LIG/EDP’90 Conference Proceedings

S. Thomas Dunn  Patrice M. Dunn
Patrice M. Dunn  Henry Lassiter
Chairmen  Editors

Cooperating Organizations
American National Standards Institute Graphics Technology Committee (ANSI IT8)
Committee for Graphic Arts Technology Standards (CGATS)
International Prepress Association (IPA)
SPS Association
SWOP Inc.
Technical Association of the Graphic Arts (TAGA)

September 9-13, 1990
The Walt Disney World
Dolphin Hotel
Orlando, Florida

Lasers in Graphics (LIG) and Electronic Design in Print (EDP) are managed by Dunn Technology, Inc. (DTI). Lasers in Graphics, (LIG), Electronic Design in Print, (EDP), Electronic Printing Systems, (EPS), Electronically Integrated Processes for Print (EIP), DTI, the Dunn Report on Electronic Publishing & Prepress Systems, and Digital Data Exchange Standards (DDES), are trade marks of Dunn Technology, Inc. Direct Digital Color Proofing, (DDCP), Digital Distribution of Advertising for Publications (DDAP), and the 4C’s - Color Calibration, Communication, and Control, are service marks of DTI.

# TABLE OF CONTENTS

1990 *Lasers in Graphics/Electronic Design in Print*

**Volume I**

### Session 1: Strategic Directions for the 1990s

**Chair:** Brian Jordan, Deputy Managing Dir., Crosfield Electronics, Ltd. .......................... 1

**Electronic Prepress: Twelve Years of Progress**
Brian Jordan, Deputy Managing Director, Crosfield Electronics, Ltd. .......................... 1

**The "Affordable Color" Market in the '90s**
Rene Delbar, Director of Strategic Marketing, Agfa Compugraphic .......................... 7

**Strategic Technical Directions for Prepress in the '90s**
Grant Hall, Director of Electronic Imaging, American Color Corp. .......................... 12

**IT8 Award Presentation**
Paul Hanson, President, Hanson Graphics, Chairman of the IT8 Committee .......................... 17

**Presentation of the 1990 Electronic Prepress Pioneer Award (EPPA)**
Patrice M. Dunn, Vice President, DTI .......................... 19

### Session 2: EIP Issues and Technology

**Co-Chair:** S. Thomas Dunn, Ph.D., President, DTI  
**Co-Chair:** Patrice M. Dunn, Vice President, DTI .......................... 21

**4Cs, Desktop Color (DTC), and Integration**
S. Thomas Dunn, Ph.D., President, DTI .......................... 21

**Directions in Electronic Design**
Patrice M. Dunn, Vice President, DTI .......................... 23

**Evolution of Computing Power for Standard Workstations**
John Lynch, Director of Business Market Development, Sun Microsystems .......................... 28

**A Digital Printing Press and its CPC Capabilities**
Rudolf Uhrig, Heidelberger Druckmaschinen AG .......................... 32

**Best of DRUPA Award**
S. Thomas Dunn, Ph.D., President, DTI .......................... 35

### Session 3A: Design Consciousness in the Computing World - Panel Discussion

**Chair:** Don Sparkman, Sparkman, Byrd & Associates .......................... 41

**John Waters, President, Waters Design** .......................... 43

**Minton Brooks, Director of Design Technology, Design North** .......................... 46

**Patrice M. Dunn, Vice President, DTI** .......................... 50

**Questions & Answers** .......................... 53
Session 4A: Utilizing Technology to Provide New Services to Design Clients
Chair: Minton Brooks, Director of Design Technology, Design North

Introduction
Minton Brooks, Director of Design Technology, Design North

Jim Nielsen, Coordinator-Package Art Prod., General Mills Design Ctr

New Tools for Design Management
Karin Lundgren, Packaging Mgr, Kraft Mktg Services, Kraft General Foods
Bernard Spinelli, Corporate Mgr, Package Design, Miller Brewing Company

Session 5A: Issues in Type and Typography
Chair: Steve Byers, Steve Byers Limited

Graphic Arts Composition versus Desktop Composition - Which will establish the quality of the future?
Steve Byers, Steve Byers Limited

Graphic Arts Composition versus Desktop Composition - Which will establish the quality of the future?
Klaus Schmidt, Senior Vice President, Young & Rubicam

Typography and Technology: The Shape of Things to Come
Bert DePamphilis, Pastore, DePamphilis & Rampone

Graphic Arts Composition versus Desktop Composition - Which will establish the quality of the future?
Rene Kerfante, Managing Director, Monotype Typography

Graphic Arts Composition versus Desktop Composition - Which will establish the quality of the future?
Bruce Brenner, Manager of Typographic Development, Linotype Company

Graphic Arts Composition versus Desktop Composition - Which will establish the quality of the future?
Robert Givens, Vice President, Typographic Systems, Agfa Compugraphic

Making Type 1 and TrueType Fonts
Don Groves, Manager of OEM Marketing, Bitstream, Inc.

Questions & Answers

Session 6A: Digital Photoretouching with Integration to Prepress - Panel Discussion
Chair: Richard Abate, Technical Director, Walker/Pioneer Moss

Introduction
Richard Abate, Technical Director, Walker/Pioneer Moss
Don Hutcheson, Scanner/Photolab Product Mgr, Du Pont Imaging Systems
Jim Myrick, Vice President, Prepress Marketing, Barco Graphics
Alastair Reed, Senior Systems Analyst, MacDonald Dettwiler .................................................. 103
Roger Burns, Vice President, Marketing, LVT - a Kodak Company ............................................ 105

**CRT Color Image Recorders and Large Format Output**
James R. Teter, President, Management Graphics .......................................................... 109

**Questions & Answers** .............................................................................................................. 111

*Session 7A: The Art and Technology of Image Processing*
Chair: Melene Follert, Vice President, Potomac Graphic Industries .................................................. 115

**Introduction**
Melene Follert, Vice President, Potomac Graphic Industries .......................................................... 115

**The Quantel Graphic Paintbox - DRUPA '90 and Beyond**
Joseph A. Wielock, National Sales Manager, Quantel ............................................................. 118

**The Superset Color Lab II**
Hiram T. French, President, Superset, Inc. ...................................................................................... 122

**Photo-Realistic Illustration and Retouching on Mamba**
Don Hutcheson, Scanner/Photolab Product Mgr, Du Pont Imaging Systems .................................. 126

**Technology Evaluation Considerations for the Professional Color Labs**
Jeff Vabulas, President, UC Color Labs .......................................................................................... 129

**After the First Blush - Electronic Imaging Manipulation in the Photo Lab and Who Owns the New Original?**
Ilgvars Broks, Executive Vice President, BGM Colour Laboratories ............................................ 131

**Questions & Answers** .............................................................................................................. 135

*Session 8A: Names Colors and EIP - A Panel Discussion*
Chair: Richard Fisch, Division Scientist, 3M Company .................................................................... 137

**Introduction**
Richard Fisch, Division Scientist, 3M Company .............................................................................. 137

Gordon Phillips, Focoltone, Ltd. ....................................................................................................... 139

Steve Abramson, President, TruMatch, Inc. .................................................................................... 142

Richard Herbert, Director of Computer Technologies, Pantone ..................................................... 145

**The Colorcurve System**
Bob Dillon, President, ColorCurve Systems, Inc. ............................................................................ 149

**20 Keys to Color**
Jean Bourges, President, Jean Bourges Color ............................................................................... 152

**Experiences with Trying to Match Named Color Systems on Digital Systems**
Ed Dennis, CEO, A Tip Research Forum ........................................................................................... 156
Named Colors and EIP
Paul Yi, Associate Editor, MacUser Magazine .................................................. 158

Session 9A: Design to Prepress - The First Step Towards Electronically Integrated Publishing - Panel Discussion
Chair: Grant Hall, Director of Electronic Imaging, American Color Corp ............. 161

Introduction
Grant Hall, Director of Electronic Imaging, American Color Corp. ....................... 161

Approaching EIP in a Newspaper Environment
Kevin Corbett, Star Magazine .................................................................................. 162

Editorial and Advertising Design to Prepress
Tom Lundy, Tom Lundy Design & Consulting .......................................................... 165

Computers and Concept Creation in Advertising Agencies
Bob Myerson, Senior V. P., Creative Director, Saatchi & Saatchi, NY ...................... 169

EIP in Design Communication
Al Adams, Art Director, Electronic Design Manager, Creative Thoughts ................ 172

Setting Up Computerized Design to Production
Jerry Ryan, Director, Print Production, Service Merchandise ............................... 175

Questions & Answers ............................................................................................... 180

Session 10A: EIP Systems and the Printer
Chair: Judith A. Booth, Vice President, Technology, Courier Corp. ....................... 183

Introduction
Judith A. Booth, Vice President, Technology, Courier Corp. .................................. 183

The Publishers and EIP
Barbara Flockhart, Director of Production, Silver, Burdett & Ginn ......................... 185

EIP at Simon & Schuster
Gene Panhorst, Director, Publishing Applications, Simon & Schuster .................. 188

Robert Passantino, Director of Mfg & Distribution, John Wiley & Sons ................ 191

Books on Demand (SM)
Mark Fleming, Ph.D., Manager, Demand Printing Division, R.R. Donnelley .......... 194

EIP Progress at Trandek Printing
Michael McTeigue, President, Trandek Printing .................................................... 198

Training and Quality Issues in EIP
Nancy Dahnke, Sales Specialist, Precision Color .................................................... 202

Quality and Control Issues in EIP
Chuck Blevins, Chief Executive Officer, Blevins Harding Group ............................ 205
Session 11A: The Ad Agency Goes Computer - Panel Discussion
Chair: Klaus Schmidt, Sr V. P./Mgr, Production Services, Young & Rubicam ............... 207

Introduction
Klaus Schmidt, Senior V.P./Mgr, Production Services, Young & Rubicam ....................... 207

Macs and J. Walter Thompson - Compatible? You Bet!
Don Greifenkamp, Vice President, J. Walter Thompson ....................... 211

Introducing Electronic Design & Production Systems in a Large Advertising Agency
Clifford Goldthwaite, Computer Graphics Manager, Lintas ....................... 215

Michael Medved, Sr V.P./Dir. Graphic Services, Young & Rubicam, Detroit .................... 220

Patrice M. Dunn, Vice President, DTI ....................... 226

Questions & Answers ....................... 228

Session 12A: Retailers and Publishers Advance in the Electronic World
Chair: Jill Roth, American Printer ....................... 233

Introduction
Jill Roth, American Printer ....................... 233

Color Image Production on Desktop Workstations for Magazine Production
Katherine Parker, Mkt Dev. Mgr for Newspaper/Comm Pub'l, Sun Microsystems ................... 234

TASS + TESS = MAGICchron
Susan Shows, Director of Information Systems, Houston Chronicle ....................... 237

AGFA ColorScape Electronic Prepress System
Francois Gossieaux, Marketing Mgr of Color Systems, Agfa Compugraphic .................... 242

ColorScape in Use
Tom Jones, Vice President, Creative, Wickham & Associates ....................... 244

EIP Requirements for Catalogue and Magazine Publishers
Patrice M. Dunn, Vice President, DTI ....................... 247

Questions & Answers ....................... 250

Session 13A: Color System Trends
Chair: Patrice M. Dunn, Vice President, DTI ....................... 253

Introduction
Patrice M. Dunn, Vice President, DTI ....................... 253

Sunrise System in Production - User Experience
Charles Chauncey, CEO, Digicon Graphics ....................... 254

Controlling Color Through the Design Process
Wayne Mangold, Director of Marketing, Du Pont Design Technologies ....................... 257
