CONTENTS

Opening Ceremony 53

Greetings
Franz-Josef Kniola
Minister of Transport of North-Rhine Westfalia 55

Greetings
Dr. Wilhelm Knittel
State Secretary of the Ministry of Transport of the Federal Republic of Germany 59

Opening Lecture
Accident prevention as a complex task for International Science
Prof. Dr.-Ing. Dr. h.c. Albert Kuhlmann
Chairman of the Board of Management of TUEV Rheinland 63

Aims of the conference
Dr. Robert B. Voas
President of ICADTS
Vice-President of the National Public Services Research Institute 81

The Widmark Award
Appraisal and Award
Prof. Dr. Robert F. Borkenstein
Director of Forensic Studies, Indiana University 83

Alcohol and drugs as a problem of modern society and a threat to society and economy
Michaela Schreiber
Ministry of Health 96

Driving Licenses 109

Plenary Paper
Driver's licensing as a measure for defending traffic safety
U. Undeutsch 111

Illicit drugs and fitness for driving
Heroin substitution by methadone - implications for traffic safety
P. Brieler, C. Jänisch 116

Complementary empirical study on the driver fitness of methadone substitution patients
G. Berghaus, M. Staak, R. Glazinski, K. Höher, S. Joo, B. Friedel 120

Toxicological analysis for the purpose of medical psychological aptitude tests of drug abusers
H. Käferstein, H. Menke, M. Staak, G. Sticht 127

Progression of drug consumption in the mirror of driving ability test in Bavaria 1991
U. Buchholtz 133
Diagnosis of drinking - driver

Illicit drug consumers and driving licence.
Administration and medical criteria
M. Haag-Dawoud

Psychosocial characteristics of drinking and non-drinking crashed drivers
E. Vingilis, G. Stoduto, M. Macartney-Filgate

New findings on the normal range of Gamma-Glutamyl-Transferase and their importance for driver aptitude testing
M. Weinand

Gamma-glutamyl Transpeptidase activity among convicted multiple DUI offenders
M. Fortini, W. Cooper, R. Temer

Alcoholism markers in blood samples of alcoholized car drivers in view of the restitution of the driving licence
R. Iffland

A case-control study of drinking while impaired offenders
S. Macdonald, S. Dooley

Assessment of the female impaired driver: implications for treatment
L. Sutton

Causes and correlates of drinking and driving
S. Macdonald, B. Mann

Reducing drinking and driving through administrative license revocation
B.M. Sweedler, K. Stewart

Psychological profiling the first time DWI offender, strategies to reduce recidivism
L.R. Sutton, C. Benton

Alcohol and driving: What research on alcoholic relapse reveals
G. Lauer
Probleme bei der Wiedererteilung der Fahrerlaubnis
Deutschsprachige Einheit

Probleme bei der Rückgabe eines deutschen Führerscheins
durch den Strafrichter an einen Trunkenheitsstraftäter/
Problems which may occur on the occasion of the
restitution of a German driving licence by the criminal
judge to the offender who has been found guilty of
drunken driving
K. Himmelreich

Beurteilungskriterien der Fahreignung bei alkohol-
auffälligen Kraftfahrern
P.H. Bresser

Abhängigkeit und Mißbrauch von Alkohol: Genetische,
medizinische und psychologische Kriterien für die
Prognose zukünftiger Trunkenheitsfahrten/
Dependence and misuse of alcohol: genetic, medical and
psychological criteria for the prognosis of future
drunken driving
E. Stephan

Individualpsychologische Verkehrstherapie IVT - Hö
G. Höcher

Workshop: Measures for revoking and regranting driving
licenses in various countries

Introduction
W.-R. Nickel

Licensing and medical-psychological assessment
in Germany
W.R. Nickel

Consultation on the individual route to rehabilitation
- an integral task in the diagnosis of DUI offenders
H.-D. Utzelmann

Doctrine of university clinic of psychiatry in Ljubljana
in assuring of secure driving of drivers alcoholics
D. Ljubodrag

Rehabilitation

Plenary paper

The rehabilitation of drunken drivers in Europe
W. Winkler
Rehabilitation programs

Evaluation of rehabilitation courses in Great Britain
P.J. Mills 284

The alcohol traffic courses in the Netherlands
R. Bovens 290

Repeated drunken driving
S. Siegrist 291

The rehabilitation of drivers driving while intoxicated in Austria
W.D. Zuzan 296

Target group oriented rehabilitation programs for drinking drivers
M. Jensch 302

Treatment histories of severe DWI offenders
W.F. Wieczorek 305

Comparison of multiple DUI offenders selecting either antabuse or 12-step treatment programs
M.-E. Fortini, M.W. Perrine 311

Different forms of development in long-term therapy with DUI offenders
J.-M. Sohn, F. Meyer-Gramcko 317

Information and motivation groups for people who drive when prone to alcohol
R. Mayer 322

Management of drink drive offenders in Victoria, Australia
M. Wilson 327

The treatment of drunken drivers in Finnland
J. Heinonen 341

An Alcohol-Traffic-Program suited for the delinquent driver under influence
M. Smulders 345

Regranting driving license after medical control. Long-term follow-up and results of rehabilitation of drunken drivers
H. Kristenson, B. Sternebring, M. Mansson, G. Johnsson, K. Andersson 353

Constitutional rehabilitation of high consumers/drunken drivers in Sweden
K. Roos 364
Psychtherapeutic techniques to influence young alcohol impaired probationary drivers in training courses
T. Meier-Faust 365

Alcoholism markers in their relation to prevention and rehabilitation
M. Staak, R. Iffland 370

Alcohol and traffic safety. A research carried out in the Friuli-Venezia Giulia Region and Eastern Veneto (Italy)
M.M. Correra, P. Martucci 376

Rehabilitation of drunken drivers in the Federal Republik of Germany
G. Kroj 378

Measuring and Screening

Plenary paper

Modern developments in measuring and screening
W. Bonte, G. Machata 387

Breath alcohol analysis

The influence of temperature on breath-alcohol analysis
G. Schoknecht 392

Legal problems concerning the introduction of evidential breath alcohol tests in Germany
W. Bonte 398

Problems with outliers in breath alcohol testing
J. Wilske 401

Breath and/or blood analysis - some fundamental comments
M. Valverius 408

Infra-red breath-analysis instruments -
The laboratory and the real world
A. Moynham, J. Perl 412

Field performance of current generation breath-alcohol simulators
K.M. Dubowski, N.A. Essary 413

Determination of ethanol in breath and estimation of blood alcohol concentration with alcometer S-D2
A.W. Jones, K.A. Jönsson 423

Inner european problems of evidence evaluation in cases of DWI
M. Erkens 430

Legality and equality in relation to the swedish drunk driving law
H. Klette 434
Alcohol: analysis and methodical aspects

A comparison between alcohol in saliva measured by an enzymatic procedure and evidential blood and breath alcohol values
R.C. Denney, J. Matthews, N. Spencer, J. Broad 438

Recent advances in the analysis of ethanol in saliva: Evaluation of the QED device
A.W. Jones, K.A. Jönsson 445

Guidelines for retrograde extrapolation of blood alcohol concentrations
B.T. Hodgson, M.D. Taylor 452

The variability of B 60 during absorption and elimination of alcohol at the same person
W. Gubala 456

A validation study of alcohol effects on driver performance, using the Arizona DPS TOPS driving test
J.C. Miller, N.T. Schramm 457

Forensic alcohol training program
M.H. Breen, T.S. Dickan, R.L. Moore, S.A. Vallerkamp 458

Drugs other than alcohol

Screening of psychoactive substances in traffic accidents. A comprehensive analytical approach
S.D. Ferrara, L. Tedeschi, G. Frison, F. Castagna 465

Screening of benzodiazepines with special reference to lorazepam
P. Lillsunde, L. Michelson, E. Schultz, T. Korte, T. Seppälä, J. Pikkarainen 480

Fluoreszenz polarisations Immunoassays zum qualitativen Nachweis von Suchtdrogen in Urin
M. Jalalian, B. Reckmann 484

Importance of quantitative estimation of opiates and cannabinoids for determination of driving performance
M. Staak, H. Käferstein, G. Sticht 490

Detection of cannabinoids in serum of vehicle drivers after smoking cannabis in coffee shops
T. Daldrup, F. Mußhoff 497

Drug analysis as a basic for driving ability examination
G. Reinhardt, H. Sachs 505

Screening and quantitation of volatile substances by pulse heating method
Effects of drugs on psychomotor performance

Plenary paper

Effects of drugs other than alcohol on psychomotor performance
V. Hobi, U. Gerhard

Medicaments and driving performance

Benzodiazepines and driving performance
B. Friedel, M. Staak

Benefits of a databank on empirical studies on drugs and driving. Results on some hypnotics, sedatives as an example.
G. Berghaus, T. Fleermann

Paroxetine and driving performance
K.-W. Herberg

Psychomotor performance with anti depressant medication
P. Jauhar, A. Watson

Test drives in the Daimler-Benz driving simulator with drivers under diazepam and diphenhydramin
B. Friedel, S. Joo, K. Reker, W. Käding, P. Klostermann, K.-S. Saternus, V. Schneider

Psychotropic profiles of ipsapirone and diazepam alone and in combination with alcohol in normal volunteers: A placebo-controlled double-blind study
M. Beneke, W, Lüdtke, P. Wildt, R. Horstmann

Antihistamine effects on performance:
Comparison of diphenhydramine and terfenadine
M. Burns, H. Moskowitz

Effects of WAL801Cl (epinastine hydrochloride) on actual driving performance
T. Asoh, K. Okamoto, Y. Sakai

H2-receptor blockers: Interaction or marketing action
S. Siewers, T. Husemann

Relevants of recent developments in clinical psychopharmacology on skilled performance
M. Linnoina
