PROCEEDINGS OF THE SEVENTEENTH ANNUAL
BRITISH COLUMBIA MINE RECLAMATION SYMPOSIUM

MINE RECLAMATION
"BUILDING CONFIDENCE"

Convened at the Seagate Hotel
Port Hardy, British Columbia - May 4 - 7, 1993
Organized by the Technical and Research Committee on Reclamation

Sponsored by the Mining Association of B.C.
The Ministry of Energy, Mines and Petroleum Resources
The Ministry of Environment, Lands and Parks
With support from
The University of British Columbia
Camosun College
The Coal Association of Canada
# TABLE OF CONTENTS

**THE TECHNICAL AND RESEARCH COMMITTEE ON RECLAMATION**

**REPORT OF THE TRCR AWARDS SUBCOMMITTEE**

**ACKNOWLEDGEMENTS**

**TECHNICAL PAPERS:**

1. Reform of Environmental Assessment in British Columbia
   
   Bruce Morgan and Doug Dryden, presented by
   David Parsons, Ministry of Environment,
   Lands and Parks
   
   Page 1

2. Risk Based Evaluation of Mine Waste Dumps
   
   Alistair Kent and Bill Johnson
   Golder Associates Ltd.
   
   Page 11

3. Gravel Extraction and Land Reclamation Within the Agricultural Land Reserve - Policies and Objectives
   
   Brian McBride
   Provincial Agricultural Land Commission
   
   Page 23

4. Qualitative Environmental Risk Assessment Applied to the Proposed Windy Craggy Project
   
   Clem A. Pelletier and Kelvin Dushnisky
   Rescan Consultants Inc.
   
   Page 35

5. Mining and The Public - 'The Sullivan Experience'
   
   Andrew Whale, Ministry of Energy, Mines and Petroleum Resources
   Ron Simkus, Cominco Ltd.
   Laura Duncan, East Kootenay Environmental Society
   
   Page 45
6. Reclamation and Revegetation of Mine Spoils Using Biosolids - Princeton Trial Projects

   Donna Salahub, Greater Vancouver Regional District
   David Sahlstrom, Terrasol
   Steve Silson, Brown and Caldwell Consultants

7. Use of Shotcrete To Control Acid Mine Drainage In Waste Rock Piles

   J.Y. Wong, Powertech Labs
   C.E. Jones, Northwest Geochem
   R. van Dyk, Westmin Resources

8. Effects of Feeding High Molybdenum Hay to Mature Beef Steers

   D.A. Quinton, Z. Mir, P. Mir, H. Saunders,
   A. vanRyswyk, Agriculture Canada
   K. Munro, Highland Valley Copper

9. Groundwater Quality Evaluations of Mines

   Hugh McCreadie, Rod Smith
   Klohn Leonoff Ltd.

10. The Development of a Closure Plan for Island Copper Mine

    Ian A. Horne
    BHP Minerals Canada Ltd.

11. Prediction and Reality: Static Analyses Versus Actual Rock Weathering in Waste Dumps at Island Copper Mine, Port Hardy, B.C.

    Diane Lister, and George Poling, University of British Columbia
    Ian A. Horne, BHP Minerals Canada Ltd.
    Michael G. Li, Klohn Leonoff Ltd.

12. The Appropriate Geochemical Monitoring of Toe Seepage From a Mine-Rock Dump

    Kevin A. Morin, Morwijk Enterprises Ltd.
    Ian A. Horne, BHP Minerals Canada Ltd.
    David Flather, Rescan Environmental Services
   L.S. Sinclair
   Saskatchewan Environment and Public Safety

14. Modification of the Net Acid Production (NAP) Test
   Kim Lapakko, Minnesota Department of Natural Resources
   Richard W. Lawrence, University of British Columbia

15. Development of Rehabilitation Plans for Acid Rock Drainage Control at Two Closed Underground Mines
   M. John Brodie and John T. Chapman
   Steffen Robertson and Kirsten (Canada) Ltd.

16. Soilcover, A New Computer Model to Aid in the Design of Soil Cover Systems for Acid Generating Waste Rock and Tailings
   M. O'Kane, G.W. Wilson and S.L. Barbour
   University of Saskatchewan

17. The Use of Routine Monitoring Data for Assessment and Prediction of Water Chemistry
   Kevin A. Morin, Morwijk Enterprises Ltd.
   Nora M. Hutt, Normar Enterprises

18. An Overview of Acid Mine Drainage Mitigation and Test Work in Northwest Quebec
   William A. Price, Ministry of Energy, Mines and Petroleum Resources
   Gilles A. Tremblay, CANMET

POSTER PRESENTATIONS:

1. Use of Zeolite to Treat Acid Rock Drainage from Britannia Minesite
   R.J. Vos and T.A. O'Hearn, British Columbia Research Corporation
2. Physical Flow in Waste Rock Dumps and Implications for Predicting Leachate Quality

Stephen Day and David Harpley, Dames & Moore

3. Rates of Sulphide Oxidation in Submerged Environments: Implications for Subaqueous Disposal

Kevin A. Morin, Morwijk Enterprises Ltd.
