Contents

Volume 1
General

Keynote Address: Managing Plant Assets for Profitability
A.F. Armor, H.A. Mueller, and G.L. Touchton, EPRI .................. 1-1

Decision Analysis, Artificial Intelligence, and Decision Support Systems: Friends, Enemies, or Strangers?
A. Borison, Applied Decision Analysis, Inc. ......................... 2-1

Customized Decision Models Using Embedded Influence Diagrams
W.E. Balson, M.S. Gordon, and R.F. Nease, Decision Focus Inc. ...... 3-1

J. Fiksel, Cimflex Teknowledge Corporation .......................... 4-1

Intelligent Decision Systems: Making Decision Analysis Widely Available Through Automation
S. Holtzman, Strategic Decisions Group .............................. 5-1

Power Plant Investment

Issues in Power Plant Investment
C.M. Lee, Consultant .................................................. 6-1

Multi-Attribute Models for Investments in New Technologies
S. Mukherjee, OR/AICON International .............................. 7-1
PMOS: Decision Support Software for Evaluating Plant Modifications
W.E. Barrow, Duke Power Company; D. O'Connor, EPRI; S.J. Jabbour and K.R. Wapman, Decision Focus Inc. .......................... 8-1

Valuing Flexibility in Utility Planning Using Dynamic Programming
J. Falk and M. Berkman, National Economic Research Associates, Inc. 9-1

Electronic Data Processing in Support of Decision Making in Power Plants
J.R. Nicholas, Jr., NUS Corporation ........................................ 10-1

Decision Advisor for Aging Components: Pilot System Overview
L.V. Carpenter, Strategic Decisions Group; S. M. Divakaruni and R. B. Dooley, EPRI .................................................... 11-1

Availability Improvement Methods and Codes: UNIRAM, GADSRAM, UNISAM, ACOM
S.C. Hall, ARINC Research Corporation; J. Weiss, EPRI .............. 12-1

Power System Investment

Issues in Power System Investment
R.L. Coxe, Jr., New England Power Service Company ................. 13-1

Power Coach: An Intelligent Decision System for Bulk Power Marketing Decisions
E.N. Oatman and J.T. Lang, Strategic Decisions Group ............... 14-1

Decision Support Methods for the Electric Power Industry:
A Decision Making Process Using RISKMIN and EGEAS
L.A. Buttorff, Stone & Webster Management Consultants, Inc. ...... 15-1

CATALYST: A Group Process for Strategic Decision Making
A. Cohn, Applied Decision Analysis, Inc. ................................. 16-1

Decision-Making Using Least-Cost Planning Models
R.F. Naill, AES Corporation .................................................. 17-1
Decision Analysis — The Midas Way
M.S. Gerber, M.S. Gerber & Associates, Inc. ......................... 18-1

Evaluation of Uncertainties in Integrated Planning
Using UPLAN
R.W. Taylor, Public Service Electric & Gas Company; R.K. Deb, LCG Consulting ...................................................... 19-1

Using Decision Analysis for Evaluation of Transmission Projects
F. Mobasheri and B.R. Williams, Southern California Edison Co. .... 20-1

How To Make Decisions in a Complex World
H.G. Nezhad, Energy Institute, Moorhead State University ........... 21-1

Power Plant Operation and Maintenance

Thermal Initiatives
J. Newsham, New England Power Co. ................................. 22-1

Decision Analysis in Maintenance Scheduling: Reliability and Economic Effects
R. Mukerji, H.M. Merrill, and B.W. Erickson, PTI ..................... 23-1

An Application of Expert Systems for Coal-Fired Power Plant Operation
Y. Katsuki and M. Mizuno, Hokkaido Electric Power Co., Inc.; S. Isomura, Mitsubishi Heavy Industries, Ltd. ....................... 24-1

Predictive Maintenance Using the Boiler Maintenance Workstation — An EPRIGEMS Application
G.P. Singh and D. Steinke, Karta Technology, Inc.; J. Scheibel, S. Divakaruni, and S. Gehl, EPRI ................................. 25-1

A Decision Support System for Power Plant Operations
M.A. Nevins and B.L. Trumbo, Management Analysis Co. .......... 26-1
Graphical User Interface for On-Line Diagnostic System to Support the Operator Decision-Making Process

TRIAD: Turbine Rotor Inspection Advisor
L.J. Valverde A., EPRI; R.F. Nease, Jr., Decision Focus Inc. ............ 28-1

Application of Peer Unit Analyses to Power Plant Decision Making

Volume 2
Power System Operation

Problems Facing Today's Power System Dispatchers
D. Hayward, New England Power Co. ................................. 30-1

DYNAMICS: A New Approach to Utility Decision Making
S.J. Jabbour and W.M. Wells, Decision Focus Inc. ..................... 31-1

Optimum Resource Allocation: A Decision Support Approach
C.L. Aldini and G.H. Ford, Dames & Moore ......................... 32-1

Decision Support Approach for Voltage Collapse Estimation (DSVCE)
J.A. Momoh, Howard University; R. Adapa, EPRI ...................... 33-1

CRAFT: On-Line Expert System for Power System Operation
M.-S. Tsai and C.-C. Liu, University of Washington; H. Marathe, ESCA Corp.; R. Rogers and S. Muchlinski, Puget Sound Power and Light Co. ......................................................... 34-1

A Generation Scheduling Decision Supported by Neural Networks
Z. Ouyang and S.M. Shahidehpour, Illinois Institute of Technology;
S.M. Divakaruni, EPRI .................................................... 35-1
Power Plant Fuel Management

Issues in Power Plant Fuel Management
W.E. Blank, Kansas City Power & Light Co. .............................. 36-1

Utility Fuel Inventory Management Using UEMA
E.E. Bradley, Jr., Arkansas Power & Light Co. .......................... 37-1

Evaluating Fuel Strategies Using UEMA's CONTROL/CONSEX Model
J.F. Wilson, Decision Focus Inc. .............................................. 38-1

Fuel Requirements Forecasting Using Fuelburn
L.M. Lehmann and J.J. Langel, Applied Decision Analysis, Inc.;
M.R. Griffith, Kansas City Power & Light Co. .......................... 39-1

Integrating Decision Support Systems for Fuel Purchasing
R.H. Wright, Le Moyne College .............................................. 40-1

Natural Gas: It's a Whole New Ballgame (SENDOUT)
R.A. Giuliani, Jr., Energy Management Associates, Inc. ............. 41-1

Environmental Analysis

Issues in Environmental Analysis
J.H. Gastler, Northeast Utilities Service Co. .............................. 42-1

Emissions Trading: Effects on Utility Planning & Operation
V. Niemeyer, EPRI ................................................................. 43-1

The Air Emissions Risk Assessment Model (AERAD)
L.B. Gratt, SEA COR .................................................................. 44-1

Decision Support for Utility Environmental Risk Management
W.E. Balson and D.S. Wilson, Decision Focus Inc. ...................... 45-1

Risk Management for Noncombustion Wastes
K.K. Connor and J.S. Rice, Decision Focus Inc. ......................... 46-1

Utility Planning and Evaluating Environmental Externalities
D.M. Violette and D.C. Peterson, Jr., RCG/Bailly, Bailly, Inc. ...... 47-1
Advanced Topics

Probabilistic Models for Uncertainty Management in Expert Systems with Applications to Fossil Power Plants
L.J. Valverde A., Jr. and S.M. Gehl, EPRI .......................... 48-1

ARK: An Automated Knowledge Acquisition Tool
B.E. Tonn, Oak Ridge National Laboratory ......................... 49-1

A Decision Support System Based on Stochastic Comparisons
V.R.R. Uppuluri, Oak Ridge National Laboratory .................. 50-1

A Confidence Interval Based Technique for Evaluating Generation Alternatives
S. Rahman and G. Shrestha, Virginia Polytechnic Institute and State University .......................... 51-1

KBTAC — The EPRI-Sponsored Knowledge Based Technology Applications Center
W. Meyer and R. DeLuke, EPRI Knowledge Based Technology Application Center, Syracuse University .................................. 52-1

DPL: A New Tool for Decision Analysis
H.J. Call, Applied Decision Analysis, Inc. .......................... 53-1

Problem Identification: An Exploratory Data Analysis Solution for Hydropower
H.R. Horsey, D.R. Sieh, and B.P. Makare, Center for Advanced Decision Support for Water and Environmental Systems, University of Colorado; M.J. Roluti, U.S. Bureau of Reclamation .................... 54-1

A Generator Expert Monitoring System (GEMS)
B. Lloyd, Ontario Hydro ............................................. 55-1

Appendices

Appendix A
Conference Agenda .................................................. A-1

Appendix B
Attendance List ..................................................... B-1
