Revision to the IADC Fixed Cutter Dull Grading System ..................... 835
B.D. Brandon and Jerry Cerkovnik, Eastman Christensen; Earl Koskie, DBS; B.B. Bayoud, Eastman Christensen; Fred Colston, Smith Diamond; R.I. Clayton, Security; M.E. Anderson, Eastman Christensen; K.T. Hollister, Hycalog; Jim Senger, Security Div., Dresser Industries; and Ralph Niemi, Cliffs Drilling Co.

IADC/SPE 23940 Development of a New IADC Fixed Cutter Drill Bit Classification System ................... 841
B.D. Brandon and Jerry Cerkovnik, Eastman Christensen; Earl Koskie, DBS; B.B. Bayoud, Eastman Christensen; Fred Colston, Smith Diamond; R.I. Clayton, Security; M.E. Anderson, Eastman Christensen; K.T. Hollister, Hycalog; Jim Senger, Security Div., Dresser Industries; and Ralph Niemi, Cliffs Drilling Co.

No manuscript was received for the following:

IADC/SPE 23857 Jackup Units for Marginal Field and Harsh Environment Production
V.V. Shetti and G.C. Bagnell, Rowan Companies Inc.

IADC/SPE 23863 Drilling Contractors Long Overdue Focus on the Drill Floor and Its Equipment
P.C. Pedersen and G. Kudsk, Maersk Drilling, and T. Lund, DISA

IADC/SPE 23908 Design Techniques in Air and Gas Drilling: Practical Charts for Using Machado’s Method To Determine Volume Requirements
P.W. Johnson, U. of Alabama

IADC/SPE 23911 The Integration of Oilfield, Mining, and Geotechnical Exploration Technologies for a Deep Scientific Investigation to Depths up to 2000 M
A.J. Beswick, Kenting Drilling Services Ltd.; J.A. Scarrow, Soil Mechanics Ltd.; and W. Muller-Ruhe, Gewerkschaft Walter GmbH

IADC/SPE 23923 Revised Casing Design Criteria for Exploration Wells Containing H₂S
D.W. Marshall, Enterprise Oil plc, and H. Asahi and M. Ueno, Nippon Steel Corp.

IADC/SPE 23928 Surfactant/Cement Blends Improve Plugging Operations in Oil-Base Muds
C. Harder, R. Carpenter, and W. Wilson, ARCO Oil & Gas Co., and E.R. Freeman, BJ Services

IADC/SPE 23929 Acid-Removable Cement System Helps Lost Circulation in Productive Zones
E.F. Vinson, P.L. Totten, and R.L. Middaugh, Halliburton Services

IADC/SPE 23933 Computerized Kill Sheet for Most Drilling Operations
H.C.F. Leitao Jr., Petrobrás/Unicamp; E.E. Maidla and F.D.A. Netto, Unicamp; O.A. Santos, Petrobrás; and A.T. Bourgoyne, Louisiana State U.
