VOLUME TWO

THE PROCEEDINGS OF THE 1992 ANNUAL MEETING OF IVHS AMERICA

Surface Transportation and the Information Age

May 17-20, 1992

Newport Beach, California
Table of Contents - Volume Two

System Architecture
   Robert E. Parsons, presiding
   • The Relationship Between System Architecture and Radio Frequency for IVHS
     D. James Chadwick, Vijay Patel, George Beronio
     439
   • Vehicle/Roadside Communications (VRC): The Next Infrastructure?
     Daryl S. Fleming, Thomas L. McDaniel
     445
   • Review of Federal Highway Administration's System Architecture Program
     Gary W. Euler
     449
   • An IVHS Systems Architecture Workshop
     Bernard A. Galler, Kan Chen
     449
   • Alternative Architecture for ATIS ATMS
     Michael F. McGurrin, Melvyn D. Cheslow, S. Gregory Hatcher
     456

System Architecture
   Gary W. Euler, presiding
   • The TEMPO Alternative: A Case for Immediate Achievement of IVHS Goals Using a Compound
     (Mechanical/Electronic) Solution
     Philippe C. Nobileau
     471
   • The Development of a New Navigation System with Beacon Receiver
     Kenji Ohishi, Hidetaka Suzuki
     485
   • A Vehicle to Roadside Communications System for IVHS
     Peter D. Shloss, Dale Feikema
     490
   • A Distributed, Hierarchical System Architecture for ATMS and ATIS
     Anthony F. Hotz, C. H. Much, T.J. Goblick, E.G. Corbett, A.M. Waxman,
     K. Ashok, M.E. Ben-Akiva, H.N. Koutsopoulos
     499

Advanced Public Transportation Systems (APTS)
   Michael P. Bolton, presiding
   • SMART BUS IN THE SMARTER WORLD
   509
   • Smart Bus In The Smarter World German "Smart Bus" Technologies: Lessons For the U.S.
     Robert W. Behnke, Park Woodward
     511
   • Houston Smart Commuter IVHS Demonstration Project
     Katherine F. Turnbull, Dennis L. Christiansen
     513
   • Future Shock - Data Fusion and System Integration System for Advanced Public Transit Systems
     Michael P. Kushner, Joseph Romancheck
     519
   • Advanced Fare Payment Media
     Thomas L. McDaniel
     530
Advanced Public Transportation Systems (APTS)
Ronald J. Fisher, presiding

TRANSIT AS A MOBILITY MANAGER: MORE THAN JUST A BUS

- IVHS Technology for Improving Ridesharing
  John S. Niles, Paul A. Toliver
  537

- Responsive Multi-Modal Transportation Management Strategies
  Aladdin Barkawi, Salvatore J. Bellomo, Ronald J. Fisher
  548

- Flexible, Intelligent, Multi-Modal Transportation
  Monica M. Suter
  553

- A Multi-Mode Approach to ATIS Featuring the Destination Travel Card
  Alan Danns
  563

Advanced Traveler Information Systems (ATIS)
Frank J. Mammano, presiding

- TravTek
  James H. Rillings
  569

- A Conceptual Overview of ADVANCE
  B. Clark Smith, Philip Pollock, Frank Koppleman, Chandra Bhat, Peter Nelson, Douglas Rorem
  579

- Travelguide: Ontario's Route Guidance Concept
  Gabriel Heti
  589

- The California Smart Traveler
  Robert Ratcliff
  597

Advanced Traveler Information Systems (ATIS)
James H. Rillings, presiding

- Information Requirements for Advanced Traveler Systems
  John Jasper, Nancy Marsh
  603

- Development and Implementation of Systems to Collect, Analyze, and Disseminate Real-Time Traffic Information: A Private/Public Enterprise
  Kevin N. Balke, William R. McCasland
  608

- Experimental Studies For Toyota Voice Route Guidance Using Beacon
  Michima Ogawa, Hiroshi Morita
  614

- Dynamic Route Guidance and Traffic Management Operations in Germany
  Heinz Sodeikat
  623

- ATIS Committee Report
  James H. Rillings, Frank J. Mammano
  627
Advanced Traffic Management Systems (ATMS) 633
Gene Ofstead, presiding

• Guidelines for Implementing Advanced Traffic Management Systems (ATMS) 635
  Robert E. Maki, David M. DeVaughn

• Marketing ATMS and Measuring the Benefits 645
  Leslie N. Jacobson

• ATMS: Seven Steps to Deployment 650
  Richard F. Beaubien

• ATMS Technology: What We Know and Don't Know 654
  Alberto J. Santiago

Advanced Traffic Management Systems (ATMS) 661
Bo Strickland, presiding

• Communications Infrastructures for Advanced Traffic Management Systems 663
  Mark R. Komanecky, Thomas Minior

• The Traffic Operations Center of the Future 672
  Craig H. Seidel, Thomas I. Dayharsh

• Technology Considerations for a Fault-Tolerant, Windowed Video Computer Control System for Fast-Response Incident Management 681
  Paul A. McOwen, Jr., John Collura

Advanced Traffic Management Systems (ATMS) 689
Jeffrey A. Lindley, presiding

• Color Graphics - Anaheim Intertie Project 691
  Gregory B. Damico, Shahram Shariari, Donald W. Dey

• Intelligent Data for Incident Detection 695
  Henry B. Wall, III, Blair G. Marsden, John Hunt

• Real Time Diversion Strategies for Congested Urban Networks 706
  Antoine G. Hobeika, K. Ozbay, R. Subramaniam, R. Sivanandan

• Communication System Design for Los Angeles Smart Corridors Project 717
  S. Edwin Rowe, Verej Janoyan

iii
SAFETY AND HUMAN FACTORS OF CRASH AVOIDANCE

- The Importance of Crash Problem Analysis in Defining NHTSA's IVHS Program
  William A. Leasure, Jr. 727

- A Front End-Analysis of Rear-End Crashes
  Ronald R. Knipling, Donald L. Hendricks, Joseph S. Koziol, Jr.,
  John C. Allen, Louis Tijerina, Colin Wilson 733

- How to Evaluate Safety of AVCS Devices
  Anthony Hitchcock 746

- Rationalizing the Study of Active Safety Technologies
  Robert D. Ervin, Paul S. Fancher 751

- Managing Alertness and Fatigue in Advanced IVHS
  Donald I. Tepas, Michael J. Paley 785

SAFETY AND HUMAN FACTORS OF DRIVER INFORMATION AND QUALIFICATION

- Development of a Traffic Information System Driver Interface
  Gretchen Paelke, Paul Green 793

- Potential Implications of IVHS for Driver Preparedness and Qualification
  Patricia F. Waller 803

- In-Vehicle Navigation Systems: Research on Driver Behavior and Traffic System Performance
  R. Wade Allen, Anthony C. Stein, Jaime F. Torres, and Abolhassan Halati, Theodore Rosenthal 807

SAFETY IN IVHS: WHAT IS REAL?

Panelists:
- Rodger J. Koppa 829
- R. Wade Allen 831
- Paul Green 832
- August Burgett 835
- Michael Finkelstein 837
- Eugene I. Farber 838
- Truman Mast 840
- Mark Freedman 841

Closing General Session

Lester P. Lamm, presiding 847

- Transportation Research & Technology Coordinating Committee Report
  Louis Tornatzky 851
  - Transportation Research Board's Research & Technology Coordinating Committee
    Thomas Deen 856
    Patricia Waller 858

Glossary 861
