## CONTENTS

Preface v

1. **Visual Interface Design**

   Virtual Worlds for Visualizing Information (Invited Talk)
   
   S. Feiner (Columbia Univ., USA) 3

   A 3D Visual Environment for Querying Image Databases
   
   A. Del Bimbo, M. Campanai, P. Nesi (Univ. of Firenze, Italy) 12

   Functional Decomposition of Facial Expressions for an Animation System
   
   C. Pelachaud (Univ. of Pennsylvania, USA) 26

   Management of Color Usage in Dynamic Mapping Environments: Balancing Semantics, Visual Ordering and Discernability
   
   D. Bardon (MIT, USA) 50

   Graphics, Hyperqueries, and Natural Language: An Integrated Approach to User-Computer Interfaces
   
   P. Marti, M. Profili, T. Raffaelli (Alenia, Italy), G. Toffoli (Link, Italy) 68

   Encoding Information through Spatial Relations
   
   J. Slack, C. Conati (IRST, Italy) 85

2. **Visual Interaction**

   What can Users tell us about User Interface? (Invited Talk)
   
   S. J. Mountford (Apple, USA) 103

   An Approach to Integrate Multimedia Data in a Knowledge Representation System
   
   E. Bertino (Univ. of Genova, Italy), M. Damiani, P. Randi (Datamont, Italy) 109
3. Visualization Methods

The Information Visualizer: A 3D User Interface for Information Retrieval (Invited Talk)  
   J. D. Mackinlay, G. G. Robertson, S. K. Card (Xerox, USA)  

An Application of Three-Dimensional Visualization to Object-Oriented Programming  
   H. Koike (Univ. of Electro-Communications, Japan)  

Incorporating Graphics Design and Realization into the Multimodal Presentation System WIP  
   T. Rist, E. André (DFKI, Germany)  

Simulation of Communications Protocols through Graphical Transformation Rules  
   B. Bell (US West Advanced Technologies, USA)  
   W. Citrin (Univ. of Colorado, USA)  

Programming Aspects of Views, an Open-architecture Application Environment  
   S. Pemberton (CWI, The Netherlands)  

4. User Models

Automatic Design of Multimodal Presentations (Invited Talk)  
   W. Wahlster (Univ. of Saarbrücken, Germany)
User Modeling for Adaptive Presentation of Information
  F. De Rosis, S. Pizzutilo (Univ. of Bari, Italy),
  D.C. Berry (Univ. of Reading, UK)

Visual Interface Design based on User's Models
  N. Bianchi, P. Bottoni, P. Mussio (Univ. of Milano, Italy)

5. Formal Methods
A Visual Optimization Specification Language (Invited Talk)
  C.-R. Dow, M. L. Soffa, S.-K. Chang
  (Univ. of Pittsburgh, USA)

Graphs and Visual Languages for Visual Interfaces
  M. Tucci, G. Vitiello, G. Costagliola, G. Pacini, G. Tortora
  (Univ. of Salerno, Italy)

Parsing 2D Languages by a Pictorial GLR Parser
  G. Costagliola, S.-K. Chang (Univ. of Pittsburgh, USA),
  M. Tomita (Carnegie Mellon Univ., USA)

Generalizing Event Detection and Response in Visual
Programming Languages
  M.M. Burnett (Michigan Tech. Univ., USA),
  A.L. Ambler (Univ. of Kansas, USA)

Visual Message Flow Language MFL and its Interface
  P.T. Cox, T. Pietrzykowski (Tech. Univ. of Nova Scotia, Canada)

6. Graphical Layout Strategies
Constraint-Based Graphical Layout of Multimodal Presentations
  W. Graf (DFKI, Germany)

Minimum Size h-v Drawings
  P. Eades, T. Lin (Univ. of Newcastle, Australia),
  X. Lin (Univ. of Queensland, Australia)

Algorithmic and Complexity Results for Drawing Euclidean Trees
  S. Whitesides (McGill Univ., Canada),
  R. Zhao (INRS Telecommunications, Canada)
7. System Prototypes

The KIWIS System: Navigation and Querying
L. Tarantino (Univ. of L'Aquila, Italy),
F. Staes (Univ. of Antwerpen, Belgium)

Gestural Interfaces for Diagram Editors
R. Zhao (Univ. of Paderborn, Germany)

Diagram Server
G. Di Battista, G. Liotta, M. Strani, F. Vargiu (Univ. of Roma I, Italy)

LOTECH: An Interactive Problem Solver for Location
S. Giordani, C. Iorio (Algotech Informatica, Italy),
E. Nardelli, (IASI-CNR, Italy), M. Talamo (Univ. of Roma I, Italy)

Author Index
