Effect of Geomechanics on Mine Design

Edited by
A. KIDYBIŃSKI & J. DUBIŃSKI
Central Mining Institute, Katowice

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1992
Table of contents

Introduction  A.Kidybiński  VII

1  On site investigations

Controls exerted by dominant parting planes over the deformation of tabular deposits  B.G.D.Smart  3

Development of mining induced seismicity in relation to the advance of coalfaces in Karviná, part of Ostrava-Karviná Coal Basin  P.Konečný  11

Water inflows and weightings above longwall workings  G.C.Xiao & I.W.Farmer  17

Surface subsidence associated with partial extraction: An Australian case study  D.Rowlands  27

Control of deformations in the pillar between the twin bores of a tunnel in Aosta valley, Italy  P.Grasso, G.Carrieri & A.Mahtab  47

Soil strain measurements in areas of underground mining exploitation  J.Gustkiewicz, A.Kanciruk & L.Stanisławski  57

A research into underground pressure in longwall face induced by use of sublevel caving in thick seam  Li Hong-chang & Zhu Shi-shun  67

2  Theoretical and practical studies

A theoretical basis for physical models  N.Brook  77

Energy analysis during compression tests of rock samples  D.Krzysztof  85

Inversion analysis of original stress condition of rock strata based on extensometric measurement results  J.Aldorf  95
The model of structural mechanics and its theoretical basis for designing strata control technique in longwall panels
Song Zhenqi, Liu Yixue & Jiang Jinquan

Determination and prediction of geomechanical state of rock mass
I.M. Petukhov

Interpretation of the results of rock pressure upon tunnels lining at full-scale measurements at the lining stage construction
Nina N. Fotieva, A.S. Sammal & A.K. Petrenko

Interpretation of the results of full-scale measurements in the vertical mines shafts
N.S. Bulychev & I.I. Savin

3 Design considerations and mining technology improvements

Mining design of a vein orebody exploitation using two cemented fill methods
O. Del Greco, A.M. Ferrero, G. P. Giani & D. Peila

Yield pillars in a deep potash mine
P. Squirrell

A method for forecasting of the gasdynamic events in Nowa Ruda coal mine
J. Dubinski, A. Dybciaik & J. Jezewski

New concept of destressing in outburst prone rocks
Z. Rakowski

Rock pressure control at longwall faces by using the powered supports
A.A. Orlov

Author index
